

# The Cottage Grove Sentinel

VOLUME XXXIV

COTTAGE GROVE, LANE COUNTY, OREGON, THURSDAY, JUNE 12, 1924

NUMBER 40

## SPEAROW GOES TO OLYMPIC TEST FROM OREGON

Prediction Made That Cottage Grove Preacher Is Going to Break Pole Vault Record.

Ralph Spearow, pastor of the First Presbyterian church in Cottage Grove and University of Oregon pole vaulter, will represent Oregon at the Olympic tryouts in Boston June 13 and 14, and that means he will in all probability make the Olympic team. The associated students of the university and business men of Eugene in one hour Thursday contributed a fund sufficient, with an appropriation from the university athletic fund, to send not only Spearow to the tryouts, but to enable Bill Hayward, his track coach, to accompany him.

Spearow just missed setting a new world's record in the pole vault at the coast conference meet last month of 13 feet 6 inches, which would have been 1/2-inch above the present record. On his next to last try at 13 feet 6, after winning the conference event at 12 feet 9, Spearow jacked over, but in coming down his arms displaced the bar.

Since then Spearow has been working constantly, with gratifying results.

Wednesday he went over the bar in a workout at 13 feet 7 inches. Thursday he did 13 feet 6. Either would be a world mark in competition.

"Spearow will certainly place on the Olympic team," said Bill Hayward. "Unless I am mightily mistaken he will establish a new record either at Boston or at Paris. He is doing 13 feet 6 consistently and, having once gone over at that height, he will do it again."

Last Saturday Spearow was trying for a record after having competed in the high jump, which he won, and the broad jump, in which he was second. He was consequently in no condition to break the record. He just missed setting one, nevertheless.

"At Boston and at Paris he will have nothing to think about but the pole vault. There will be no other events to sap his strength or divert his mind from his great ambition to vault higher than any athlete in the world has ever done before. I am confident that he will win the event and establish a record, too."

Hayward and Spearow, accompanied by Mrs. Spearow, left Saturday for Boston. Ray Dodge, Oregon Agricultural college distance runner and Olympic entrant, left the same day by another route.

An article in The Oregonian of Thursday morning, discussing Spearow's performance and acclaiming him an athlete of real Olympic caliber, was a factor in crystallizing sentiment to send him. For a time the Oregon athletic authorities were uncertain, but Eugene business men and the students were enthusiastically for sending him to the Olympics. He will compete, of course, under University of Oregon colors.

Had Oregon not concluded to send Spearow, he would have had the opportunity to compete as an Olympic entrant for the Los Angeles Athletic club.

## SILVER CUP IS OFFERED FOR BEST FARM DISPLAY

Preliminary arrangements for Lane county's annual agricultural fair were made at a meeting of the directors held Thursday evening last in Eugene. Despite prospects that products of the farm may not come up to those of former years, a fine exhibition is anticipated. To increase interest in agricultural displays, Eugene business men will give a silver cup for the best collective display from a single farm. A carnival will be held in connection with the fair and good prizes will be offered for the horse races. N. E. Glass, of this city, attended the meeting.

## DARWIN BRISTOW CHOSEN CHAIRMAN OF REPUBLICANS

Darwin Bristow, of Eugene, was chosen chairman of the republican county central committee at a meeting of the recently elected committee of the county held last Thursday evening in Eugene. J. D. Hamlin was reelected secretary, J. W. Hobbs was elected state committee man and John L. Dillard congressional committee man. All are residents of Eugene.

The approaching campaign was informally discussed and the committee made plans to get behind the entire ticket, from United States senator down. It was reported to the meeting that the democrats probably will make a strong fight to elect the district attorney, the sheriff and possibly the commissioner.

Republican committeemen of this end of the county are as follows: Cottage Grove: T. C. Wheeler, C. H. VanBuren, S. L. Mackin, W. B. Harvey and Elbert Bede; Brumby, Finley Whippis; Latham, J. H. Hawley; Siaslaw, W. W. Jackson.

