WHITE CEDAR HELD PRECIOUS IN JAPAN

Fast Vanishing Supply Held for Temple Use.

Washington.—A representative of a western lumber concern, who has returned from a visit to Japan, has informed Manager Blalock of the Seattle office of the Department of Commerce that the supply of white cedar in that country is controlled by the imperial family and comes from one of their estates. There is also a white cedar which comes from the Island of Formosa, but this is less desirable because it has a tendency to be pink in the center.

The Japanese white cedar of the highest grade is considered practically sacred. All of the wood 18 inches and up in diameter is reserved for the building of temples. The cheaper grades, however, are disposed of like other woods. Especially fine pieces are reserved for the temples of the emperors. Only white cedar grown in Japan is used for building temples.

In the opinion of this visitor, most of the white cedar shipped to Japan is used for exposed beams on the inside of dwelling houses, where this wood is prized for its appearance and long duration. One instance is cited in which a Japanese paid \$1,100 in gold in this country for a choice beam 18 inches square, 20 feet long, with perfect diagonal grain.

Polish timber exports in 1923 increased to 1,165,087 tons, valued at approximately \$9,000,000, from 1,023,528 tons, valued at \$4,000,000, in 1922. Assistant Trade Commissioner Baldwin, Warsaw, reports to the Department of Commerce. Virtually the entire increase, which is said to have led to excessive exploitation of Polish timber resources, occurred in the first half of the year. Following the imposition in June of export taxes intended to check excess cutting and equally to stimulate the domestic wood-sawing and manufacturing industry by limiting the export of raw materials, shipments in the second half of the year fell to mere fractions of their former volume.

Cop Retains His Job Though He May Be Rich

Hollywood, Cal.—Everybody knows policemen are skeptical, and Herbert R. Reynolds, traffic officer of Hollywood, is no exception. In the squadron at the police station, fellow officers recently crowded around and congratulated him on falling heir to \$500,000. "Maybe yes and maybe no," Reynolds commented, leaving hurriedly to take up his duty as directing traffic officer at Hollywood's busiest corner.

According to Attorney Charles Knudson, the money was left Reynolds by his father-in-law, Mangus Brown, in Philadelphia.

Despite a year's separation between Reynolds and his wife, the Brown family is said to hold a warm spot in its heart for Reynolds, who submitted to eight blood transfusions to save the life of his sister-in-law.

Paroled Criminal Jars Faith of Dickens' Son

London.—Sir Henry Dickens, who, as a London magistrate, has found in actual life that the faith of his famous novelist father had in human nature is not always justified, has just commented on a case that was brought before him recently. Sir Henry some time ago remarked that he was determined to try a great experiment with a man who was arraigned before him. Although the prisoner had a long criminal record, Sir Henry paroled him and found work for him. Three months later the man was again arrested.

"It was one of the greatest disappointments I have ever experienced," said Magistrate Dickens. "I will never try such a thing again."
