

The Cottage Grove Sentinel

VOLUME XXXIII

COTTAGE GROVE, LANE COUNTY, OREGON, FRIDAY, JUNE 8, 1923

NUMBER 39

CITY HALL BONDING MEASURE DEFEATED BY VOTERS

Proposal to Create Lighting District Is Also Lost; Little Interest Is Manifested.

The proposition to bond the city in the amount of \$30,000 for a new city hall was defeated at a special election held Monday in which not over 10 per cent of the vote of the city was cast. Five per cent additional voters could have changed the result.

The proposition to give the council power to permit property owners to create lighting districts was also defeated by almost the same vote. A proposition to take from the council power to sell the west side watershed without a vote of the people was successful, the vote on this being exactly reversed.

The council favored all of these propositions. It is probable that many votes were cast against the city hall bonds because of the fact that the same proposed amendment would have repealed the \$50,000 issue of electric lighting bonds. It is possible that the retention of this bond issue makes it possible for the city to use part of this issue to make the improvements in the lighting system that were contemplated in the event that the power to create lighting districts was granted.

The Mountain States Power company is anxious to start at once the rebuilding of its entire distribution system in the main part of the city because of the fact that the feed wires are not heavy enough. It wishes to remove its wooden poles from Main street and put them in the alleys. This would necessitate the placing of steel standard poles on Main street, with the wires running underground. Had the amendment been acted upon favorably giving the council power to create lighting districts, the property in the business section would have been asked to stand a portion of the additional expense of installing and maintaining such a system. It is possible that the council may now use a portion of the \$50,000 lighting bonds for installing the steel standard poles. That would throw the cost onto the city as a whole, but the business section would, as a matter of fact, stand the greater part of the expense, for probably two-thirds of the taxes are raised in the business section.

It is more than likely that had any campaign been made for the city hall bonds they would have been acted upon favorably. Lack of information as to exactly what kind of a city hall was contemplated resulted in many unfavorable votes and accounted for the lack of interest on the part of others.

The proposition probably will be put up again in the not distant future.

The bonds and the lighting district proposition were acted upon favorably in ward No. 2, where the city hall would be located and where it was proposed to create a lighting district.

A larger vote being cast was that the polls were not open at an hour when it was possible for laboring people to vote.

Ward Ward		City hall bonds:		Lighting districts:		Restricting sale of water system:

George Keibelbeck Hooks Big Ones.
Hebron, June 5.—(Special to The Sentinel).—G. M. Keibelbeck who, with his family spent the week end with relatives at Wallowville, demonstrated his ability as a fisherman on the trip by landing an 18-inch Dolly Varden and three Red-sides which measured 16, 13½ and 12 inches.

TUESDAY WARMEST DAY WITH THERMOMETER AT 84

Tuesday was the warmest day Cottage Grove has experienced this year, the thermometer registering slightly more than 84 degrees as the maximum heat on that day. The thermometer registered 60 on June 1, 67 on June 2 and 3, 80 on June 4 and 83 on June 6. This is considerably warmer than for the same period a year ago, when the temperature was: June 1, 72; June 2 and 3, 79; June 4, 78; June 5, 75, and June 6, 78.

Industrial Clubs Get Charters.
Industrial clubs among school children in the Cottage Grove country have been granted charters as follows: Delight Valley Cookery club, Seginaw, Mary C. Harding leader; Lynx Hollow Beaver Poultry club, Walker, Louis Klindt leader, and Busy Five Sewing club, Seginaw, Sibyl M. Cellers leader.

Local Firm Ships Many Tires.
The Cottage Grove Rubber company is shipping a quantity of its product. One shipment of 24 tires went to Oregon City this week. One tire was shipped to Janesville, Wis.

Rubber stamps of every kind at The Sentinel live wire print shop. Anything in the printing or allied lines can be secured at or through your home live wire print shop.

OREGON'S PAVED ROADS ARE BEING BOOSTED IN PAPERS OVER COUNTRY

A story by C. B. Forbes, describing Oregon roads and published in Forbes Magazine, has been quoted in numerous papers of the country. The following clipping is taken from The Express, Enfield, Ill.:

In five years Oregon has spent \$57,000,000 in road building. How's that for a population of only 800,000? No other state in the union probably comes anywhere near such a per capita expenditure for good roads. Other Pacific states also are energetically constructing the very finest paved highways. Oregon's roads have cost \$30,000 a mile, exclusive of bridges. The result is that you can now drive hundreds of miles north and south on roads the equal of any that New York, Chicago or any other large city can boast. Also it will very shortly be possible to motor clear through the state of Oregon to the Idaho border line, a distance equal to the total length of England.

