That your automobile lubricated with Zerolene will run from 25% to 50% farther without needing to have its valves ground or cylinders rebored. This is so because Zerolene forms so little carbon.

That you will get more mileage from your gasoline, because Zerolene, giving better lubrication continuously, permits the delivery of more engine power to the wheels on the ground.

That Zerolene will reduce your repair expense to a minimum and give you greater satisfaction in driving.

Therefore we say, "Insist on Zerolene—a better oil—even if it does cost less."
