**FLORENCE ROAD IS FOUND TO BE IN GOOD CONDITION**  
The new road down the north bank of the Siuslaw river between Mapleton and Cushman was found by County Commissioners O. E. Crowe and Clinton Hurd and County Engineer P. M. Morse to be better than they expected, said Mr. Morse upon the return of the party from the coast section Monday. This road was built by the Southern Pacific company in place of the old road that was destroyed when the Coos bay railroad was built and has been the subject of much discussion during the past few years.  
While the road is narrow all the way, the grades are good and the surface is smooth, said the engineer. It is not open for through traffic on account of construction work and those who make the trip to Florence are compelled to go over the mountain road out of Mapleton. Mr. Morse said that the new river road is far better than the mountain road.

**JORDAN TO BE CANDIDATE FOR COUNTY ASSESSORSHIP**  
Clyde E. Jordan, of Pleasant Hill, has announced that he will become an independent candidate for the office of county assessor, running against B. F. Keeney, who has both the republican and democratic nominations.  
Mr. Jordan is engaged in farming; is 43 years of age; a native of Iowa, is a Democrat in politics; born and reared on a farm; taught in the public schools in Iowa for two years; was a student in the Iowa state teachers' college during 1903-4; has had five years and seven months' bookkeeping and clerical experience in a national bank; has been a resident of Lane county for four years; is a member of the Presbyterian church and farmers' union. He served three years in the national guard, two years under commission, and his world war record follows: Enlisted April 13, 1918; discharged August 15, 1918, to accept a commission; released at Fort Dodge Iowa, August 19, 1919. Served overseas nine months.  
Mr. Jordan, in announcing his candidacy for the office, says: "To whom it may concern: This is to certify that after due consideration of all the circumstances in connection with the recent primary election, I hereby consent to become an independent candidate for assessor of Lane county.  
"I have never held a compensated public office and, if nominated and elected, I will attend strictly to the duties of the assessor's office.  
"I favor and advocate a fair and just timber cruise in order that the assessor may have the necessary information on which to base a re-valuation and equalization of the tax pressure on property now bearing more than its just share of the taxes."

**SECTION OF M'KENZIE HIGHWAY TO BE REBUILT**  
The state highway commission at its meeting in Portland last week agreed to match any money given by the county for the rebuilding of the McKenzie highway between Nimrod and the Cook place, according to County Judge C. P. Barnard, who attended the meeting.  
The road district in that territory levied a special tax which will yield between \$4000 and \$5000. The highway commission agreed that if Lane county will match this sum it will match the combined sums, making a total amount available for this improvement of about \$19,000.  
This section of the highway is one of the few that have not been built according to the state standards. It is quite rough at the present time and at one place narrow and dangerous. The work will probably not be done until next winter.  
Judge Barnard said that when he presented the matter of the need of more funds for the completion of the Bleachly-Rainrook section of the Eugene-Florence highway the members of the commission readily saw the necessity and immediately voted to supply the money on a 50-50 basis with the bureau of public roads. It was pointed out that Lane county has already furnished \$150,000, which is about all that the county can very well stand. Unless the additional money is provided there will be a gap in the middle that will not be built this year and perhaps not next year, as the contractors are working from both ends and the money would run out before the gap was closed.  
Rubber stamps of every kind at The Sentinel live wire print shop. Anything in the printing or allied lines can be secured at or through your home live wire print shop.  
Watch the label on your paper.

**RECALL COMMITTEE SHORT OF FUNDS TO PAY BILLS**

Reports circulated during the recent recall campaign of the expenditure of large sums of money are dispelled by the filing of the reports required under the corrupt practices law.  
The Sharp-Roney recall committee spent more than it received, its bills amounting to \$489.04, according to its report, while only \$378 was collected. The contributors to this fund were given as follows: Elbert Bede, (miscellaneous contributions, none over \$5), \$50; E. R. Spencer, \$62.50; source unknown, \$33.50; George Gilmore, \$1; William Pitney,

\$1; Ed Tullar \$5; C. N. Johnston, \$5; C. L. Teschner, \$4; W. C. Hall, \$25; J. W. McArthur, \$35; C. H. Haines, \$5; A. D. Addison, \$57.20; Clinton Hurd, \$43.50.  
The Lane County Taxpayers' league, which opposed the recall, received the sum of \$218.53 in contributions, according to its report, and expended the same amount, most of it going for advertising. The contributors to the fund were as follows: S. W. Boyd, J. B. Stewart, R. C. Gleason, John M. Durham, W. W. Chrisman, W. T. Jones, J. R. Cellers, J. W. Morgan and J. H. Hawley.  
Your wants may be few—provided you use Sentinel wantads. tf

**Horse Lost at Harrisburg Ferry.**

Harrisburg, Ore., May 28.—A ferry accident entailing the loss of a fine five-year-old horse occurred on this side of the river Tuesday morning. The owner, Levi Kropf, in attempting to haul a load of gravel up the ferry hill, finding the team was unable to pull the load up, was unable to prevent the load from slowly pulling them backwards. As a consequence of the wagon cramping and missing the ferry, the team was pulled into the river into a depth of water of 15 feet. As the harness was slashed the horses became loosened from the load and finally separated from each other. One of them swam across the river

to the west shore and the other was held to the side of the ferry by the current. When a rope was placed about the neck of the horse in an effort to rescue it the animal became overturned. It disappeared under the ferry and before the ferry boat could be moved the horse had drowned.  
London, Ore., June 2.—(Special.)—Harold Dill, 16-year-old son of Mrs. W. H. Dill, cut his foot very severely Wednesday of last week while in the woods alone cutting wood. Although the wound bled profusely, he managed to get to his home and was at once taken to Cottage Grove for medical attention.

*Silks Ready Made*  
**SILKS OF THE FASHIONABLE WORLD**  
There's fascination in using silks which are truly named. For instance, that of afternoon teas, the shopping and the juvenile world, and even the business world.
