Completes the Bed

No bed is complete unless the spring is of the best. The benefit of the best in a mattress is lost unless the spring underneath is of equal quality.

The De Luxe spring is meant to make the bed a comfortable place for sleep. It gives firm support to the mattress without rigidity.

The continued increase of our business under our permanent cash plan plainly indicates that the savings we are able to give under this plan are worth while. We are able to make lower prices under the cash plan because we have no money tied up in meat that has been sold and eaten, because we have no accounts to lose, because we don't lose by forgetting to charge, because we need no bookkeeper. It's a plain business proposition.

BANK ON IT

"I consider my banking connection a real business asset"

Business men are often judged by the banks transacting their affairs. The ranking of a commercial bank is reflected in its patrons and depositors. The higher the bank is rated financially the greater the credit of its patrons. Consider this when choosing a business bank.