## Children's Day Observed at Church.

Sunday was set aside at the Presbyterian church as children's day. The small children gave the greater part of the program but each class was represented with a musical number, recitation or some kind of an entertainment number.

## Weed Inspectors Appointed.

C. E. Stewart, of Cottage Grove; C. H. Haight, of Siaslaw, and F. L. Bahrenfuss, of Godyville, have been appointed weed inspectors for this end of the county.

## ANNUAL CHAUTAUQUA SESSION IS SUCCESSFUL ONE

Lectures Superior to Those of Former Years and Entertainment Clean and Refreshing.

The annual chautauqua session, which came to a close Sunday night, was a successful one both because of the quality of the programs and because there was but a small deficit to be met by the guarantors.

The closing number was McDonald Burch's evening of magic, probably the best purely entertainment number ever given on a chautauqua platform here. In mystic magic Burch proved himself a past master. His entertainment was not confined entirely to the stage. He did not hesitate to walk into the aisle and produce a rabbit from the pocket of an unsuspecting member of the audience. He performed tricks, if they may be so called, that were entirely new to many and some were so uncanny that a century or so ago he surely would have been burned at the stake as an agent of some unseen evil power. The entertainment was as clean and wholesome as it was mystifying. On account of the day, the afternoon program, which was to have been "Circus Day," was rearranged and an attraction not on the program, an exhibition of reproductions of 20 famous paintings of the centuries, with a history of each and an interpretation of each, was given by Haig Auklin. The kiddies were not to be entirely neglected, however, and Hattie Fitzpatrick, the clown, gave an hour of clean entertainment for them which was interspersed by good advice to the youngsters who wished to develop strong, healthy bodies. Many of the boys expressed an ambition to develop a physique such as his.

The four lectures given during the session were among the best ever heard here and are given prominence by being handled in separate news stories.

Of the musical organizations the Vernon Symphonic Quintet was voted the best. The musical programs did not show superiority over those of former chautauquas, although there was appreciation of the fact that all represented the best in music and there was no pandering to modern jazz.

"The Mollusc," comedy-drama by the Clarke-Browne players, was a highly entertaining number, aptly illustrating how the mollusc will spend more effort in resisting doing something than it would take to do the thing.

The usual junior chautauqua parade was held Saturday afternoon and many ludicrous characters were represented. First prize went to Vera Scott and Viola Eckmond, who impersonated an old man and an old woman; second prize went to Jerome Byrnes and Evelyn Hays, who impersonated the Gold Dust twins, and third prize went to Lloyd Griggs and Brewer Mills, who impersonated a negro family.

In the athletic test among junior chautauquas, badges were won by Kathleen Smith, Beth Bede, Arnold Enkright and Cecil Armes.

Mrs. Della McGregory proved a popular director. Harvey Robinson, son of Mrs. M. V. Phillips, of Cottage Grove, was in charge of the property. Miss Livingston, junior director, won the love of the little ones.

## MODERN HOTEL BUILDING IS IN PROSPECT THIS YEAR

Cottage Grove can feel reasonably certain of the erection of a modern hotel building during this year. C. A. Bartell, proprietor of Hotel Bartell, has had plans prepared for a five-story structure on the East property at the corner of Main and Fifth streets, to be erected by a stock company and to be leased by Mr. Bartell. The proposal to form a stock company was presented at a meeting of representative business men a few nights ago and the proposal was cordially and enthusiastically received.

A number of business men of this city have already indicated their intention of investing in amounts of not less than \$1000. A total subscription of some \$85,000 will be required but Mr. Bartell feels, judging by the reception so far, that there will be little difficulty in raising that amount.

Business men of the city realize that a modern hotel will mean much to the city.

## SEVEN-DAY CHAUTAUQUA IS ON FOR NEXT YEAR

Cottage Grove will have a seven-day chautauqua next year. The price of season tickets will be raised from \$2.50 to \$2.75 for the additional day's entertainment. The seven-day chautauqua is an outcome of the wish of Ellison White to avoid giving on Sunday any program that can be objectionable to any. This year the circus day program fell on Sunday. Next year nothing like that can happen. The Saturday entertainers will remain over Sunday and give an exclusively sacred program.

