

## CITY GIVES PERMISSION FOR TIMBER SALE IN WATERSHED

### Government Is to Assure a Sufficient Water Supply for a Population of 3500 Persons.

## GOVERNMENT IS TO PAY COST

### Out of Two Billion Feet Is Made Possible by Resolution Which City Council Adopts.

The city council and the forest service have practically arrived at an agreement whereby the sale is permitted of about two billion feet of timber upon the Layng creek watershed, from which the city secures its supply of water.

The point upon which negotiations, which have been in progress several months, have hinged is whether there is a sufficient supply of water in Dinner creek, to which point the forest service wishes to move the city's intake. The city council has hesitated in concluding the necessary negotiations for fear that at the time of greatest consumption, when the water in the creek is lowest, the supply would not prove sufficient.

Measurements taken this year indicate that there is a greater supply than the consumption should be for a city of this size and the forest service seems to have demonstrated that, by the use of Prayther creek as an auxiliary supply, there can be no question of ample supply at all times.

The forest service will extend the city's water intake in Dinner creek, build an auxiliary line up Prayther creek and construct concrete intake dams at both points, all without cost to the city. This is said to be the first time the forest service has taken action of this kind.

The purchase of this timber was contemplated by the Western Lumber & Export company, which recently went into the hands of receivers. It has been stated that had the sale of this timber been permitted at the time the negotiations were started early during this year, the Western Lumber & Export company would have been able to have weathered its financial troubles.

The following resolution was adopted at the meeting of the council Monday night:

Having had under consideration the request of the forest service that we recede from our former action wherein we acted to stop logging operations upon the tributaries of Layng creek above Dinner creek; feeling that we wish to encourage in every reasonable way the continuation of extensive logging and lumbering operations which mean so much to the prosperity of the city, yet realizing that a sufficient supply of pure water is of paramount importance to the city; now, therefore,

## CITY OFFICIALS FURNISH AUTOMOBILES FOR ULTRA PARTICULAR CAR THIEVES

Automobile thieves must have an idea that cars owned by officials of the city of Cottage Grove are of unusually fine class.

Mayor Brund's new Chevrolet coupe was stolen from Fifth Avenue in Eugene early Friday afternoon while he was transacting business in the office of the Booth-Kelly Lumber company. The car was parked opposite the rear of the office of the company. When he returned for it within 20 minutes it was gone. It was found abandoned on the streets of Medford Monday and Mr. Brund went after it Tuesday morning.

## OIL DRILL DROPS FOR FIRST TIME THIS AFTERNOON

### Operations to Be Continuous Until Company Keeps Its Promise to Get Oil.

Drilling at Cottage Grove's proposed oil well at the summit of Mount David will be well under way within a few days. Operations were delayed for several weeks on account of inability to secure necessary equipment. Everything has now arrived and has been put in position. The big standard drill will make its first stroke at 3 o'clock this afternoon. The public has been invited to be present and an address will be made by David E. Olson, president of the Guaranty Oil company.

A large fuel tank has been placed at the foot of Mount David and has been filled. The oil will be pumped up the hill to another tank which has been placed there.

D. E. Olson, moving spirit in the operations here and in Eugene, believes that it will be possible to keep operations going almost steadily until the time that he fulfills his promise of securing oil within two years from the date he made the promise. He has kept his promise to have a standard drilling outfit in operation within six months.

Despite all that has been said derogatory to operations of Sage & Olson Brothers elsewhere, those who are interested with him in the operations here and at Eugene seem to have implicit confidence in him and to believe that there is a splendid chance of their money increasing many times through the operations here.

## C. G. Defeated at Salem.

Cottage Grove high was defeated in the football game played at Salem Saturday. The score was 18-0.

Dams to run so long as the city shall maintain the same and use or need the same to supply water to the city.

