Economy Means Getting Your Money's Worth

You'll agree that no matter how low the price of any item, it is not a bargain unless you get your full money's worth. Every merchant is responsible in seeing that every customer does get his money's worth. No matter how good a judge of value you may be, there are many items in which you must in a sense take our word for it. We feel this responsibility keenly. You may be assured that when we represent any item to be quality merchandise, we are giving you the absolute truth about that article. That is the reason we carry only quality merchandise in this store. We do not wish to be responsible for furnishing you with merchandise which will not give you your money's worth. We want you to have this confidence in our statements, and in the description of our goods.
