Mr. and Mrs. B. F. Johnson, an aged couple whose home is in Aberdeen, Wash., were under the care of a physician here for several days of the past week as a result of an automobile accident which happened a mile or two north of Creswell shortly after 7 o'clock Saturday evening. The Johnson car, a chevrolet sedan, traveling south, was forced off the grade, according to Mr. and Mrs. Johnson, by another car which passed going in the same forced off the grade, according to Mr. and Mrs. Johnson, by another car which passed going in the same seriously damaged. Mrs. Johnson sustained severe injuries to the face and Mr. Johnson to his back. which caused the accident did not actually hit the Johnson car. There is the possibility that it passed so close at so great a rate of speed that it frightened Mrs. Johnson, who was driving, and caused her to take to the gravel. The wheel prints show plainly that the Johnson car traveled along on the loose grade for perhaps 30 feet and that it could have escaped without accident, had the driver continued. dent had the driver continued straight ahead into the ditch in-stead of trying to swing back onto the pavement. The marks made by the wheels would indicate that they remained intact until the car turned over. It is possible that the strain put on the wheels when an atput on the wheels when an attempt was made to get back onto the grade caused the right front wheel to give way and it is possible that the rear left wheel gave way when the weight of the car water.

C. A. Gilbert, Cottage Grove's raffic officer, and a state traffic officer from Eugene went to the scene of the accident. The license number of the car which caused the accident was given them by a witness but the driver has not been apprehended.

Mr. Johnson described the car as a Maxwell sport roadster with black or blue body and red disk wheels. Two men were in the car.

There is a possibility, in the opinion of those who have viewed the scene of the accident and the wrecked car which was taken to a garage in Creswell, that the car which caused the accident did not actually hit the Johnson car. There is the possibility that it passed so the car which any citizen who have citizen which any citizen tage Grove in which any citizen the officer demanded cash none and the officer the accident had the car was \$4.50, which the officer accepted. One poor unfortunate who was taken into the twils for doing something over 30 miles on Main street went to another city and got a scare-headed story printed telling of how he had been persecuted for traveling 22 miles an hour.
