The J. D. Grimes ranch is a busy place since the building began.

The farmers' wives wish to thank the women, or whoever deserves the credit, for keeping the rest room going. A visit to the rest room is refreshing after a walk on the hard pavement. Country women are accustomed to soft walks, especially after a good Oregon mist. They feel that the rest room is one of the greatest live wires of Cottage Grove and should be supported by all, as perhaps it is. They are glad to learn of the charitable work the women are doing by clothing the needy and suggest that we look in our closets and see if there isn't something we could give to help the orphans and widows. Perhaps something in the way of garden truck could be given.

Put Yourself On Our Payroll for 1924

The payroll of a great service institution necessarily is a large one. Part of it represents money paid for labor and part of it is wages paid to the money invested in huge, wide-flung physical properties.

Because we must grow steadily to supply ever increasing demands for service we must build improvements, additions and extensions every year.

If you care to put your money to work enlarging the service properties we can place you on our payroll and assure you liberal income checks as regularly as the four seasons of the year.

Large numbers of our customers and employes are also part owners of this Company. They know that their investment is safe, dependable and satisfactory. They know that their money has helped to build up the community they are most interested in.

Our Investment Department Will Be Glad to Serve You.