I noticed, too, a great many substantial roads in many parts of the western half of the country. Good roads always go hand in hand with a high state of civilization. If the Romans needed good roads in their day, how much more does this far-flung continent need them today? Next to necessary expenditures for up to date sanitation no district can invest a generous amount of money more wisely than in constructing first-class roads, now so necessary for the expeditious transportation of products and so conducive to the development of desirable social intercourse, without which we can never hope to have our agricultural resources adequately developed.

Yes, the west is on the right track.

"THE LITTLE CLODHOOPER" MAKES A HIT AT DORENA

"The Little Clodhopper," a comedy drama of American life presented by the high school in the hall Tuesday evening of last week made a distinct hit and drew a large attendance. Professor Lawrence as George Chiggerson and David Robinson as Okey Gump created much laughter. Others of the cast who carried their parts well and deserved much praise for the success of the piece were Floyd McLin as Septimus Green, Florence Land as Mrs. Chiggerson-Boggs, Flora Bales as Miss Julietta Bean, Thelma Thomson as Charming Carter and Dora Mosby as Judy Elliott.

YEOMEN LIKE HOME SITE OFFERED BY ROSEBURG

Although the Delight Valley site proposed as a location for the Yeoman home is viewed favorably by the committee of national officers of the order now making the inspection tour, word sent out from Portland headquarters indicates that the Curry farm near Roseburg has impressed the committee more favorably than has the local site. The board of directors of the order is expected to decide upon the location of the home at a meeting in July.

BENDER ESTABLISHES NEW BAKERY IN PORTLAND

The L. A. Bender family left Monday for Portland, where Mr. Bender is establishing a bakery. He has leased a large building and is moving his electric oven from his bakery here to his new location, where he is installing the newest and most modern equipment. E. A. Duff will continue to operate the local bakery.

LORANE MOONSHINER GETS ONE YEAR IN COUNTY JAIL

Al Neil, Lorane rancher who was arrested a few days ago while operating a moonshine still, has been sentenced to serve one year in the county jail and to pay a fine of \$100. He was indicted by the grand jury and entered a plea of guilty.

Miss Myrtle Kem Is Honored.

University of Oregon, Eugene, June 6.—(Special).—Myrtle Kem, of Cottage Grove, a senior in the department of English at the University of Oregon, was recently initiated as an active member of Phi Beta Kappa, national honorary scholastic society for men and women. The Oregon chapter of Phi Beta Kappa is known as the Alpha chapter and has about 125 members.

ACROBATIC AX INFLECTS NEAR FATAL WOUND ON CLARENCE SEARS' HEAD

Mount View, June 4.—(Special).—Clarence Sears narrowly escaped a fatal injury a few days ago in an inexplicable manner. He was cutting off a block of wood with gasoline wood saw and had struck the ax into the top of the block. He was reaching to stop the saw, when the ax flew up for some reason which Mr. Sears does not understand and struck him on top of the head. A large gash was cut and the physician who attended him said that if the ax had struck an inch to one side it would have inflicted a fatal injury. Several stitches were taken and Mr. Sears is now doing nicely.

COTTAGE GROVE NOW ONLY TEAM WITH 1000 PERCENTAGE

Springfield Is Taken Into Camp in Game in Which Team Work Is the Feature.

In one of the snappiest ball games of the season, Cottage Grove won Sunday at Springfield and is now the only team in the Upper Willamette league with a percentage of 1000. The score was 5 to 2 in a game that was featured by lack of errors and lack of hits. Turpin for Cottage Grove sent 11 down by the strikeout route. There was very little outstanding playing by individual players but the teamwork on both sides was exceptionally strong.

Heck, for the locals, played an exceptional game at shortstop and knocked in the first two runs. Frank Brumbaugh, in left field, made an exceptional peg to the home plate after catching a fly, cutting off the runner who had left third base.

The lineup was changed somewhat. Cellers was brought in from right field and guarded the second sack. King was a new man at third. He made the only serious error for the locals but redeemed himself with his batting and base running.

Cottage Grove goes to Roseburg next Sunday and Harrisburg comes here the following Sunday. Local fans expect the locals to carry off the pennant, as they have done for several seasons, and no doubt a large bunch of wild roosters will be out for the next game on the home grounds.

