#### SOCIETY

A pleasant tamily reunion was enjoyed on the Fourth at the C. O. DeVere home just west of the city, where the children of Mrs. A. M. Jacobs gathered to spend the day. A picnic lunch was served to the following: Mrs. A. M. Jacobs, the C. B. Jacobs family and the C. O. DeVers family. Cetters Grove, Mrs. De Vere family Cottage Grove; Mrs. E. R. Lemley and children, Salem, and Mr. and Mrs. W. W. Stiffler, Springfield. The reunion was the first time the entire family had Springfield. The reunion was the first time the entire family had been together for many years. W. G. Jacobs, Portland, another of Mrs. Jacobs' sons, was not present on the Fourth but he stopped a few days before for a visit with his mother en route to Crater lake with a party of friends.

The wedding of Ernest R. Kurre, of this city, and Miss Laura Mildred McBride, of Portland Thursday of last week was a surprise to friends of the couple in this city since the wedding had pre-viously been planned for the fall. The ceremony was performed in Portland at the home of the bride's parents, Mr. and Mrs. G. W. Mc-Bride, at 7 o'clock in the evening. Mr. and Mrs. McBride and Mr. and Mrs. Clarence Trenery were present at the ceremony. Mr. and Mrs. Kurre will make their home in this city. Mr. Kurre is a son of Mr and Mrs. C. A. Kurre, of this city and is with the Mountain States Power company.

The birthday anniversary of Mrs. W. A. Garoutte was the occasion on Monday evening for a pleasant dinner at the home of Mr. and Mrs. A. W. Kime. Mr. and Mrs. Roy Romaine and Mr. and Mrs. George Nelson, Portland, and Mr. and Mrs Earl Garoutte and Mr. and Mrs. W. A. Garoutte were invited in for dinner. Mr. and Mrs. C. J. Kem and Mrs. N. J. Nelson joined the party later for an enjoyable eve-ning at five hundred. High honors went to Mr. and Mrs. W. A. Ga-

Miss Myrtle L. Teeters, daughter Mr. and Mrs. George Teeters, and Dwight Marshall King, son of Mrs. Sarah King, of this city were married in Eugene Monday at the home of Rev. A. R. Spearow, pastor of the Presbyterian church in this city, who performed the ceremony Mrs. King was until recently em-ployed at the Fair store in this city. Mr. King was for york Mr. King was for perly employed with the Powell & Burkholder store but is now engaged in the grocery business in Eugene, in which city the young couple will reside.

⊕ ⊕ ⊕
The Mizpah class of the Presby terian Sunday school will picnic Tuesday evening of next week in the city park on east Main street. Women of the class will gather in the park between 3 and 4 o'clock to prepare the picnic supper and the men will join them after work hours. Families and friends of members of the class are invited to join in the pienie. All who attend are asked to bring baskets of lunch

Mrs. H. W. Titus extended gracious hospitality on Tuesday when she entertained members of M. P. G. club. Pink sweet peas centered the attractive table where refresh-ments were served. Mrs. W. J. Woods, a former member who has returned to this city to reside, was reinstated as a member of the club.

Close neighbors along Pacific highway called Monday night on Mr. and Mrs. J. F. Lamson and spent a pleasant soccial evening. Ice cream and cake, brought by the visitors, were served. Mr. and Mrs. \$377,461.42 Lamson (Phoebe Ann Skidmore) were married Sunday at Mrs. Skidmore's home at Comstock. They will reside in this city.

The ninth birthday anniversary of Frances Mackin was celebrated Wednesday afternoon with an en-joyable party at the Mackin home, where the children were entertained with games played on the lawn and in the grape arbor. Twenty small friends were invited.

John F. Lamson and Phoebe Ann Skidmore were married Sunday at the Skidmore home at Comstock, Rev. J. E. Carlson reading the ceremony in the presence of im-mediate relatives. They will make their home in this city.

