WHAT DID THE LEGISLATURE DO?

The question most frequently asked of the persons who were present at the recent legislative assembly is, "What did the legislature do?"

That is not an original question nor a new one. It is asked following every legislative session.

The easiest answer is that it did about what it would have done had those who asked the question been members of the session, but it is possible to answer the question more fully and satisfactorily.

Most important in the conduct of the state government comes the appropriation bills for several millions of dollars and the enacting of new revenue laws. By many the adoption of the principal of taxing luxuries, the adoption of the principal of a gross earnings tax and the tax of 10 per cent of the receipts of the boards and commissions which are supported by fees and exist largely for the service rendered a particular class of citizens of the state, will be considered one of the most progressive moves the assembly ever has made.

Next in importance, if not actually more important than the legislation already named, comes road legislation. The road programs put over was the most forward-looking of any adopted since the inception of the good roads move. Many bills were enacted that dealt entirely with this program, probably some 30 in number.

The two of greatest importance were the ones adopting the principle that busses and trucks must pay a fee in proportion to damage to the highway and in proportion to the service given by the highways and the one providing for greater cooperation between county courts and the state highway commission.

After years of experimentation it was possible to work out rates that are considered equitable despite the fight made by the bus and truck lobby, the largest and most powerful present at the session. Two years later it will be possible to fix these few with a more exact nicety. It was believed by many of the legislators that the license fees provided were yet too low. Whether or not such is the case will be known when the assembly meets again.

Possibly next in importance, possibly first in importance in the interest it provoked, was the investigation of the prohibition enforcement department, the resignation of Prohibition Agent Cleaver and the putting of several moratoriums into the prohibition enforcement laws.

Next in importance in the amount of discussion provoked probably was the Dennis-Shelton resolution inhibiting income and inheritance taxes for a period of 15 years, although the people could amend the constitution at the next election following the enactment into law of the tax inhibition, it is contended by the proponents of the resolution that, should it be acted upon favorably by the people, the courts will hold that such an amendment is a contract with those establishing industries, or producing profits that would be reached by an income or inheritance tax, and that such a contract could not be broken even by the people themselves.

The resolution providing that the people shall issue a mandate putting the state government into 10 departments may prove the resolution of the consolidation agitation that has rocked the old ship of state during several sessions, in which case it will be one of the most forward pieces of legislation of the session. There seems little likelihood of anything but a favorable vote upon this.

Other outstanding legislation included the bill providing for the collection of the unpaid portion of the 1923 income tax, necessary increases in salaries of state and county officers, amendments to the workmen's compensation law, amendments to the direct primary law, establishment of a policy of increased normal facilities, forestry legislation, the starting of a program of reforestation and relief for the farmers who lost their seed wheat.

The recognition of the cosmopolitan by giving them a board and establishing regulations for the conduct of their business was

the high light in legislation for the boohaired contingency of the session.

Logger Given Longer Time to Build Railroad

Word from the Chief Forester, W. G. Greeley, of his approval of the terms recommended by the District Forester under which extension of time would be granted to Fred Herrick for the beginning of logging operations under his timber sale contract on the Mahour National Forest, has been received by District Forester C. M. Granger.

The contract specified that cutting would begin on private or National Forest timber by April 1, 1925, and that in any event cutting on National Forest timber would begin by October 1, 1925. Mr. Herrick applied for an extension on these dates because of difficulties encountered in the construction of the railroad from Crane to Burns and from Burns to Seneca. The forest Service will grant an extension of one year in the time for the beginning of cutting on National Forest timber until October 1, 1926, according to Mr. Granger.

Specific requirements as to amount of expenditures and completion of construction work on certain specified dates—July first, October first, and December thirty-first, 1925 and April first 1926, will be stipulated, and continuation of the contract will depend upon compliance with these terms, the District Forester said.

EIGHTEEN FEET IS HEIGHT FOR NEW STREET LIGHTS

The first of the new street lights for the city were installed the last of the week and work is now under way to install the complete new lighting equipment for the streets. The street committee of the council decided on 18 feet as the proper height for the new lights after various tests as to lighting effect received at different heights carried on with the Mountain States power company local representatives.

MAN WANTED IN TOLEDO TAKEN HERE BY PITCHER

While Deputy Sheriff was maneuvering to get a bunch of gypsies out of town Friday evening in the hope of preventing possible disorder he accidentally came in contact with Elvin Jones, wanted in Toledo on a charge of beating a board bill, arrested him, and started him back toward the coast city. A description of Jones was received by Pitcher in a letter from Toledo Friday morning and this description enabled him to recognize the man. Jones was not connected with the gypsy crowd but came in contact with Pitcher through them.

Word was received from Toledo today that Jones had cleared himself of the charge. He gave the order to another man telling him to present it to the person to whom he owed the board bill. The man, however, cashed the order himself, and took the money. This was the way Jones explained the charge when arrested here.

LOGGER STRUCK BY LINE IS UNCONSCIOUS HALF-HOUR

London, Feb. 28.—(Special.)—Alex Berggren had a narrow escape from serious injury or perhaps death while working on the rigging at Woodard's logging camp Wednesday when a clevis in the rigging broke letting the line fall, which struck him a glancing blow on the head rendering him unconscious for several minutes. Had the line struck him two inches lower it would nearly have taken his head off. He was taken to Cottage Grove by B. A. Pruett to have the wound dressed by a physician. It required several stitches to close the gash.