SPRAY FOR CODLIN MOTH AT ONCE, ADVISES AGENT

The heat of the past week has brought out the codlin moth, according to C. E. Stewart, county fruit inspector, who urges farmers and orchardists to spray at once for this pest. Spraying must be finished this next day or two or the moth will remain alive to work havoc on fruit crops.

The solution for apple tree spraying is one gallon of lime and sulphur solution and one pound of lead arsenate to 50 gallons of water.

The thermometer stood at 70 degrees at 9 o'clock Monday night. The codlin moth needs only 60 degrees to mate, breed and hatch. Speed, therefore, is necessary, the inspector warns.

GRADUATES AT HEBRON ARE UNINTENTIONALLY MISSED

The attention of The Sentinel has been called to the fact that in reporting pupils who had passed the county examinations the Hebron district was overlooked through an unintentional error.

In the eighth grade examinations in January Joe Taylor was successful. Katie Gilchrist completed the eighth grade in May with an average of 91, being on the honor roll. Claud Huff, Dwight Huff and Violet White were successful in the seventh grade geography examinations. Claud Huff made a grade of 95.

Those who received certificates of award for being neither absent nor tardy during the school year were John Carlile, Claud Huff, Hazel Huff, Helen Huff, Kathleen Kappauf and Violet White.

NEW FOUNDRY FOR THIS CITY

L. Heiner & Sons Buy Property on Gibbs Avenue.

Cottage Grove is to have a new foundry, which will have machine shop in connection therewith. L. Heiner & Sons, who will be the owners of the new industry, have purchased property on Gibbs avenue and will at once commence the erection of a 60x60 building of fire proof construction.

The growth of Cottage Grove industrially is indicated by the fact that a few years ago there was hardly work for a one-man machine shop, while now there are two exclusive shops, one of these employing two men, while several of the garages have machine shop equipment.

Miss Myrtle Kem is honored. University of Oregon, Eugene, June 6.—(Special).—Myrtle Kem, of Cottage Grove, a senior in the department of English at the University of Oregon, was recently initiated as an active member of Phi Beta Kappa, national honorary scholastic society for men and women. The Oregon chapter of Phi Beta Kappa is known as the Alpha chapter and has about 125 members.

COMMENCEMENT EXERCISES AT DORENA FRIDAY, JUNE 8

The commencement exercises of the Dorena high school will be held tonight. Three students comprise the graduating class this year. They are Dora Mosby, Florence Land and Floyd McLin.

Pioneer Team Beats Business Men.

The Pioneer Lumber company's baseball team defeated a team of Cottage Grove business men here Tuesday evening. The score was 8 to 6.

GOOD REPORT ON OLSON RESULT OF SENTINEL'S INVESTIGATION

NEWSPAPER PERFORMS DUTY IN GETTING INFORMATION FOR THOSE BUYING OIL SECURITIES.

The financial responsibility of Sage & Olson Brothers is of importance only as it bears upon their ability to make good their promise that in case of failure to produce oil all money invested with them will be returned, but an investigation of this has been made.

Dr. D. E. Olson has several times spoken of the I. C. B. college in Minneapolis as a large portion of his assets. Information in regard to the ownership of the college was gotten both through private sources and through a recognized mercantile agency and this information shows that there is no doubt of the ownership being in the name of Dr. D. E. Olson, its president. The title to this property was recently decided through a court decision, at which time its value was given at \$200,000. The Sentinel's information points to this court action being requested by Dr. Olson in order that there might be no doubt of the legality of the proceedings by which he was made owner of the property.

All information which The Sentinel has gathered points to the probability that this institution is a monopoly. The personal efforts of Dr. Olson, who is secretary of the Christian Americanization movement, in the interest of which the college was established. How close the valuation placed on the college in the court action comes to being its true valuation The Sentinel has not learned.

The report from the mercantile agency confirms the statements of Dr. Olson as to his oil holdings in California and indicates that "he represents a good-sized financial responsibility." The most important piece of information to Cottage Grove people is the statement, "He has always been well regarded in personal respects and has the general reputation of meeting his obligations in a satisfactory manner."

It will be remembered that several weeks ago The Sentinel published a letter from W. A. Elkins, former pastor of the Christian church here, in which he gave unqualified endorsement to Sage & Olson Brothers and their work.

