The Romance of Investment-Saving

ELBERT HUBBARD SAID: "Saving is the revelation of the moral power to govern oneself. . . He who does not determine to save will always be the victim of circumstances. . . What you save will furnish you the necessary force to dictate or refuse conditions. . . When a man produces more than he consumes, receives more than he spends, life is fruitful; he is filled with courage, with noble ambitions, animation and will power."
