

TENNESSEE COTTAGE GROVE IS ALSO MOVABLE

Town in Alabama With Our Name Organized by Ambitious Instructor of Young.

It seems to be a peculiarity of the name Cottage Grove that it is given to postoffices that are later moved to locations where there is nothing to suggest how the name was given. In Monday's issue The Sentinel published a story which told of this happening to two Cottage Groves beside our own. None was moved such a distance, however, as was the Oregon Cottage Grove postoffice. The following information has been received concerning the naming of Cottage Grove, Tennessee:

Some time before the Civil war, when that section of the country was being settled, the Masons of the section converted into a Masonic hall a tobacco barn situated about a mile from the present town of Cottage Grove. Near the barn was a pretty cottage in a beautiful grove, for which reason the hall was named, "Cottage Grove."

In the course of time a tan yard and distillery were established near a spring a mile from the Masonic hall and around them grew a little village. The Masonic hall was later moved to the town and the town took the name of the hall. For years there was nothing to indicate how the name originated, but now the residents are planting trees and are attempting to make the village suggest its name.

ADVANCED POSTAL RATES ARE IN EFFECT

The new postal rates upon printed circulars, upon newspapers and upon postal cards furnished by others than the postoffice department went into effect yesterday, and it is anticipated that there will be considerable confusion until they have been in effect for some time.

The new rate on circulars is 1 1/2 cents for each two ounces, an advance from one cent; the new rate on newspapers is 2 cents for each two ounces, or half the rate for letters. The old rate was four ounces for one cent. Under these rates it is cheaper to mail circulars than newspapers. Postal cards not furnished by the postoffice department will require a two-cent stamp, instead of a one-cent stamp as heretofore. This rate is likely to do away almost entirely with the printing of private postal cards.

Every publisher who has visited The Sentinel since The Sentinel gave its "open house" has asked, "How did you do it?" Evidently this is the first time that a newspaper in Oregon has held an open house and the boys want to know how it is done and why it was done.

Mother Plunges Into Water to Save Her Son

By jumping into the swift waters of the Coast fork at London Sunday Mrs. A. N. Ward, of this city, saved her three-year-old son Frankie from drowning. The family was on an outing and the little fellow had been picking flowers along the bank of the stream in company with his sister Mildred, who is 6 years of age. He reached too far down the bank for a flower and toppled into the water. The sister's screams brought the mother and, although the father and other men were also hurrying to the spot, she feared that the lad might be drawn into swift water before they could reach him and she plunged in. The water was up to her armpits and she had on her overcoat but reached the bank without assistance. Neither suffered from their experience.

SUPPORT NOT YET GIVEN TO REST ROOM

A petition generally signed by business men of the city was presented to the city council Monday night asking that support again be extended to the Sunshine rest room, now located in the McAbey residence on south Sixth street.

Between the time of the circulating of the petition and its presentation to the council, the J. C. Penney store had offered a portion of its space to be used for the rest room, a matron to be furnished by the Community club, the sponsors of the rest room.

Discussion indicated that members of the council do not favor placing in any business place a rest room supported in part by city tax money. Several business men had informed members of the council that they wished their names withdrawn from the petition if such signatures were to be taken as asking for the placing of the rest room in a business place.

Action on the petition was postponed for a week.

Lumber Truck Is Wrecked.

London, April 13.—(Special.)—One of the trucks being used in hauling ties from the Jones mill at Black Butte was wrecked Thursday when the driver lost control of it while descending the Banton hill. He shifted gears, or attempted to do so, but the gears either slipped or he failed to make the shift, and the brakes were not sufficient to hold the load. The driver shoved the nose of the machine into the embankment, which the truck climbed before turning onto its side. The windshield and top of the cab were demolished. The driver was not injured.

Motorcycle Club Committees.

Committees for putting over the annual motorcycle club which the Lions club is backing have been appointed by N. J. Nelson and A. W. Helliwell, the committee on committees, as follows: Refreshments—L. W. Peters, R. L. Stewart, Fred Anderson, Schofield Stewart.