Mount View Society. Mr. and Mrs. W. D. Heath enter

tained a number of their relatives Sunday in honor of Mrs. Heath's brother and niece, of Portland, who visited over the week end with them. Those present were Mr. and Mrs. Fred Frost and Harry Frost, of Blue Mountain, Mrs. J. W. Fisher, of Thornton Corners, Mrs. L. R. Long, of Cottage Grove, and Mrs. S. E. Lowry and children, of Walker. The whole party motored in the afternoon as far as Eugene with Mr. and Miss Whitcomb, on

their return journey to Portland. Delight Valley Society.

Mrs. Lee Nixon was hostess to the Social Neighbors club Wednes-day. Dainty refreshments rounded out a pleasant afternoon. About thirty women and girls were pres-

10,000,00

Mr. and Mrs. C. J. Kem and two children, Tom and Geraldine, and Mrs. Kem's parents, Mr. and Mrs. Thomas Holleran, motored to Newport Sunday, starting at 7 o'clock.

After the wool is sheared the farmin the morning and returning at 11 that night with a two-hour stop at one way from here in five hours the week before,

Joe and Wesley Polander, of Lake City, Calif., visited last week at the home of Mrs. Sarah Harms.

#### Time of Cutting Alfalfa for Hay

Has Much to Do With Value of Cured Product as Feed for Different Animals.

(Prepared by the United States Department of Agriculture.)

It is probable that alfalfa is not yet in its heyday. Enthusiasts, whose name is legion, believe that the possibilities of this crop are far from being realized. A great part of the nearly 10,000,000 acres now devoted to this forage is annually harvested for hay, and the conditions under which it is put up, the methods used, and the time of cutting have a great deal to do with the value of the cured product as a feed for live stock.

The number of cuttings that may be taken from an alfalfa field in a season varies according to the locality and the variety from eight or occasionally more, in the extreme Southwest, to two, or sometimes only one, in the northern and semi-arid regions. Thirty to forty days of good growing weather are necessary to produce a hay crop.

Time to Cut Alfalfa

There are conflicting opinions on the proper time to cut alfalfa for hay. Chemical analyses, says the United States Department of Agriculture, show that when cut in early bloom it has slightly more protein than when cut later, and that certain animals, such as hogs and cattle, prefer it when cut in the earlier stages. These reasons and the belief that frequent cutting produced a larger total yield led to the old practice of cutting just before the flowers appeared. That practice has been discredited. As the result of experience accumu-

lated it was found that these early and frequent cuttings, although they produced greater yields the first season, usually reduced the life of the stand and the average yield over a period of years. Later the basal shoots were used as a guide, cutting being recommended when they had reached a length of one or two inches or when the plants were one-tenth in bloom. The two guides seemed to be needed as the basal shoots make very little growth in dry weather and blossoms are slow to appear in wet periods.

Recent experiments indicate that cutting at a later date than has generally been advised is more desirable, everything considered. At the Kansas agricultural experiment station a comparison was made of cutting at four stages-in bud, one-tenth in bloom, full bloom, and when the seed pods were forming. The earliest cutting was highest in feeding value, but the stand was practically killed out in one season. Cutting when one tenth in bloom gave less hay than cutting when in full bloom and seemed to encourage grass and weeds. Cutting when the seed pods were forming gave less hay than earlier cuttings, but the stand was not injured. No damage resulted from cutting the basal shoots, although it has long been taught that clipping them off will reduce the succeeding crop. The Department of Agriculture has conducted experiments which verify these re-

In regions where the rainfall is rather limited, such as the Great Plains, stands are sometimes badly injured by delaying cutting until the plants are nearly through blooming. The injury is more serious when a second cutting is made or a crop is harvested for seed. This is more serious in dry seasons when there will be very little growth after cutting as far as the plants are concerned. Outting is harmful rather than beneficial, but of course there must be a harvest.

Worries for Farmer.

Once the problem of the time of cutting has been solved, the thing which worries the farmer most is getting the hay into the best condition and stored in the mow or stack. There is general agreement that putting the hay into cocks in the field saves more of the leaves, the best part of the feed, than when curing is done in the windrow. but it takes more labor, and, since more time is required, there is more danger from rain.

