

No better car made for the price than the chipper Chevrolet. No greater amount of power found in any car of its size. Its beautiful lines are out of proportion to its moderate cost. You can't go wrong on a "Chevie."

# BUICK

Again, no better car made for the price. Its six cylinder overhead valve power plant can not be improved upon until Buick does it. The Buick is the greatest six-cylinder in its class. Power to throw at the birds and pretty enough in its lines to make the birds jealous. The real bargain for the person who wants a medium priced, roomy, powerful six cylinder car.
