Second Annual Clearing Sale

W. L. Darby & Co., Cottage Grove

Clearing out our stock of slow sellers and reducing heavy overstocks in many lines to release money tied up with the consequent lessening of turnover and profits. Being within 24 hours of market we find we can greatly reduce our stock and with the money released, carry a much more representative line of merchandise in greater variety. Selling on less margin, for cash, means greater turnover and more ultimate profit on money invested. This outlines our future policy. We mean to move all surplus and slow selling stock and to do this are offering reductions of 10 to 30 per cent in all lines except nails. No cheap or off-quality merchandise offered, as leaders or otherwise.
