Be Proud of Your Cooking

Delicious foods, perfectly cooked, are the invariable results with an electric range because you can accurately control the heat.

You can afford to be proud of your cooking when it is done electrically. And you can be proud of your kitchen, too.

The range itself is attractive in appearance, and electric heat is so clean that you will have no trouble at all in keeping your kitchen spotless always.

See the Westinghouse Range demonstrated at our office. We have a style and size that will suit your requirements exactly.

No Car Like It!

42 horsepower! 50 miles and more an hour—hour after hour—without over-heating—without loss of power—without carbon cleaning!

And at the end of a long sustained high speed, your motor will be cooler, will need less water than any similar sized poppet-valve engine.

This engine's power curve keeps climbing up while the power of a poppet-valve car is dropping off. Furthermore, the Willys-Knight is entirely free from those engine repairs which make up 50% of the upkeep cost of practically all poppet-valve cars. It has no cams—no springs—to get out of order. A car you can keep season after season. Take a ride today.

YOSEMITE ECONOMY RUN RECORDS prove ZEROLENE increases gasoline mileage

For years this Company has claimed that Zerolene, because it lubricates better, enables the average car to go about five per cent farther on a gallon of gasoline than when other oils are used.

A few weeks ago this claim received the most remarkable confirmation in the results of the annual Los Angeles-Camp Curry (Yosemite) Economy Run. Six out of the seven trophies offered, including the sweepstakes, were won by Zerolene-lubricated cars. The sweepstakes winner, an Overland Model 92, driven by Joe Bozzani, traveling the 400 miles of desert and mountain roads, averaged 29.36 miles to the gallon of Red Crown gasoline—an achievement which the 1924 contest rules made all the more remarkable as they forbade coasting or stopping the engine.

Right here, in the official records of this economy run classic, is your answer to the oil question. Why pay tribute to the superstition that eastern oil, merely because it costs more and is made in the East, is in some mysterious way "better?" Experienced drivers, out to make records, don't share that superstition—why should you?