Harp Concert Appreciated.

The harp concert given Tuesday night by Salvador De Nufiro was pronounced by music lovers as the best of the kind ever given here. The artist lived up to his reputation as a master of the instrument. The concert was sponsored by the Utopia club, the net receipts of \$23.20 being for the benefit of the proposed city playgrounds.

OUTSIDERS ASKING TO COME INTO CITY LIMITS

City Council Takes Position That It Can Not Initiate Action to Extend Bounds.

Residents living outside the city limits to the south have signified their intention of circulating a petition asking that a special election be called to give them an opportunity to vote themselves into the city. It is likely that others living outside the city limits to the east, west and north will circulate similar petitions. A number in these sections have signified their willingness to come into the city but none have yet gone so far as to start a petition.

The city council is of the opinion that it can take no action further than to act upon such petitions when received. The petitions must be circulated by those wishing to come into the city.

COUNTY FARMERS UNION MEETS HERE FRIDAY

The Lane county unit of the Farmers Educational and Cooperative Union of America will hold its quarterly meeting here Friday in W. O. W. hall.

Herbert Egbert, of The Dalles, state president of the organization, is in the valley and he and Mrs. Egbert expect to be present. Mrs. G. B. Jones, of Monmouth, state secretary, is also expected and altogether a live and interesting business session is anticipated.

Mrs. Matthew Guering Dies.

Mrs. Elenor Ann Guering, wife of Matthew Guering, died Tuesday in a Eugene hospital, where she had been taken the evening before for treatment for diabetes. The funeral was held this afternoon, Elder J. R. Patterson officiating. Interment was in the A. F. & A. M. I. O. O. F. cemetery.

Maddox Is In Jail Again.

William Maddox, who made a sensational escape from the county jail a year ago and was recently apprehended in California, has arrived at the county jail to complete his sentence. It was said that Maddox, who had been in an eastern state, was captured when he returned to California to visit his wife, who had remained there. It was also said that she nearly succeeded in freeing him from jail there by assisting in sawing the bars on a window of the jail in which he was awaiting the arrival of a Lane county deputy sheriff.

Theater Gets More Space.

W. H. Morelock, of the Arcade, has taken back the portion of the Hill block which he had leased to Frank Dearing for a barber shop. Mr. Morelock will not immediately make use of the space but it will be necessary for him to have it for a stairway should be in the future build a balcony in the theater. Mr. Dearing has gone to the coast, where it is understood that he will conduct a hotel and barber shop.

Graber Smashes String of Mail Boxes

London, April 13.—(Special.)—A string of eight mail boxes near the store was wrecked Monday when a casting broke in the steering gear of the county road grader, which was working there, and the grader plunged into Uncle Sam's mail receptacles, which were scattered over the landscape. The grader came to a stop after running into a fence and wrecking it. The mail boxes have been placed on the porch of the store until the road work is completed and the pugacious road grader is taken away.

LORANE LOOP ROAD TO BE COMPLETED SOON

Work at Lorane upon the remaining four miles of the Eugene-Lorane highway will start in the near future and with its completion there will be a good highway for the entire loop trip from Cottage Grove to Eugene, one of the prettiest in this section of the county.

There has been some contention as to whether there should be a change in the route of the highway at Lorane which would throw it away from the stores and postoffice and put it on a better grade. Viewers have gone over the two routes for the purpose of making a recommendation to the county court and their report is expected within a few days.

Freak Rain Tuesday Night.

This section witnessed a lightning storm and miniature cloudburst early Tuesday evening, both freaks seldom seen here. Communities a short distance from the city, such as Sijk creek and Mosby creek, did not know that there had been a downpour, while a few miles to the south there was a heavy hail storm. The storm abated after half an hour. The precipitation for the night was 1.2 inches.

