THE TRUTH ABOUT SHARP AND RONEY SUBJECT FOR TONIGHT

The Records of Lane County automobile. Commissioners to Be Bared by Former Member of Secret Service.

Amazing, Astounding and Dramatic Recital of Extravagance, Inefficiency, Duplicity Promised.

WHO STARTED THE RECALL

The statement has been made, for the purpose of injuring the recall move, that it was orig-inated and started by The Sentinel because of ill feeling towards Mr. Sharp. While The Sentinel does not hesitate to say that it believes the recall justified, having secured through reliable sources for its own news columns information the same as that upon which the recall is based, yet it is a fact that the launching of the recall came without any consultation with The Sentinel and entirely without its knowledge. The credit must go to Colonel Mercer, who has been the figure in the limelight, and to the committee of farmers who supported him and selected the recall candidates.
