

The Citizens' Transfer & Storage Company of Tucson, Arizona, operates a fleet of eighteen trucks in local and long distance hauling. Zerolene is used exclusively.

ZEROLENE succeeds "EASTERN" and lubricates better

With the passing of the superstition that there is something mysteriously "better" about eastern oils, just because they cost more, Zerolene sales have increased seven-fold in the last seven years.

The following extract from a recent letter written us by the Citizens' Transfer & Storage Company of Tucson, Arizona, has some bearing on the reasons for this increase:

"Previous to using your Zerolene oils we experienced considerable trouble with eastern oils, which were much higher in price, and we found not suited to our use. We have used Zerolene oils and greases for the past five years. Our equipment (18 trucks and 2 passenger cars) is operated continuously throughout the year and the maintenance has been confined to keeping it supplied with the proper amount of oil and grease; bearings have required only reasonable adjustment after long intervals, and no replacements. We were well pleased with our recent quarterly check on the mechanical condition of our equipment, and knowing this condition to be maintained by the use of your oils and greases, we thought your company would be interested to know of our complete satisfaction."

ZEROLENE
F
for FORDS

—the Standard Oil Company's new improved oil for Ford cars "Feeds Those Oil-Starved Fords."

We believe that Zerolene will improve the gasoline mileage, reduce carbon deposits, and lengthen the working life of every car in which it is used.

Why pay tribute to a superstition? Insist on Zerolene even if it does cost less.

HURD AND CROWE ARE TO TAKE OATH OF OFFICE SOON

Clinton Hurd, of Eugene, and O. E. Crowe, of Lorane, who were elected as county commissioners over Emmett Sharp and L. N. Rooney, who have been recalled, will take their oath of office as soon as the vote cast at Friday's primaries is canvassed, according to County Judge C. P. Barnard.

Judge Barnard said that he is not now prepared to state what the policy of the new court will be regarding methods of road construction or methods of operation, but that it has been agreed that he and

the two new members will go over the different road projects to see what the needs are and how much money is left for this year and then decide on a plan of operation.

"The idea is to get the best results possible for the money and not to overdraw the different funds," said the judge.

The five or six precincts from which no definite election figures are available are small and the figures from them will not change the result of the election in the case of any candidate, it was stated.

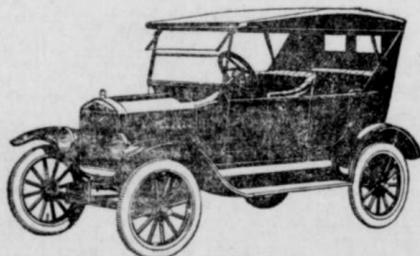

The race between Van Svarvard and Frank E. Taylor for the republican nomination for sheriff was close but Taylor now has a sufficient lead to preclude all doubt as to the result. It was the same in the race for district attorney, Howard Brownell undoubtedly being the nominee.

Bond Money Is Apportioned. The county court made an order Saturday apportioning the \$200,000 recently acquired through the sale of road bonds. The apportionment was as follows:

Bond project No. 2, \$26,000; No. 3, \$47,000; No. 4, \$10,000; No. 10, \$21,000; No. 11, \$26,000; No. 17, \$36,000; No. 19, \$15,000; No. 23 (Mapleton-Cushman), \$25,000.

Keeney Says He Spent No Money. B. F. Keeney, republican nominee for county assessor, was the first candidate to file his election expense account with the county clerk. Zero was written on every line provided for the amount expended.
