Clean house this Fall and from now on with a new PREMIER DUPLEX VACUUM CLEANER that gets ALL THE DIRT and that has a motor which runs for years without oiling.

DOUBLE ACTION

The DUPLEX has a powerful suction that cleans as any really fine suction sweeper will. But that alone is not enough. Suction alone won't get the dirt from the bottom of the nap—without a motor driven brush. The PREMIER has both—the brush and strong suction, DOUBLE ACTION.

Won't you come in for a demonstration or call us? We'll be glad to show you this wonderful cleaner in your own home.

DRAIN TRAFFIC REGULATING OFFICER RETAINS JOB

Attempted Return to Office of Former Official by Unique Method Is Failure.

The quo-warranto proceedings to oust A. J. Burns, city recorder of Drain, brought about as a part of the squabble over traffic regulations, failed when Judge Hamilton on Friday dismissed the action, holding that G. V. Sanders, relator in the action, had abandoned the office. According to the evidence in the case Sanders was appointed and served until May 5, this year. He accepted a position as automobile salesman in Roseburg and told the city marshal, Henry Bartholomew, to tell the council to get someone for the city position. Mrs. Sanders, it was said, presented a written resignation on behalf of her husband, but the mayor handed it back to her as the council was too busy to act upon it the night it was presented. Burns was appointed May 1 by the mayor and the appointment was confirmed June 5. He served as recorder during the summer and much agitation arose because of the activities of the city and the fines imposed upon motorists in Drain. The attention of tourist associations was attracted and the merchants of Drain even posted signs outside the city warning tourists to beware. Sanders demanded the return of the books and records of the city in September, but Burns refused to give up the position or surrender the office effects. The case then went into court and was heard. Judge Hamilton upheld the stand of the defense that Sanders by his action had shown abandonment of the office and that Burns was properly appointed and qualified.

EUGENE IS UP IN AIR OVER PROPOSED BUS LINE

Something of a tempest has been stirred up in Eugene by the fact that an application has been made to the city for permission to operate a bus line upon streets not having street car lines. It was found that an ordinance permitted the operation of bus lines upon the payment of a nominal fee and immediately city officials got busy to enact legislation that would provide a fee high enough to compensate for use of the streets and to act as a damper upon the operation of busses. Business interests of that city have expressed the fear that operation of bus lines would drive the Southern Pacific's street car line out of business.

Eugene Oil Drill Goes Deep.
The drill at the well of the Guaranty Oil company at Eugene is now down lower than 2900 feet, according to announcement at the company's office, and the drillers and other experts are quoted as saying that indications of striking oil were never more favorable.

The drill for many weeks up to a short time ago was pounding through a stratum of hard rock but recently the drill has been in blue shale and sand rock. Beneath the stratum of hard rock a layer of paraffin was found, according to officials of the company.

District Attorney Is Improving.
Clyde N. Johnston, district attorney, is improving from injuries sustained in an automobile wreck several weeks ago and is now able to be out a few hours each day.