## Free Chautauqua at Drain.

Merchants of Drain are giving the people of that community a free chautauqua this year, the dates being June 17 to 21 inclusive. A good camp ground, wood, water and light will be furnished out-of-town people who attend. A special invitation has been extended to Cottage Grove people.

## ADOPTED CITIZEN APPEALS FOR AMERICANISM

Time for America to Learn Who Would Rule and Why and Go to the Ballot Box.

Hypnotized Americans are worse than the aliens who have just arrived upon our shores, for they take advantage of citizenship here to promote the interests of the land from whence they came and the manner in which they bear the responsibilities of citizenship is guided by the interest of the country for which they have renounced allegiance.

The safety of America depends upon the education of the masses, depends upon the use of the ballot by the educated ones who have that privilege. And the safety of the world depends upon America. If America fails, all is lost.

It is time that Americans awakened to inquire as to who is attempting to take the reins of government and for what purpose.

Citizens of America take too much as a matter of course the privileges of citizenship and assume too few of the responsibilities of citizenship. Citizenship should be restricted to those who are educated to the point that they know how to vote. It is a crime that millions of those, some of them of the second generation, who think so little of their adopted country that they have not learned its language, should even have the privilege of the ballot and should be permitted to participate in the affairs of government guided by those who would serve only the interest of some land beyond the seas.

These are somewhat startling statements made in an address before the chautauqua session here by Bagdasar K. Baghdigian, a native of Armenia, who arrived here as a child with a few pennies in his pocket.

"What our country needs," he said, "is not bolshevism, or anarchism, or radicalism; it needs no more than Americanism, although at one time I thought I saw the need of anarchism and would be an anarchist now did I not believe that Americanism will rise to the ascendancy."

"Americanism means equal opportunities for all; not materialistic opportunities—we must put materialism aside; but we must have equal opportunities for the education of all, we must take the ballot from the hands of the ignorant and place it only in the hands of those who will vote for America. We must expect rottenness in government when the better people stay at home and the minions of those who represent all that our government should not be go of the polls and cast their ballots as they are directed to do. We can not have a true melting pot when the author of the great work by that name decries the fact that there is not an organized Jewish vote in America."

"We must think Americanism. We must act Americanism. We must exercise the privileges of Americanism. We must give the ballot only to those who are Americans. Who we have to use it."

In answering a query, Baghdigian denounced LaFolletteism and the LaFollette type of public man. Introductory to his talk Mr. Baghdigian graphically described the atrocities committed by the Turks in Armenia which resulted in his being sent as a child to the land of the free and the home of the brave. He described his escape from the bondage of the Turks in his homeland to the bondage of materialism in his adopted land and his escape from the latter.

## VEATCH CLAN REUNION TO BE HELD HERE SUNDAY

Sunday is the date for this year's annual reunion of the Veatch clan. Weather conditions being favorable, the affair will be held at the so-called Veatch camp grounds. In case the weather is unfavorable, a hall will be obtained. The attendance for these affairs has been between 60 and 70. An effort is being made to increase the number this year.

## To Preach on Revelations.

A series of sermons on the book of Revelations, to be preached by E. R. Clevenger, pastor of the Baptist church, will start Sunday evening and continue upon Sunday evenings until completed. Pastor Clevenger believes that we are living in the time that the prophecies of the bible are being fulfilled and promises that these studies of the final revelation given to man will prove both interesting and helpful. Those interested in the predictive portion of scripture are invited to attend.

## Partnership Is Dissolved.

The Cottage Grove-Eugene Freight and Transfer company and the City transfer are to be run separately again. C. Mulvihill will have full charge of the City transfer business and his daughter, Miss Doris Mulvihill, has taken Mrs. J. A. Rhoads' position in the transfer office. Mr. and Mrs. Rhoads will have sole control of the Cottage Grove-Eugene Freight and Transfer company.