Where the weather promises to be fair for two or three days it may be advisable to burry the curing by doing most of it in the windrow. The amount of shatterings will be greater than when the curing is done in the cock provided the weather remains fair in both cases. However, when the hay is cocked it requires longer to cure, thus increasing the danger of exposure to unfavorable weather. If the hay is exposed to several days' rain, even though cocked, the loss is likely to be greater than would result from taking advantage of the favorable weather and curing more rapidly.

Culling Small Flock of Sheep Quite Profitable

After the wool is sheared, the farmer can tell whether his ewe has a the coast. The road near Newport is very bad since the rain last week, according to Mr. Kem, although motorists had made the trip uniform quality and grade, the ewe should be branded for culling or for

It is as profitable to cull the farm flock of sheep occasionally and thoroughly for wool and mutton as it is to cull the poultry for eggs and white

#### America's Marvels NATURAL AND OTHERWISE

By T. T. Maxey

THE CRADLE OF LIBERTY

Independence hall, oft referred to as "The Cradle of Liberty," in historic Chestnut street, Philadelphia, where "Uncle Sam" was born more than 146 years ago, stands and looks very much as it did when, on July 4, 1776, the liberty bell rang out to the world from its place in the tower the news that the colonies in America had agreed to withdraw from the rule of England.

The plans for this venerable brick building, which is 100 feet long and 44 feet wide, were laid in 1729. Except for the wings and the tower, the structure was completed a few years later as a home for the Continental con-

Possessed of a simple dignity and a quiet charm, Independence hall is a substantial and imposing relic of Colonial architecture-perhaps the most historic of all American buildings. To and through it come and go annually hundreds of thousands of citizens, representing every state in the Union and many lands beyond the seas.

This building has been the center of many a stirring and history-making In it met that Continental congress which debated, then shaped, subsequently adopted, and finally signed, the Declaration of Independence. From its steps this precious doc ument was read to the people. In it George Washington was commissioned commander in chief of the Continental armies. It was here that the first American flag was raised on his birthday in 1861. It was to this building that his body was carried to lie in state, and here it was that congress convened, following the close of the Revolutionary war during the summer of 1787, to agree to sign a constitution for the newly-created United States.

The room in which, one by one, the authorized representatives of the 13 colonles advanced in a tense atmosphere and affixed their signatures in ratification of the Declaration of Independence is indeed dignified. The walls of the building are graced with portraits of the signers and a painting of that dramatic moment when the signing was in progress.

Liberty bell, the most famous of all bells in America, was removed from the tower many, many years ago, and now reposes within a glass cabinet on the main floor, almost directly beneath the location from which it rang out its sage of freedom on July 4, 1776. (©. 1923, Western Newspaper Union.)

#### EVERY STREET IN COTTAGE GROVE

Has Its Share of the Proof That Kidney Sufferers Seek.

Backache? Kidneys weak? Distressed with urinary ills? Want a reliable kidney remedy? Don't have to look far. Use what Cottage Grove people recommend. Every street in Cottage Grove has Here's one Cottage Grove man's

Let G. A. Lambert, 231 Second St., tell it. He says: "I don't know of anything better for kidney trouble than Doan's Kidney Pills My work was a strain on my back and I had attacks of lumbago which hurt me to bend or stoop and it hurt me to bend or stoop and it was just as hard to straighten again. My kidneys acted irregularly, also, until I used Doan's Kidney Pills. They were just what I needed for they made my back strong and well and put my kidneys in good order.'

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Lambert had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. jl6-13

## Make Your Next Goal

You have finished high school and, like all wideawake graduates, are look-ing to college.

The State of Oregon offers you the best of training and a collegiate degree in the leading pur-suits and professions, as

Engineering, Agriculture, Com-merce, Forestry, Home Economics, Military Science and Tactics, Mining, Pharmacy, Vocational Education, and Music.

Student life at the College is rich in opportunities for leadership and personal