The Sentinel is in receipt of a letter from Henry Landess, now a resident of San Francisco, but well known as a former resident of this city. Mr. Landess says:

In reply to your note of inquiry they say they have made social inquiries regarding the successful operations of Sage & Olson Brothers. I feel some interest in the success of their enterprise in your section. Naturally we are all interested and hope for success.

"I had a talk with H. G. Humphrey, of Reno, interested in oil and mining generally and one of the big men of the Comstock-Virginia Consolidated, a new figure in that old camp with a new plant handling 2300 tons daily. He said he knew of these people in several fields and that they had been successful."

"I had a talk with the so-called information bureau of the Standard Oil company, where one will find as attentive listeners as one would care to meet—and information hard to get. They say they know these people, had had dealings with them, had taken over some wells from them, that they were successful."

"In a communication from B. F. Coons, general traffic agent of the C. R. I. & P., Los Angeles, who is also interested in oil, he says, 'I have made several inquiries in regard to the parties about whom you speak but nobody that I approached has ever heard of them. There were some other parties here last winter who had the same kind of a proposition but, so far as I can learn, they were unable to interest anyone sufficiently to get money advanced on their proposition. If these parties have what they claim, they surely would have all they could do in any developed field, for it costs many of the large oil producers large sums in drilling dry holes.'"

"I give you this for what it is worth, and have given you the source of my information, which comes from those who should know."

"It has not been my intention to make any comment, but I am amused by the claim of oil shale being found in Lane county. It is not there, and if it were there you folks could kiss good bye any."

BANGS WILL REPRESENT CALIPH GROTTO IN EAST

Abraham Bangs, formerly in business in this city, has been appointed representative of Caliph Grotto, of Eugene, to attend the annual national convocation of the order in Cleveland, O., June 11 to 13.

LORANE ROAD CONSTRUCTION PROTESTED BY CITIZENS

County Court Grants Petition to Roll Grade and Lay Water-Bound Macadam.

Large delegations of citizens from Lorane and Cottage Grove visited the county court yesterday to protest against the method of construction proposed for the Lorane-Cottage Grove road. They were joined by a committee from Eugene. The plan has been to spread the rock without rolling either sub-grade or rock, and let the traffic work the rock in. The finishing of the road in this manner did not meet with the approval of the people of Lorane and the Cottage Grove country. The delegation visited the court and asked that the terms of the contract be changed to require the rolling of the grade and the laying of a water-bound macadam.

A telephone message received from Eugene just as The Sentinel was going to press conveyed the information that the county court had granted the request and said that Commissioner Sharp had made the statement that "Cottage Grove could have anything it wanted."

Lorane and Cottage Grove people have worked for years to get a good macadam road between the two places. After years of effort a fine grade has been secured and the consensus of opinion at a meeting held here Tuesday night was that it would be a crime to permit it to be finished in the manner proposed by the court. It was pointed out that a road built in this way never can be a real macadam road and in the end is more expensive to build than to do it right in the first place. When a road is built in this manner, it is pointed out by those who have had experience, the large rocks work to the surface while the fine rock completely disappears. In an age of motor traffic on rubber tires such a road is an abomination.

This road will become one of the principal arteries of traffic in Lane county. It is a road of great importance to this end of the county and the citizens of southern Lane are of one mind in wishing a real road. The cost of constructing the road in the manner asked by the delegation will not greatly exceed that first contemplated by the county court.

The court assured the delegation that work on the Coast fork and Row river roads would be done in the manner desired by the delegation, that the present grade would be scarified and the new rock rolled in, also that the Row river road would be widened at all points to 40 feet.

W. C. T. U. LAUNCHES LOCAL DRIVE FOR FUNDS FOR HOME

Representatives of benevolent organizations and women's clubs of the city met last night at the Methodist church with Mrs. Mary Chamberlain, local head of the W. C. T. U., and J. B. Litter, of Salem, director of the state campaign for funds and contributions for the W. C. T. U. farm home for children at Corvallis. Plans for the local phase of the campaign were worked out.

Although no drive has been made up to this time, contributions have been received from many sources and some solicitation has been done. Henry response has been made, according to Mrs. Chamberlain, who has witnessed a number of instances in which the contribution may have meant sacrifice. One of the most touching was the unsolicited gift of \$5 from a widow, the mother of seven children. Spontaneity and the making of sacrifices have characterized most of the giving.