## "Pussyfoot" Johnson Speaks Here.

"Pussyfoot" Johnson, international prohibition worker, addressed a large audience at the Christian church Monday night. He described the claim that there has been an increase in consumption of liquor under prohibition and said that the United States, looked to as an example by the rest of the world, must put John Barlecor down and out.

## Old Landmark Is Gone.

Mount View, June 10.—(Special).—The old homestead home built by Charles Sears more than 40 years ago was torn down last week and a modern 10-room house is being erected in its place.

## ACTING POLICE JUDGE KNOWS WHAT IS REAL PUNISHMENT FOR YOUTH

Has Cottage Grove a Solomon come to judgment? Mayor Andrew Brund acts as police judge during the absence of the city recorder.

A few days ago he heard the case of a young man who had been driving his "bug" over the sidewalks.

The same lad had been before the police court before for traffic offenses. Trifling fines seemed to have little deterring effect.

This time he had expressed the opinion that he probably would have to "lay it out."

Of course the police judge wasn't going to have any young man "laying out" a fine for a traffic violation.

"You are hereby prohibited from driving your car, or any car, after 6 o'clock p. m. for the period of 30 days," was the sentence.

"Can't I drive it on the Fourth?" was the plaint.

"Your 30 days will not be quite up by that time, replied the just judge.

Penalties of this kind are likely to do more in bringing about an observation of traffic violations than any number of fines.

## POWELL DESCENDANTS TO GATHER HERE JUNE 22

The sixth annual reunion of the Powell Memorial society will be held June 22 at the Lincoln Taylor place six miles south of this city on the London road. The society is made up of descendants of John, Alfred and Noah Powell, pioneers scattered over Oregon, Washington, California and Idaho. It is anticipated that some 200 will be in attendance.

The following program has been arranged for the occasion:

11:30—Salutation of Flag—Flag bearers: Twins, Dorn and Dean Powell.

Song—"America." Prayer—Chaplain F. M. Cornet. Address of Welcome—Norval Powell.

Address by President—Dr. J. M. Powell. Ladies' quartet. Address—Hon. P. O. Powell. Society song—"Our Folks."

Reading, "The Pioneer Preacher"—Mrs. Will Howard. Vocal solo—Jay Powell. Influence of the Three Preachers—Wayne Overholser. Doxology. Basket dinner. 2:30 p. m.—Piano solo—Burton Arant.

Recitation—Arlie Powell. Recitation—Geneva Powell. Piano solo—Eleanor White. Reading—Hazel Powell. Reading—Austin McReynolds. Song—Wendell Small. Children's drill. Miscellaneous stunts. Reports of analysts. Business session. Parting song.

## DE MOLAYS VISIT HERE AND PRAISE OUR HOSPITALITY

One of the most important events in the history of the Masonic lodge was the entertainment last Thursday evening of officers and members of the Eugene DeMolay chapter to the number of 50. The impressive work of the order was exemplified upon two candidates before a large number of Masons, who are eligible to attendance at meetings of the DeMolay order.

The lodge made a hit with the visitors with one of Cottage Grove's famous feeds, the pieces de resistance of which were chicken pie and strawberry shortcake.

## NEIGHBORS IN CALIFORNIA MEET EACH OTHER HERE

Sometimes neighbors in Los Angeles have to come to Cottage Grove to meet. Harry C. Mitchell and Henry Wagner, both of whom are former residents here and now residents of Los Angeles, are visitors here, neither knew the other was living in Los Angeles. They met while both were greeting F. C. Coffman, under whom both learned the barber business here more than 20 years ago.

Mr. Wagner had not been here for 21 years and hardly recognized the city as the one he left two decades ago.

## Tardy Boys Cause Worry.

Siaslaw, June 10.—(Special).—Edward Pettet and Gail McArthur caused some excitement and worry Friday night when they failed to return from Cottage Grove until 10 o'clock. When they did return, Edward decided to spend the night with Gail and neglected to notify his folks, with the result that Mrs. Pettet and several neighbors put in all night searching for him. The mother, fearing that the lad had been drowned or had met with some accident on the highway, was almost prostrated.

