

MOTHER'S DAY

"The noblest thoughts my soul can claim, the holiest words my tongue can frame, unworthy are to praise the name more precious than all other; an infant when her love first came, a man I find it just the same, reverently I breathe the name, the blessed name of mother."

—GEORGE GRAYSON FETTER

In extending our greetings to mothers, we can only add that here they will always find a welcome and a desire to serve and protect in every way we can.

Guaranty Oil Well News.

By far the most successful and most encouraging stockholders' meeting yet held was held in Eugene Wednesday evening. State Corporation Commissioner Crews was present and made his report for the information of stockholders, which added much to the occasion. The careful work, scientific management and conscientious handling of the people's money were each mentioned with much favorable comment by the commissioner, who has had considerable experience in connection with such enterprises and freely gave it as his opinion that oil in vast quantities would most likely be found in the Eugene well. Telegrams from oil chemists of high standing, to whom samples of the oil and gas taken from the well had been submitted for analysis, bearing him out in his assertions.

It was voted by the stockholders to sell a limited amount of additional stock at par to present holders, and at a raise of 50% to those not now owning stock. Those intending to buy stock should not delay, as available shares will be quickly gathered up. Phone me at 121-B, over McQueen's grocery store. TOM AWBREY.