Contributions of bed clothing and clothing for children are being received. Mrs. Chamberlain has just been notified that the quilts, for which there is great need, should be approximately 66 by 80 inches in size.

MILLION SELLS CHICKEN RANCH TO KANSAS PEOPLE

J. D. Million, resident of this city for the past eight years, last week sold his residence and small chicken ranch on north Douglas street to O. G. Biggs, with his wife and two small sons, arrived recently from Kansas. After a leisurely motor trip through the valley, following their arrival, the Biggs family picked out Cottage Grove as the most attractive place they had visited and decided to locate here.

The Millions have gone to Newport for a few weeks and may return to Cottage Grove. Mr. Million had been very successful in the chicken raising industry during his residence here and the new owner of the place will continue the business.

REV. H. B. ILLER PASTOR OF BAPTIST CHURCH, RESIGNS

Rev. H. B. Iller, pastor of the Baptist church in this city for the past two years, has tendered his resignation, to take effect at once. The Illers will continue to reside here.

UNCLE BOB OBSERVES HIS EIGHTIETH BIRTHDAY BY GOING ON FISHING TRIP

A little matter of 80 years is no handicap to a resident of the famous fertile, fruitful Willamette. Uncle Bob Veatch demonstrated that upon becoming an octogenarian on June 5 by taking his son Henry and his grandson, Joe Young, Jr., for a fishing trip. Uncle Bob showed the younger members of the party that he has lost none of his cunning as a disciple of Isak Walton and had them going for wild.

HENRY WHITLOCK STEPS FROM MOVING CAR AND SUFFERS SEVERE INJURIES

Henry Whitlock sustained painful injuries Monday night when he stepped from a moving automobile at the corner of Fifth street and Madison avenue and fell upon the pavement, cutting and bruising his head and face and breaking off several teeth of the lower jaw.

Mr. Whitlock had been to Drain attending a meeting of the Oriental branch of the Odd Fellows lodge, and had just returned, riding with Mr. and Mrs. Chesley Churchill and Sam Ferguson in the Churchill car. As the car reached Madison avenue Mr. Whitlock, who was riding in the tonneau, opened the door, stepped out and jumped from the running board before the driver could bring the car to a stop. The car was traveling about ten miles an hour. Mr. Whitlock, who was unconscious for several minutes, was taken to the office of a physician who administered restoratives and dressed the wounds and the injured man was taken to his home on south Sixth street. Though suffering severely from the shock and weak from loss of blood, Mr. Whitlock is improving and his condition is not believed to be serious.

SPEAROW FIRST IN POLE VAULT AND HIGH JUMP IN FIELD MEET IN SEATTLE

Ralph Spearow, University of Oregon student and pastor of the Presbyterian church in this city, placed first in the pole vault, first in the high jump and fourth in the broad jump in the coast conference track and field meet in Seattle Saturday. He was second high point winner in the individual scores for the meet, making 11 of the 24 points won by the Oregon team, which placed fourth. The meet was held in a downpour of rain that had fallen almost continuously for 36 hours, making footing uncertain and good marks an impossibility.

Spearow made three trials to better the pole vault conference record of 13 feet 6 inches, made by Jenne, Washington state, but succeeded in making only 12 feet 6 inches, although in practice he regularly tops the bar at 13 feet and in the meet with O. A. C. two weeks before he set a new national intercollegiate mark of 13 feet 1.34 inches. Spearow won the high jump with 5 feet 6 inches.

LAWRENCE RANDALL CITED FOR TRAFFIC VIOLATIONS

As an aftermath of chautauqua, Lawrence Randall was cited to appear in court for operating a truck without having his chauffeur's badge with him and because the truck had no tail light. He had been requested to operate the truck by S. L. Godard, owner of the truck, who was not feeling well, and had his chautauqua clothes on instead of his chauffeur outfit. Judge Galloway assessed a fine of \$2 and remitted the fine because of the fact that it would have been paid by the chautauqua guarantors, for whom the work was being done.

S. P. ISSUES BOOKLET ON OREGON'S OUTING PLACES

A new 30-page illustrated booklet containing detailed descriptions of Oregon, the summerland beautiful, its sandy beaches, mountain resorts and camping places and information about hotels and cottages has just been issued by the Southern Pacific company, and 35,000 copies are being widely distributed throughout the United States. The cover and the reproduction of Crater lake on the center spread are works of art in four colors.