## Cannery Orders Retort.

In order to make certain the destruction of germs that cause beans to sour and those that produce botulism, the cannery has ordered a retort that will be used for this year's bean pack. It will arrive about July 15. The retort will develop a heat well above that necessary for the killing of these germs.

## Old Landmark Is Gone.

Mount View, June 10.—(Special).—The old homestead home built by Charles Sears more than 40 years ago was torn down last week and a modern 10-room house is being erected in its place.

## ELBERT SMITH IS APPOINTED POSTMASTER HERE

Recognition of War Service to Country and of Newspaper Service to Party.

Elbert Smith, who has been one of the publishers of The Sentinel for eight years, will be Cottage Grove's next postmaster, his recommendation for the position having been made by Congressman W. C. Hawley on June 5.

Mr. Smith will succeed Mrs. Katherine B. Veatch, who has held the position for eight years and who has made a popular official. Mr. Smith and Mrs. Veatch were the only ones to be accredited for the position following the recent examination before the civil service commission, in which five candidates participated, the appointee receiving the highest grade.

Mrs. Veatch received two appointments, both for the usual four-year term, under the Wilson administration, the recommendation for her appointment coming from Senator Chamberlain, democrat, to whom patronage went under the democratic administration. The recommendation for postmaster is the prerogative of the member of the lower house of the district in which the appointment is to be made when such member is a member of the party in power, which explains why the recommendation for the retiring postmaster was made by the senator, while the recommendation for the incoming postmaster was made by the congressman.

Mr. Smith will assume the duties of postmaster on June 15, although the term for which Mrs. Veatch was appointed expired on June 4, she will continue the administration of the office until her successor is qualified and installed. Mr. Smith will, as required by federal regulations, retire from active participation in the conduct of The Sentinel, but it is his intention to retain his interest in the business.

Mr. Smith volunteered in the Spanish-American war and served in Cuba in 1898. His regiment, the Seventh United States infantry, is now located at Vancouver, Wash. His appointment is a recognition of his service in the armed forces of the country as well as of the services of a newspaper to the party.

A pleasing feature of the postmaster's appointment was that it was brought about without friction of any kind.

## PARENTS AND CHILDREN MUST COORDINATE EFFORTS

Parents, as well as boys and girls, have a great duty to perform in making men and women, in giving the boy and girl a chance, in the opinion of Dr. H. Leo Taylor, who spoke at the Thursday afternoon session of chautauqua. Dr. Taylor's address was one to inspire young folks to nobler and better things and to parents to perform a greater part in directing their young and providing such opportunities. The responsibilities of young folks to their parents and to those in authority was no more stressed than the duty of parents and the authorities is developed.

## HIGH SCHOOL ALUMNI ARE TO BOOST FOR GYMNASIUM

A Cottage Grove alumni association was organized at a meeting held Thursday evening last in the high school auditorium. A meeting for a permanent organization will be held June 26, to which all alumni of the local high school are invited. The organization is largely a social one but a major object of the association will be the promotion of the proposed high school gymnasium.

At the meeting Thursday last Robert Galloway was elected temporary chairman and Wilbur Spry temporary secretary. Miss Lulu Curran, Miss Rita Kelly and Ren Sanford were appointed a committee to prepare a constitution.

## Charles Smith in Auto Accident.

A Ford car driven by Charles Smith was struck by an Oregon Pacific & Eastern train at the Sixth street crossing Tuesday afternoon. Mr. Smith was going south on Sixth street. Apparently he did not see the train or hear the warning signal for he drove onto the track, where it is thought he killed the engine. The collision turned the car completely around, broke the windshield, bent one wheel and damaged a tire, but Mr. Smith escaped without injury.

Mr. Smith has never fully recovered from injuries sustained when the same car went off the grade with him while he was driving into the Bohemia district.

## J. P. Miller Is Injured.

J. P. Miller, employe of the A. L. Woodard Lumber company, sustained a severe fracture of the large bone of the left leg Friday when he fell while bucking logs. George Kehlbeck, one of Mr. Miller's fellow workmen, took him to a Eugene hospital immediately. The injury is healing as well as can be expected.

