## CITIZENS COOPERATE S. of O. TANK **IMPROVEMENT PROGRAM**

New Sidewalks and Trimming of Trees and Shrubbery Evidence of Pride in City.

Evidences of cooperation of the citizens with the mayor and council in the clean-up program launched are to be seen all over the city. A number of new board sidewalks and several stretches of cement and several stretches of cement walk have been put in within the past few weeks, but the shortage of lumber in small quantities on the local market has delayed some side-walk building. In every instance, according to H. H. Fiester, who has charge of the work, the people are anxious to do all they can toward beautifying the city and do not resent the suggestions he has made to them.

Low-hanging trees and vines aud bushes which have grown over the 4 sidewalks have been trimmed off or torn out and many people have caught the inspiration and are cleaning up their yards and making

their houses more attractive. Spring clean-up day will be held soon, although no date has been set, and that will serve as a windup of the campaign. The Civic club, which has an-

nounced a sweet pea show to be held in June or July, may sponsor some kind of a contest to run all summer in which prizes will be given for the best kept home or street in the city. In line with the Civie club's improvement program, Mrs. Clara Burkholder, president, Mrs. Clara Burkholder, president, has gathered suggestions for im-provements of the city from a num-ber of citizens. Nearly every person voiced disapproval of the old build-ings about the city, especially those along old Pacific highway on the west side of the city and those near the station and along the railway tracks through the city. Many of

Old copies of a newspaper are almost as interesting reading as those just off the press. Old copies of Cottage Grove papers frequently come to light. They are brought forth from old gar-rets, from old tranks and out of "catch-alls" where they were put away years ago because of some item published therein which the owner of the paper wished to preserve.

wished to preserve. Mrs. G. H. Young has found a copy of the Bohemia Nugget dated July 7, 1899, which had been addressed to Jonston Tay-lor, her former husband.

According to this issue a big Fourth of July celebration had just been pulled off, during which celebration committees at past few years, being now quoted at 14 cents the pound. It is largely used in combating plant diseases, especially the cotton weevil of the BUKOWSKI BUYS BARBER Cottage Grove and at Bohemia 35 miles distant had signalled to each other with sky rockets. Quicksilver has jumped to \$72 the flask, which may mean the opening of the cinnabar mines at Black Butte. The main rold ore vein has been striking pay dirf. The Bingman had just returned from the Mu-sick, where the stamps had been put into operation. "There is a record-breaking future for this mine," the paper predicted. "Bohemia" Sharp explained how he haveneed to come to Oregon he happened to come to Oregon by way of the Panama canal during the Civil war. Ziniker & Graber Brothers had struck a pay streak at Fairview. Among the advertisements was one of wines and liquors. Possibly this had something to do with making prospects seem so bright. Those were the days when printers could be hired at a price that made it possible to let them spend time twisting rules and filling all blank spaces with ornaments. One of these rule twisters had made a first class imitation of the sole of a shoe, in which Hemenway & Burkhold er advertised a special line. Even the pags in the heel were shown.
