

"Company" Manners

"When do you say 'Thank You,'" asked the teacher. Little Johnnie replied: "When we have company."

That must be what they call "company manners." Our bank has no company manners. We try to treat everybody alike, every day in the year. We try to be courteous, accommodating, friendly. If we can be of service to you, kindly call and tell us your needs. We take pride not only in having a good, strong, reliable bank, but also in our helpful service. We invite you to take advantage of our excellent banking facilities.

Don't Abuse Your Eyes

There's a limit to which your eyes can be abused and still retain their efficiency.

Continued close work, especially by artificial illumination, causes much eyesight distress. But, thanks to modern science, this can generally be overcome with proper glasses.

Don't neglect your eyes when an authoritative examination and experienced advice are available at small cost.

Lewis Groves, about 72 years of age, for many years a resident and well known here, died at his home on west Main street, where he lived alone, Tuesday afternoon. He had been in ill health for some time and had come home from a Eugene hospital just a week before his death. Following his return he appeared to be improving and was down for a day or two, and though his condition was known to be serious, his death was unexpected.

Mr. Groves was a miner and for many years was employed in the Bohemia district. He was born in Des Moines, Ia., and came to Cottage Grove in 1896. A son lives at Centralia, Wash., and a daughter, Mrs. Madie Wallace, lives at Silt-coos. The remains were shipped yesterday to Centralia, where they will be buried beside his wife.

Mixing the Metaphors.

At a political gathering in England an orator waxing indignant said, "To ridicule the idea of this country being invaded is to follow the example of the camel, which buries its head in the sand when it sees an enemy approaching."

The rival speaker rose and retorted, "Surely the gentleman in giving utterance to this apothegm must have meant to refer to the ostrich which, in those circumstances, has a habit of putting its eye through a needle."—Boston Transcript.