## Boys Classy Car.

Walter Woodard has bought the classiest automobile that has been brought here this season. It is a Buick 54 sport model roadster and is equipped with balloon tires. The sale was made by Beaulieu & Harrel. Mr. and Mrs. Harrel went to Portland and brought the car here.

## AMERICA SHOULD PARTICIPATE IN AFFAIRS OF ORIENT

Japan Will Never Fight the United States, Says Former Resident of Far East.

America is going to be producing in the near future more than its own people can consume and it must have millions to whom to sell the surplus. America should be developing a market for that surplus by a proper participation in the affairs of the orient, in the opinion of Dr. Homer B. Hulbert, who appeared as one of the numbers on the chautauqua program here.

Dr. Hulbert spent 20 years in Korea, China and Japan, a part of that time as personal advisor to the emperor of Korea. As a missionary and an editor in that far-off land he had unusual opportunity to study conditions there and to learn the part that even now it is impossible to leave railways and highways so far behind in any of these countries that American goods are not found in use by the natives.

"Japan will never fight the United States," Dr. Hulbert said, "because Japan never picks a quarrel until it knows that it is going to win. The Philippines are safe from Japan so long as they remain a possession of the United States but to give them independence would amount to making them a Japanese possession. The natives there realize that and do not want independence that would do away with the protection of the American flag."

Commodore Perry's opening of the doors of Japan, although his praises have been sung for the great accomplishment, has proved a monstrous error. The method employed by Commodore Perry caused the Japs to conceive the idea that the exercise of brute force made nations great and they have ever since acted upon that theory. They started to follow the example set them by all other nations at the moment that form of becoming great was beginning to be frowned upon.

"The atrocities which Japan has committed in Korea are monstrous and almost unbelievable and the United States, a treaty friend of that nation, a treaty friend because that treaty was forced upon that nation, has not kept faith."

"I came here as the personal representative of the emperor to appeal to the United States government to take the hand of Japan from the throat of that bullied nation, but the powers that were at that time had been approached by the wily statesmen of Japan and my efforts were unsuccessful, although I begin to feel that the present administration is much more friendly."

"A great cataclysm is imminent in Japan and the test must soon come as to whether militarism shall prevail."

"We can learn much from the orient. Korea had bicycles hundreds of years ago and discarded them by religious edict before they were known here. The first movable type, the basis for the enlightenment of the peoples of the world, were made in Korea."

"I came here as the personal representative of the emperor to appeal to the United States government to take the hand of Japan from the throat of that bullied nation, but the powers that were at that time had been approached by the wily statesmen of Japan and my efforts were unsuccessful, although I begin to feel that the present administration is much more friendly."

"A great cataclysm is imminent in Japan and the test must soon come as to whether militarism shall prevail."

"We can learn much from the orient. Korea had bicycles hundreds of years ago and discarded them by religious edict before they were known here. The first movable type, the basis for the enlightenment of the peoples of the world, were made in Korea."

## COMPANY D IS OFF TO CAMP FOR TWO WEEKS

Members of D company, 186th infantry, left here early Tuesday morning on a Southern Pacific special for annual encampment at Camp Lewis. Companies from southern Oregon had been already picked up and other companies were picked up as the train proceeded north. Two special cars were set out here and the boys were aboard at 11 o'clock, which was in compliance with military orders. The company's equipment was carried, and part of the equipment was the supply of canned fruit furnished by the women of the city for the company's mess. Lunch on the train was furnished by the ladies' aid society of the Baptist church.

The company has an automobile at its disposal this year, Mess Sergeant K. K. Mills and Sergeant E. T. Blakely having made the trip through with the motor car.

In addition to the usual daily military training, the men will be taken on an outing to Rainier national park and there will be sports and amusements of various kinds to fill in the time that the men are not participating in military tactics. The company will be in camp two weeks.