No log storage reservoir shall be maintained in the waters of Layng creek above the city's present intake until the completion of the pipe lines and dams referred to in preceding paragraphs and no logging operations shall be permitted on the tributaries of Layng creek until the acceptance by the city of the pipe line and dams referred to in preceding sections. The city shall accept such pipe lines and dams when it is shown that they will deliver during the low water period a minimum of 200 gallons per capita per day for a population of 3500 persons, such measurement, if required, to be made at the points where the pipe lines referred to in preceding sections connect with the city's present water lines, an allowance of 10 per cent to be made for wastage between such points and the city's reservoir.

Until the completion of the water lines and dams referred to in preceding paragraphs, the forest service shall be responsible for the maintenance of sanitary conditions on the main stream of Layng creek and upon the tributaries to the same above the city's present intake.

## CITY COUNCIL GUARDS AGAINST WATER SHORTAGE

### Additional Water Storage Is to Be Provided; Entire Main Line Is to Be Repaired.

The city council already is making preparations to guard against shortage of water during the dry season of next year.

Included in the plans now being considered is an additional reservoir on the property now occupied by the east side reservoir, to have a storage capacity of half a million gallons of water. The present reservoir, the use of which will be continued, has a storage capacity of less than 200,000.

The west side reservoir has a capacity of 385,000 gallons. This will be used as an emergency storage reservoir, as it now is, so that with the contemplated additional reservoir the city will have a water storage capacity of over a million gallons. It is estimated that this storage capacity is sufficient for a two days' supply at maximum consumption. It is possible that this storage capacity of the west side reservoir may be increased.

Material has arrived for the building of a penstock at the city's intake in the forest reserve. This will start with a 20-inch pipe and be reduced to a 12-inch pipe. Much difficulty has been experienced in getting a full head of water into the main water line and it is thought that the penstock, which has been recommended by Engineer Dater, of the forest service, will rectify this.

Water Commissioner Pitcher will at once install this improvement and will spend a month or more in going over the entire main water line, testing it for its entire length and replacing defective pieces of pipe.

## NOVEMBER 11 TO 18 ARE DATES OF FATHER AND SON WEEK

### Closer Relations of Dads and Boys for Best in Home Life Is Object of Move.

The national father and son movement will be observed in Oregon during the week of November 11 to 18. The Young Men's Christian association of Oregon and Idaho, with headquarters in Portland, is promoting observance of this special week, with Governor Pierce as honorary chairman of the committee, which is composed of leading business and church men of the state.

The purpose of the movement is to keep alive the very best in American home life for the growing boy, to get fathers to renew their interest and renegeate themselves to their paternal obligations, to acquaint fathers more intimately with simple principles of boy psychology, to encourage fathers and sons to accept in a larger way their privileges of citizenship and to emphasize the necessity for the homes to begin early with boys the training in physical, mental, spiritual, social and economic activities.

F. L. (Pop) Grannis, principal of the high school, has been appointed as local chairman.

Carry an ad every week. You get more for your money that way.

Carry an ad every week. You get more for your money that way.

Carry an ad every week. You get more for your money that way.

Carry an ad every week. You get more for your money that way.

## Proclamation

Citizens of Cottage Grove are called upon to observe Monday, November 12, as Armistice Day. We should cease from our usual labors upon this day and dedicate it to those who so nobly served their country at home and upon other shores during the great war which came to a close upon November 11 five years ago. We should attend and assist in ceremonies commemorating the supreme service of those who baptized the field of honorable battle with their life's blood and saved to the world the greatest free government of all ages.

ANDREW BRUND, Mayor.

## FIRST NUMBER WINTER LYCEUM COURSE ON NOV. 19

### Leake's Orchestral Entertainers Are Said to Be Premier Artists of Their Kind.

Leake's orchestral entertainers will appear here Monday, November 19, as the first number in the winter lyceum course.

H. J. Leake, the director, has been connected with the leading concert bands, orchestral combinations and lyceum organizations for the past 15 years. He has also appeared on Keith's vaudeville circuit and with Al G. Field's minstrels. Mr. Leake plays drums, xylophone, marimbaphone, saxophone and he is a whistler, an imitator and a monologist.

