

MOTHERS Important!

Mothers should see that the whole family takes a thorough, purifying system cleansing laxative this spring. NOW IS THE TIME. The family will be healthier, happier, and get along better if the blood is given a thorough purifying, the stomach and bowels cleaned out, and the germs of winter accumulated in the system, driven away. HOLLISTER'S ROCK MOUNTAIN TEA is one of the very best and surest spring medicines to take. Try it and see the difference in the whole family. Their color will be better, they'll eat better, sleep better, and be well and happy—**Kem's for Drugs.** (mT)

25% to 50% INTEREST On Your Money

You would look askance at almost any investment that offered you 25% to 50% on your money, but you can earn that amount on your money by purchasing your printing in quantities. All the work except the actual printing has to be done to produce one sheet of the completed job. The type has to be set, the proof has to be corrected, the press has to be made ready for printing before a sheet can be printed. After this work is done, the only expense is for the paper stock and for the operation of the printing press. By ordering in quantities you save paying more than once for the preparatory operations.

Instead of buying 500 statements at \$4.60, buy 1000 at \$6.55, and possibly add the second 1000 at \$4. If you buy 2000 statements in lots of 500 at four times during a year the price would be \$18.40. If you buy 2000 at one time the price is \$10.55.

Quality reductions in the prices of other printing are in the same proportion. There are no ands, ifs or buts about making 25% to 50% on your money this way.

It is a good investment to buy a year's supply of stationery when you are ordering

The Sentinel
Correct Quality Printing

You get your dividend when you pay for the printing.