W. H. Phillips Dies.

W. H. Phillips, of Star, died of heart trouble Thursday of last week while a patient in a Eugene hospital. The funeral was held here Sunday from the chapel, Rev. J. H. Ebert officiating. Interment was in the A. F. & A. M. I. O. O. F. cemetery.

Mr. Phillips was born July 6, 1855, and was a native of England. He had been a resident of Star for 12 years. The widow and the following children survive: Joe, of Missouri; Mrs. Replogle, Chewah, Wash.; Leon, Spokane, Wash.; Mrs. E. Smith, Duvall, Wash.; and Mrs. Bert Fay, Snohomish, Wash.

New Houses Start.

Excavating is being done for new houses on Ninth street for W. A. Garoutte and Victor Chambers. This street is rapidly becoming one of the select residence sections of the city.

George Matthews will commence at once the construction of a house on First street on the north side of his present home, which has been sold to S. S. Platt. The Matthews family will occupy their garage while their new home is going up.

TEN THOUSAND A DAY FOR ADVERTISING.

Wm. Wrigley, of chewing gum fame, spends \$10,000 every day for advertising.

Other advertisers must also get results from their expenditures and some of them are enormous.

—for instance, pick up the Saturday Evening Post and it is never lacking for ads.

Its color pages sell every week for \$5500, and the cover pages bring the same figure; black and white pages sell at \$7000 per issue, and the center spread brings \$17,000.

CHAUTAUQUA FOR CITY GOES OVER THE TOP

Guarantors of Best Program Ever Put on Here Find There's No Deficit to Meet.

Chautauqua for Cottage Grove was given an impetus that probably means that this city is permanent chautauqua city when it was announced that the receipts this year covered the entire expense of the week's session and that the guarantors would have nothing to make up.

Every year except one the signers of the contract have had to dig into their pockets for amounts running from \$3 to \$13 to make up a deficit, in addition to carrying the burden of looking after the details of the ticket-selling campaign, of getting the tent ready and of cleaning up the grounds afterward. It now seems that there is sufficient appreciation of chautauqua to insure the ticket sale without great effort on the part of the guarantors. No trouble was experienced in getting a contract signed for next year.

The Lombard entertainers gave the Friday evening program and the evening prelude and their entertainment was in keeping with the high class of the programs of the entire season.

Dr. Henry Gaines Hawn, dramatic and oral English instructor of national reputation, gave the Friday evening lecture. His subject was "The Soul of Things," in which he expounded a new philosophy applied to social, business and civic life and interspersed his lecture with interpretations of a number of popular readings. The point he made was that we do not get the most out of living, that we pay too dearly for pleasures which do not satisfy, that we take no notice of thousands of things about us that should help to make us happy, that we give too much time to a few things and not enough time to many things. He was unquestionably the most finished speaker who appeared before the chautauqua here.

Norman V. Pearce gave the Saturday afternoon program, a unique travel lecture on Australia with an exhibition of curios from the world's curiosity shop, Australia, where birds have beautiful plumage but no song, where flowers are wonderful but have no scent, where herds of wild buffaloes and wild horses roam the prairies, the home of the kangaroo, the wallaby, the wombat, the laughing jackass and the lyre bird.

The Garner jubilee singers gave the Saturday evening program, the closing one of the session. They featured topical numbers, folk songs of the south, operatic and concert numbers.

A total of 874 books was loaned by the Cottage Grove library during the month of May, 533 being fiction, 18 non-fiction and 323 juvenile. Six new cards were taken out. Fines amounting to \$2.51 were collected. Three new books were presented to the library, "Saddle Boys of the Rockies" by Ruddy Martin and two new railway books by Miss Stella Adams.

Attention, Owners of Property in Shields Cemetery

A meeting of owners of property in Shields cemetery will be held at 7:30 p. m., Saturday, June 9, in W. O. W. hall for purpose of arranging for road into the cemetery. jne8c

WANT ADS ARE REAL STUFF

When E. P. Spencer, of Ashland, lost a tire and rim while in the Cottage Grove country, he did the natural thing to do—he placed a lost ad in The Sentinel and asked that the tire be left at the Nelson service station. A few days later he wrote: "It pays to advertise. A few days after placing ad in your paper I received word that my tire and rim were at Nelson's awaiting my pleasure."

—TEN THOUSAND A DAY FOR ADVERTISING.

Wm. Wrigley, of chewing gum fame, spends \$10,000 every day for advertising.

Other advertisers must also get results from their expenditures and some of them are enormous.