CROSS-WORD PUZZLE No. 32

- Horizontal.
- 1—Bellittles
 - 7—Beast of burden
 - 9—Aquatic mammals
 - 12—A kind of window
 - 13—A Jewish month
 - 14—A broad smile
 - 15—At all
 - 17—To move back
 - 18—Whirl
 - 21—Along
 - 22—Negative
 - 23—To move to and fro
 - 24—Maudate
 - 25—Mountain (abbr.)
 - 27—Close to
 - 28—Two-seated carriage with double top
 - 32—Puppies
 - 36—Master
 - 37—A sensualist
 - 38—African antelope
 - 40—Mohammedan sacred writings
 - 42—More recent
 - 43—Fee
 - 44—Disclosed
- Vertical.
- 1—Commonly used solution for preserving
 - 2—Before
 - 3—Fluid state
 - 4—Designate
 - 5—Horn
 - 6—Cavalry sword
 - 7—Tiresome person
 - 8—Acid compound
 - 10—Melted rock
 - 11—Direction used in proofreading
 - 14—Cartilage
 - 16—To invert
 - 18—A dietum
 - 20—Adolescence
 - 26—Treeless plains of arctic North America
 - 27—To arouse
 - 29—Expression of hearty assent
 - 30—River in Africa
 - 31—Attract
 - 33—Made a mistake
 - 34—Rich soil
 - 35—Sticky
 - 39—Not subject to discount
 - 41—Single in kind

Solution will appear in next issue.

BIDDIES PRODUCE EGGS BY THOUSANDS OF CASES

Product of Feathered Flocks Brings Hundreds of Thousands of Dollars to City.

Few residents of the Cottage Grove country realize what an important factor Biddy has become in the social, moral and financial life of the community. By her industry and lack of concern for her fine feathers she sets—no pun—a splendid example for the painted one with her rolled socks; by her early hours and by always being at home at night she sets a moral example and the number of eggs she lays makes her an important financial factor.

Biddy's annual product is 14,000 cases of eggs. Reduced to single eggs this is 5,040,000. At an average price of 25 cents the dozen, Biddy's annual egg income is \$105,000.

DRUNKEN DRIVERS GOING TO ROCK PILE

Those who get caught driving automobiles while under the influence of liquor are being dealt stiff sentences under a law enacted by the recent legislature. The first such sentence to be imposed in Lane county was passed upon William Briggs, who was taken several days ago by the sheriff's office. He was fined \$100 and in addition sent to jail for 60 days.

In Portland the penalties inflicted for the same offense are being made even stiffer and violators are being given long terms making small rocks out of big ones.

Women May Ban Hats At All Church Services

The women of the Christian church, who attracted attention over the state by going without their hats at church services on Easter day, may continue the innovation indefinitely. They were highly complimented by the men of the church because of the better appearance they made with more than a point of the chin showing from beneath an elaborate piece of millinery and they may decide to please the men by displaying their faces at all services. They do not believe that the men are merely talking to save millinery bills.

PEACE OFFICERS UNDER COMPENSATION ACT

Salem, Ore., April 13.—(Special.)—Important among the laws enacted at the last session of the legislature having to do with the administration of the workmen's compensation act was one introduced by Representative Fuller of Polk county which provides that the benefits of this law shall be extended to all salaried peace officers of the state, county and municipal corporations. This amendment becomes effective on May 28.

Cities and towns desiring to reject the act should notify the industrial accident commission by May 28, otherwise they will not have an opportunity to file their objection until a year from this date. A similar ruling applies to county courts with relation to sheriffs and their deputies.

This amendment includes a special provision that municipal corporations that have provided by ordinance or charter compensation for peace officers injured in the course of their employment, such officers shall not be entitled to the benefits of the act. This provision apparently was intended to exclude police officers in the city of Portland.

Senate bill No. 114, introduced by Senator Maglady, included a number of amendments to the present workmen's compensation act intended to clearly define the status of workmen.

Grade Teachers Selected.