His company has been chosen with a view to giving the very best program possible, with features that will please every type of music lover in the audience. The vocal part of a novelty company such as this is often sacrificed, but both Woodward-Leake, soprano soloist with this company, has a beautiful voice which has had excellent training and her solos include operatic arias and ballad selections from the best composers.

## Special Edition Next Week

The issue of The Sentinel of next week (Thursday) will be sent to over 1000 additional families in the Cottage Grove trade territory—including families in Creswell, Walker, Lorane, Drain, Yoncalla, Comstock, Curtin, Anlauf, Row River, Mosby Creek and Coast Fork. All live names.

Ten cents the inch will be charged for this additional circulation, when advertising also appears in the regular edition. The regular issue will be sent to these additional families, except that ads not ordered for the extra circulation will be lifted.

## Change of Publication Day

Beginning with its issue of next week, The Sentinel will be issued on Thursdays. This change is made largely at the request of advertisers who wish to have an additional day's time to advertise week-end sales. The paper will be delivered at the postoffice on Wednesday nights and will reach the readers upon rural routes and by city carriers early Thursday forenoons. Hereafter all copy for publication should be furnished one day earlier than heretofore.

## M. H. ANDERSON, NEWLYWED IS VICTIM OF BRETHREN

### Scores of Many Years Are Settled When Masons Put on Some Special Work.

M. H. Anderson, prominent here for many years in the lumber, pole and piling business and as an eligible bachelor, now a newlywed, no longer has any doubt as to the high regard of his Masonic brethren.

Upon Saturday evening they captured him at the home of his parents-in-law, Mr. and Mrs. N. W. White, on the London road, whisked him to the lodge room, prepared him in due and ancient form and gave him some degree work that was entirely new to him, despite the fact that he has taken the Scottish rite work and the Shrine. The "work" was different from most Masonic work in that there was nothing secret about it. In fact, the greatest possible amount of publicity was sought. A motor car was the "goat" which Brother Anderson led and rode through the main section of the city. The cavalcade of motor cars kept their horns screeching and thereby attracted such attention to the "ceremony" that the regular week-end business of the city came to a complete standstill.

Brother Anderson later presided as host at a crab feed which thoughtful members of the "degree" team had in readiness for Mr. Anderson's invitation. Fifty Masons enjoyed the hospitality. Mr. Anderson had returned two days before from a trip to Sweden to visit relatives. It is thought that Brother Anderson had anticipated what the brethren would have in store for him and thought it a wise precaution to visit his European relatives beforehand.

The bride, who was Miss Adelle White, met Mr. Anderson in Burlingame, Calif., where they were wed. She is a daughter of one of the best known pioneer families of Lane county. She is worthy matron of the Eastern Star lodge and taught for several years in the Cottage Grove schools.

The Masonic lodge several years ago adopted the custom of giving special degree work to brethren who become benefactors. Brother Anderson, because he had been a ring-leader in several such events, got more than any of the others. Plans for his reception had been accumulating for many years.

## HAND IS WINNER IN MATCH WITH JACK REED

### Local Contender for Middleweight Championship Honors Has Tussle of Career.

Ralph Hand, local wrestler and contender for middleweight championship honors, was given a decision over Jack Reed, of Ogden, Utah, also a contender for championship honors, in a contest here Friday night in what proved one of the stiffest in Hand's career.

Reed, who is a wrestling instructor, seemed worried by nothing except the toothed with which Hand has won so many of his matches. He seemed to let Hand get any kind of a hold just to show how easy it was to get out of it. He was slippery as an eel but moved with studied precision. He found a match in Hand, however, and tried every hold in the wrestling category before getting a fall with the toothed with which Hand himself had won so often. Even then it took 56 minutes to do so. Hand came back strong and in 16 minutes had his opponent pounding the mat. An arm scissor did the business.

Reed sustained further injury to the arm that had been injured in his match a week before with Ted Thye. As he was about to go into training at once for another match, he declined to come back and forfeited the match to Hand.

William Poole, of Monroe, who is attending high school here, knocked out Henry Brown, of Oakland, in the second round of a four-round boxing bout.

