

Ask Questions Before— Not Afterwards

Millions of dollars are wasted on fake securities yearly, because the average person has a tendency to invest first and ask questions afterwards. That's a thousand times worse than boarding a train and then enquiring where you are bound for, because it costs you a lot more. When somebody offers to "let you in on the ground floor of a million dollar proposition," ask your questions first. This bank will know, or will find the answers.

DON'T BE A MISER

DON'T starve yourself and your family and boast of your bank account.

DON'T wear second hand threadbare clothes and hoard your earnings in an old tea urn.

DON'T sit with chattering teeth at a cold stove in zero weather and invest your earnings in a "get rich quick" proposition.

Be a Man and Not a Mouse

Be particular that yourself and your family are well fed, decently clothed and comfortably housed. Then, if any balance remains from your income or salary, deposit it in a strong, safe, well tried, reliable bank.

Harken not to the siren call from a weak bank claiming to be just as good, though not so large, nor strong, nor experienced as