W. O. W. PLANS INITIATION ON NEXT SATURDAY NIGHT

Saturday evening, March 7, the officers and team of Eugene camp will initiate a class of over 20 candidates in the W. O. W. hall here. The membership gained during the recent drive brings the number enrolled in the local camp up to 250. District manager, E. O. Royal, of Portland, has been conducting campaigns in Lane county during the past 60 days. There will be numbers from Eugene, Springfield, Creswell, and Walthersville camps at the initiation here. Supper will be served following the exercises.

CHURCH TO HOLD MEETING IN EUGENE NEXT THURSDAY

A. J. Adams, pastor of the Christian church here, will appear on the program at the county convocation of the Christian churches to be held in Eugene, March 5. This gathering is for all members of the church in Lane county and is one of the county rallies being held all over the state. A basket

dinner will be held at noon. Among the speakers for the occasion are, C. F. Swander, state secretary; R. L. Dunn, E. V. Stivers, W. L. Meyers, O. A. Cooper, Ross Guiley and H. E. Knott.

NEW COMPANY TAKES OVER BRICK YARD NEAR EUGENE

The organization of a company which will take over the Cook brick yard near Eugene is now under way by J. L. Hoffman and Robert Frazier, Richmond, Calif., and W. J. White and J. R. Griffith, Cottage Grove. These men announced Thursday that they had complete arrangements for taking up an option on this yard for the purpose of manufacturing brick and tile.

SIDELIGHTS

The Lane county lumber industry is important enough to attract the attention of lumbermen and lumber buyers in New England. A group of them stopped to inspect this industry Saturday and went away with a realization of its extent they could have obtained in no other way.

This group stopped only at the larger lumber centers. Their coming to Eugene is taken as an indication that the east is beginning to realize the extent of the Lane county timber area.

One of the outstanding topics before lumbermen at the present time is that of standardization. It is desirable that all lumber of the same kind which is to be used for the same purpose should be cut to fulfill standard requirements.

In adopting a standardization program the lumber industry is merely carrying out a movement that is common to all branches of industry. Machinery, clothes, automobiles, and even food have all been standardized to a greater or less extent.

In some industries standardization is more of a blessing than in others. The lumber industry happens to be one of those in which it is regarded as a particularly desirable and a thing to be sought after.

In the newspaper field standardization is regarded as one of the great evils which the mechanical revolution has brought about. One of the most common complaints heard is that one newspaper is exactly like all the other newspapers. This is not true of vertical grain flooring.

Historic Gray's Inn Linked With America

Gray's inn, in London, has long been the mecca of the Baconian. Those people who believe that Francis Bacon wrote Shakespeare's play visit the inn to see the hall in which Bacon for many years presided as treasurer, and the gardens which he planned, says the Detroit News. There are links between the inn and the United States. There was a Lawrence Washington, admitted a student in 1007, whose brother Robert was a direct ancestor of George Washington. There is an entry in the admission register of the inn recording the membership of Thomas Yale. This was an ancestor of Elihu Yale, whose piety helped to found the great American university. Andrew Hamilton was a member of the inn. His admission is recorded in 1714: "Andrew Hamilton, of Maryland, America, gent." Hamilton designed the statehouse of Philadelphia, a building which was the birthplace of the American republic.

NOTICE OF SHERIFF'S SALE ON EXECUTION.

Notice is hereby given that by virtue of an execution and order of sale issued out of the Circuit Court of the State of Oregon for the County of Lane on the 23rd day of January, 1925, in an action wherein on the 13th day of February, 1923, in the above entitled court, George W. McQueen, plaintiff recovered judgment against the Defendant, Oregon and Ohio Mines Corp., a corporation, for the sum of \$4,000.00, with interest thereon at the rate of 6 per cent per annum from the 11th day of April, 1922, and the further sum of \$660.19 with interest thereon at the rate of 6 per cent per annum from January 1, 1923, and the further sum of \$15.60 costs and disbursements, which judgment was entered and docketed in the office of the Clerk of said court in said county on the 14th day of February, 1923, and said execution and order of sale to me directed commanding me in the name of the State of Oregon, in order to satisfy said judgment, interest, costs and disbursements, and upon this writ to sell the following described real property, to-wit:

One quartz mill, including including the same and all tools, machinery, implements and appliances connected therewith or appertaining thereto, together with the land upon which the same is situated, and particularly described as follows:

Being situated about three quarters of a mile Northeast of the Annie Mining Claim, in the Bohemia Mining District, in Lane County, state of Oregon, and commencing at a location notice at a stake about 3-4 of a mile northeast of the said Annie Mining Claim, and running in a Northerly direction 230 and 3-8 feet, thence Easterly 478 and 3-8 feet, thence Southerly 478 and 3-8 feet, thence Westerly 478 and 3-8 feet, thence Northeasterly 239 and 3-8 feet to the place of beginning, containing five acres more or less and known as the Noonday Mill Site; also the Tramway leading from said Quartz Mill to said Annie Mine, now situated upon land of the Noonday Mining Co., all in the Bohemia Mining District.