Rod and Gun Club Elects. The Cottage Grove Rod and Gun Club, at a meeting held Monday night, elected the following officers: President, N. J. Nelson; secretary, C. A. Bartlett; field captain, Dick Pyburn.

A Thanksgiving turkey shoot will be held on Sunday, Nov. 18.

Thirty-five applicants for membership were received and acted upon favorably. The club voted to give its support in the enforcement of the fish and game laws.

Evangelistic Meetings Start. Protracted evangelistic meetings start in the Christian church next Monday evening. Rev. F. L. Furnell, of Portland, Canadian overseas veteran, will be the evangelist. J. E. Carlson, pastor, will be the song leader and Leslie Hull the soloist. Meetings will be held every night except Saturday nights.

## F. G. STILLER WILL CONSTRUCT CREAMERY BUILDING

### R. S. Trask Will Move Present Business Into New Hollow Tile Structure.

Among several building permits granted by the council Monday night one was given for a modern creamery building to be erected at once by F. G. Stiller, who will lease it to R. S. Trask, proprietor of the Cottage Grove creamery. Mr. Stiller is the owner of the frame building where the creamery is now located at the corner of Seventh street and Whiteaker avenue. The new building will be of hollow tile and will be erected on the north side of Whiteaker avenue at the corner of Eighth street, one block east of the present location of the creamery. Building material is already on the ground and there was nothing secret about it. In fact, the greatest possible amount of publicity was sought. A motor car was the "goat" which Brother Anderson led and rode through the main section of the city. The cavalcade of motor cars kept their horns screeching and thereby attracted such attention to the "ceremony" that the regular week-end business of the city came to a complete standstill.

Permits for the erection of residences were granted as follows: To W. A. Fredericks, for a one-story frame dwelling on the east side of south Sixth street. To Ethel B. Applewhite, for a one-story frame dwelling on Cherry court. To Herbert Whitlock, for a one-story frame dwelling on Columbia court.

## TAX DEFEATED THOUGH LANE GOES 4 TO 1 FOR IT

### City of Cottage Grove Fosters But Country Dis-acts Go Solid for Taxing Incomes.

Despite the heavy favorable vote over the state, the proposed income tax law seems to have been defeated by a few hundred votes, due to a vote of two to one against it in Multnomah county.

Lane county went nearly four to one for the tax, with nearly 6000 voting. Cottage Grove was the only city in the county to give an unfavorable vote and one of the few outside of Portland to do so. Three Cottage Grove precincts voted favorably, but the heavy unfavorable vote in the other two precincts gave a majority of 23 against the tax.

In the country districts in the Cottage Grove section the vote was 373 for and 44 against. Many country districts over the county gave an almost unanimous vote for the proposed tax, among them being Pleasant Hill, 76 to 0; Jasper, 39 to 0; Irving, 57 to 1; Willamette, 97 to 1; Siuslaw, 54 to 1, and Spencer 56 to 1.

Following are the details of the Cottage Grove vote:

	Yes	No
Cottage Grove No. 1	56	45
Cottage Grove No. 2	14	34
Cottage Grove No. 3	39	58
Cottage Grove No. 4	20	16
Cottage Grove No. 5	24	23
Total	153	176

## BUSINESS HOUSES TO CLOSE ALL DAY MONDAY

All the stores and business houses of the city will close next Monday, November 12, which will be observed as Armistice day. As November 11 falls on Sunday, the following day has been proclaimed by the governor as a legal holiday. The business houses of the city are closing at the request of the American Legion because they feel that the people generally should observe a day each year in honor of those who participated in the titanic struggle of the world war, especially those who did not return, and in order that the things they fought for may not be forgotten.

No celebration has been arranged for Cottage Grove, but a number expect to attend the festivities at Roseburg, where the "D" company team will play a return game of football with the Elks team of that city.

Photo Gallery Sold. Herbert Neff, of Crosswell, has purchased the E. A. Hughes photograph gallery and has taken charge of the business. Mr. Neff conducted a gallery in Creswell for two years before coming here.

