#### Race Improvement Can Not Come In Day, Says Doctor

Acquired Traits Are Not Noticeably Transmittible By Human Race.

Dangerous but Necessary In Big Plan.

betterment cannot be It is bigger and broader.

"It is not difficult to better the covered. physical, mental and moral condiably transmittible; the breed, the stock, the race has not been mahas to be done again for the next been discovered.

This brings us to what seems to me to be one of the most important factors in our race building problem," said Mr. Kuykendall. "How can we develop in the minds of all the people the same compre-hension of the importance of, and necessity for, race betterment that they now have of the importance of, and necessity for, individual betterment! How can we get a working majority of our people to see the vastly greater importance, in the long run, of race building over individual betterment?

"I would not plead for less attention to the betterment of the offered to the city as a gift, this and readers to profit in a big way, lot of the individual. I ask only for a better comprehension, a growing understanding of the vastly greater importance of race betterment. I would like to see developed a sort of race consciousness the minds of all the people. Men and women must be taught their responsibility to the race.

"It seems to me the greatest single need of our problem is some. medium of continuous, coherent study and effort, something that would carry it along from generaor group of individuals live long south Lorane road.
