

Oil Showings Continue

The Eugene oil well was bailed out Tuesday. Material brought up from a depth of over 1000 feet through cold water still steamed and showed signs of heat and gave out an odor reminding one of the sea beach. Fragments of sea shells were plainly visible to the naked eye as they reached the surface. Twenty feet of kootney was passed through recently and 30 additional feet last week.

To the experienced oil driller the above are sure signs of petroleum when the required depth has been reached. The Cottage Grove well shows like indications at similar levels.

The Guaranty Oil Company is doing its part faithfully. What are you doing toward encouraging them? Remember, idle talk amounts to nothing. An investment today helps them now and certainly will bring you returns later on. Don't neglect your opportunity, for it can't last always. See me soon. TOM AWBREY.

Get This Power Thrill

A big, virile engine to send you sweeping uphill—big, sure brakes to ease you downhill—patented Triplex Springs to melt the bumps away! One hour's drive is fifteen minutes more than are needed to open your eyes to the bigger Overland power, sturdier construction and greater comfort. Champion \$695; Sedan \$795, f. o. b. Toledo.