## COTTAGE GROVE WOULD HAVE NO WIND VELOCITY EXCEPT FOR TWO CITIZENS

Because of the fact that the natural wind velocity here is so slight, two good-natured citizens were recently made the butt of a good joke. It was at a Masonic banquet that C. L. Wilhelm, manager of the Union Oil company and a recent arrival, made mention of the fact that government records showed that the wind velocity here is very slight.

## AWBREY AND ELKINS PLEASED WITH HALF MOON

### J. F. Woodard Comes Back at Olson With Statement; Promises More.

The Sentinel is in receipt of the report made by W. A. Elkins and D. T. Awbrey following their trip to the Half Moon bay district to investigate the Sage & Olson Brothers operations there and to inquire at other California points as to the standing of those interested in the Guaranty Oil company, which is conducting the oil drilling operations here and at Eugene.

Mr. Awbrey's findings are best illustrated by his statement that he is well satisfied with his investments in the Sage & Olson properties in Cottage Grove and Eugene. The visit of Messrs. Elkins and Awbrey to the Half Moon bay district was the result of statements made by J. F. Woodard, after a visit to the district, that the Sage & Olson properties there were practically worthless.

At the request of David Olson, of Sage & Olson Brothers, The Sentinel requested from Mr. Woodard a signed statement setting forth the charges he had made. Such a statement was presented to The Sentinel yesterday. It reads as follows:

"A lie is an intent to deceive," says Webster. Rev. David Eugene Olson and his associates have been attempting to lead the public into believing that they had a 2000-barrel well at Half Moon Bay, Calif. The fact is they had at the time I visited Half Moon Bay a month ago, one producing well which I was advised at the time I was there was producing about one barrel per day. I am advised that in February this well produced five barrels per day. This information comes from the oil and gas commissioner of California. The people who pump this well along with some of their own wells advise that when they first commenced to pump same it produced about 18 barrels per day. This remarkable well was located, so the story goes, 300 yards or thereabouts, from two wells which have produced a little oil for a great many years, by Olson's mysterious oil finding device. I am not familiar with all the excuses and apologies which Olson offers for his and Sage's showing at Half Moon Bay. They have had time to show the world what they could do down there, and since Rev. Olson has requested The Sentinel to get a signed statement from me I am making this statement which I will follow up with corroborative evidence from others. In next week's issue of The Sentinel they have promised to publish Rev. W. A. Elkins' letter to A. L. Woodard on Half Moon Bay which is a sample of the propaganda handed out to the public by Olson and associates.

## MRS. E. C. SPRAY DIES FOLLOWING OPERATION

Mrs. E. C. Spray died at midnight Sunday in a Portland hospital, where she had undergone a serious operation. Little hope for her recovery had been held, either with or without an operation. She had been a sufferer for a year but the seriousness of her condition was not realized until shortly before her death. The funeral was held yesterday afternoon from the chapel, J. E. Carlson officiating. The Rebekah lodge had charge of the services at the grave.

Mabel Harlow, daughter of Mr. and Mrs. C. A. Harlow, was born on Row River August 12, 1891. She was married 12 years ago to Mr. Spray and had spent her entire life in this section.

The parents, the husband and the following brothers and sisters survive: Mrs. Eunice Hankins, Portland; Mrs. Lulu Wicks, Wending; Charles Harlow, Oregon City; Carroll Harlow, Eugene, and Fletcher Harlow, Portland.

## SILVER TROPHY PRESENTATION NEXT THURSDAY

### Service Medals Will Also Be Presented to Three World War Veterans.

The presentation of the silver trophy won by "D" company in the test mobilization of troops of the state held last spring, will be made upon Thursday evening of next week. The affair will be public and will be held in the high school auditorium. Adjutant General White will make the presentation. Professor Frederic S. Dunn, of the University of Oregon, will deliver a patriotic address.

Other numbers on the program will be the presentation of service medals to Captain C. C. Cruson, Lieutenant Donald M. DeLong and Sergeant W. S. McCaleb and a solo by Mrs. Earl Arthur. A reception, with refreshments, will follow.