The school board has selected the entire faculty of grade teachers for the coming year. All had the recommendation of Superintendent Hayes.

Teachers reelected are Mrs. Ilma Thum, principal west side, Miss Nellie Coombs, Miss Agnes Nelson, Miss Mae Robinson, Miss Mariette Hamant, Miss Nora Queen, Miss Bernice Fitzwater, Miss Gladys Buek, Mrs. Aida Smith, Miss Mary Shearin and Mrs. A. E. Burrows. New teachers elected are Otto Peterson, Miss Ruth H. Davis, Miss Glenda Ross and Miss E. Ruth Davis.

More Paving Is Asked.

A petition has been presented to the city council asking that the paving of east Adams avenue, from east Tenth street to east Twelfth street, be added to the street building program. In case the petition is granted it is probable that the paving will be extended east to Thirteenth street.

Revival Meet to Close.

Good attendance is reported at the revival meetings in progress at the Baptist church. The meetings will close Sunday evening, when the subject of the pastor will be, "Is It Fair to Send a Kind Father, a Good Citizen, to Hell Because He Doesn't Believe in Jesus Christ?"

Arch Proctor has been confined to the house this week with what may be either the mumps or neuralgia. For several days he didn't care much which it was.

RALPH HAND TAKES GAMY PILLING INTO CAMP

Pendleton Cowboy Is Fast Man and Clean Sport and Fans Like His Style.

Ralph Hand, local light heavy, won his match Tuesday night with Frank Pilling, Pendleton cowboy. The go was one of the cleanest and fastest mat exhibitions that has been seen here and Pilling was nearly as much of a favorite as the local man. Both men were many times in what seemed holds that could not be broken, but the nine-lived feline has nothing on either of them.

Pilling won the first fall in 21 minutes with a wristlock on Hand's toe, usually referred to as the stopper hold. He won by forcing Hand's shoulders to the mat after standing Hand on his neck. Hand won the second fall in 11 1/2 minutes with a wristlock and did not get his famous toehold pinned on tight until the final fall, which came after 30 minutes of mat work that has never been surpassed here. Pilling had hung three headlocks onto Hand, who seemed to be groggy and ready to take the count, when the local man worked himself free, nearly pinned his man to the mat with a double hold and then grabbed a double toehold, probably better known as the Yoke crab hold. This is the first time this hold has been demonstrated here.

Both men absorbed quantities of punishment while struggling in bone crushers and muscle grinders and only for the last fall did either slap the mat. A method of escape from the crab hold has not yet been found, however, and Pilling was slightly injured before he could let Referee McGee know he was licked.

Harry Neet and Charles White wrestled a 15-minute go, which went to Neet, who secured one fall with a double Nelson. White sustained slight injuries to his neck.

BOYS PAY BIG PRICE FOR CHEAP BREAKFAST

Two youths, who had taken to the road in search of spring adventure, grew hungry while passing through Junction City Friday and ate a hearty breakfast at a restaurant, "beating it" without the formality of squaring the account with the cashier. They were caught and taken before the justice there, who assessed them \$10 each. The lads being without any portion of this sum were taken to the Lane county jail. The youths next appeared before the "kangaroo" court, that inner judicial body composed of the jail inmates, and were fined \$2 each for "breaking into jail." They are now working out this fine at the rate of 10 cents a day bathing the dishes. Their county fine will be worked out in five days but the "kangaroo" verdict will require 15 additional days.

Baseball Schedule.

The season's baseball schedule for Cottage Grove high is as follows: April 18—Eugene high—here. April 24—University high—here. May 1—Springfield high—here. May 8—University high—there. May 15—Springfield high—there. May 22—Open. May 30—Eugene high—there.

Trout Measures 18 1/2 Inches.

The finest trout exhibited since the opening of the season was caught by P. A. Cooley. It measured 18 1/2 inches and looked like a young whale alongside some of the smaller fish in the creek. Cooley caught 15 altogether as a starter for the season, nearly all of them of good size.