## Form of School Bonds Changed.

The school board is rediverting the sale of its issue of bonds for the erection of new buildings. The rediverting is necessary because the form of the bond has been changed. Originally it was intended to make the date of redemption optional with the school district, but bond attorneys informed the directors that this would result in a lower price for the bonds, for which reason the form of the bond has been changed so that the district has no option until after the expiration of 10 years.

## Rain Relieves Fire Situation.

The forest fire menace in this section was done away with temporarily by the light showers and the cooler weather of the past week. The showers in this section were not as heavy, however, as they were elsewhere and much more rain will be required to do away with the fire danger entirely.

## SELLWOOD TEAM IS COMING FOR THE FOURTH

Street Carnival, With Feature Surprises, Is to Be Big Event of the Night.

The Sellwood baseball team, of Portland, will be here as a Fourth of July feature. Manager Earl Hill, of the local team, promises to have a team whipped into shape that will give the boys from the metropolis the game of their career.

The night carnival, to start at 7:30 p. m., is planned as the big feature of the entire celebration. Main street from Fifth to Seventh will be roped off for this purpose and traffic directed over other streets. A band stand will be placed at the corner of Sixth street. Concession booths will be placed on the side streets just off of Main. The pavement will be especially prepared for dancing and the fun will last as long as the crowd remains. A number of feature surprises will be put on during the evening.

All those desiring to do so are invited to compete for the prizes to be offered for entries in the parade which will start the day's festivities. The parade will be followed by a snappy program at the city park. The speaker has not been selected as yet.

There will be a lull in the festivities at midday for a basket picnic at the city park, where coffee will be furnished.

A firemen's water battle is expected to cause much amusement, there will be the usual small sports and a Jitney dance at armory all afternoon.

The Eugene band and Eugene orchestra will be here all day. A complete program will be ready for publication next week and the committee in charge promises that all events will start on time.

Traffic will be diverted from Main street during the entire day and no parking of cars will be permitted upon the portion where the festivities are to be carried on.

Ralph Hand, local midgetweight wrestler, will put on a match upon the night of July 3.

## PROGRESS IS HINDERED BY "MAN WITH ONE WINDOW"

Very little is accomplished in the progress of the world by the person whose activities are confined to one phase of life or one activity—by the person who has but one window—Dr. E. T. Hagerman told the chautauqua audience Saturday night.

"Progress depends upon the development coincidentally of many activities. While there must be those who devote their greatest energy to business, while there must be those who devote their greatest energy to church affairs, while there must be those who devote their greatest energy to politics, while there must be those to give more time than others to social activities, while some must devote their greatest energies to science, the business man can not do the greatest good for himself or the world if he does not use the other windows that show him the world of politics; the realm of the church and the other activities. The politician must direct his vision at times through the other windows that show him the activities in business, in society, in the realms of science, etc. Our own efforts in our own particular line will be more successful because of contact with what others are doing. Our minds will grow cobwebs if we give all our time to our own efforts without regard to what the rest of the world is doing. By disregard of what can be seen through the other windows we come to believe that the whole world lies under the one window through which we direct our view."

Dr. Hagerman's address was devoid of oratorical flights but from an inspirational standpoint was spoken of by many as the best on the program.

## McCarroll Coming Tomorrow.

Ray McCarroll, popular light heavy wrestling cowboy from Pendleton, will be here tomorrow night to meet Ralph Hand, local midgetweight. McCarroll was given a decision over Hand when the two met in Pendleton a short time ago. Hand suffered an injury serious enough to prevent his continuing with the match. McCarroll is considered a top-notch and the fans here are anxious to see him in action.

## How would you like to have to send to Chicago when you wanted a repair of some kind in a hurry?

—how proud would you feel of your home city if you had guests from in unexpectedly and you had to make excuses for your meal that you had no grocery stores?

—how would you like to make a trip to a city 20 to 50 miles away to get a prescription filled while a sick one at home might need the prescription to preserve the spark of life?

—the way to have all of these things at your door is to trade at home, to read the ads in your home newspaper, and buy from wide-awake home merchants.

## Form of School Bonds Changed.

The school board is rediverting the sale of its
