

No Increase in the Price of Firestone FULL-SIZE GUM-DIPPED BALLOONS

The extra quality built in by the extra process of Gum-Dipping, the economy of these wonderful tires and the added mileage obtained from them during the past two years, has created such a large demand that over 75% of Firestone's mammoth production is now Balloon Gum-Dipped Cords.

This has greatly increased the total sales volume and the huge Firestone factories are now working on a 24-hour schedule to supply the demand.

This large volume, produced under the most economical tire manufacturing methods, permits Firestone to sell these extra-process Full-Size Balloons at no extra cost to car owners. And this in the face of greatly advanced cost for crude rubber brought about by the operation of the British Rubber Restriction Act.

Gum-Dipping means longer mileage—greater economy—at no extra cost to you!

Enjoy the safety, economy and comfort of Balloon Gum-Dipped Cords this summer. Let us equip your car now at low cost—with liberal allowance for your old tires.

AMERICANS SHOULD PRODUCE THEIR OWN RUBBER

The Sentinel wants to print all the news. If you have a news item, ring 159-J.

"If it works, it's true!"

But it doesn't prove out in practice—this legend about salt as an aid to bird-catching.

Neither does this superstition that there is something mysteriously "better" about eastern lubricants—merely because they cost more. Every quart of Zerolene you buy proves the groundlessness of this superstition.

Pacific Coast Crude Is Best
Zerolene is a western oil—and a better oil even if it does cost less.

As a matter of fact, the best crude petroleum so far discovered for the manufacture of a motor lubricant is obtained from Pacific Coast wells, and the most advanced refining process is this Company's patented high-vacuum process during the use of which Zerolene is submitted to 15 positive checks for quality.

Experienced Drivers Prefer Zerolene
Experienced drivers know this—that Zerolene lubricates more cars in the Pacific Coast states than any other oil made—heavy-duty trucks and high-priced cars alike. Superstitions don't work out in practice—Zerolene will increase the gasoline mileage of your car, reduce carbon accumulation in the cylinders and lengthen your car's working life.

Why pay tribute to a superstition? Insist on Zerolene—ask for it by name.

Get the Facts!
A series of independent and impartial reports showing the experience of large users with Zerolene has been collected in our booklet, "Why Pay Tribute to a Superstition?" Ask any Standard Oil Company representative or Zerolene dealer for a copy.

Insist on ZEROLENE even if it does COST LESS

Theater News

Texas-1867 Scene of "North of 36" Paramount Film.

Two great marches mark the history of the making of the United States.

The first was the trip of the covered wagons across the plains and mountains from Missouri to Oregon in 1849.

The second, although of equal importance, is not so well known. It is the journey of the early Texas settlers, driving their cattle from the ranches in southern Texas to the railroad in the north.

It is this latter journey which forms the theme of "North of 36," an Irvin Willat production for Paramount, coming to the Arcade Theater Thursday and Friday, May 28 and 29. The story of "North of 36," adapted by James Hamilton, appears on the screen as a faithful picturization of the epic story by Emerson Hough, who also wrote "The Covered Wagon."

The story opens in Texas in 1867. Cattle without number roam the ranges, but their owners are practically penniless, for there is no market for their herds.

Everything looks pretty black when news comes through that up "north of 36" where a railroad has been built the cattle can be sold at an enormous profit by anyone braving the dangers of the trackless plains, the Indian menace, swollen streams and a hundred and one lurking perils.

Taisie Lockhart (Lois Wilson), orphan, young, beautiful and hereditary chieftainess of one of the largest and wealthiest (in cattle) ranges in the Lone Star state, decides to risk the venture and with her 4,500 longhorns, 16 cow hands, 115 saddle ponies, etc., she hits the trail.

Obstacle after obstacle is placed in their path. Over every hill a new and unforeseen menace awaits them. Day after day they travel in the scorching sun, across rivers and over prairies, through timber and hostile Indian country. "North of 36" is their cry.

How after months of hardships, they finally reach the railroad town and the ultimate results following their arrival will go down in screen history as a thing never to be forgotten.

In addition to the four featured players, Jack Holt, Lois Wilson, Ernest Torrence and Noah Berry, the cast includes such well-known players as David Dunbar, Stephen Carr, Guy Oliver, Wm. Carroll, Clarence Goldert, Ella Miller and George Irving.

SILK CREEK.

(Special to The Sentinel.)
May 14.—Mrs. Foss has bought Mr. Nice's place and she and her son plan to raise chickens.

Those from here who attended commencement exercises at the Sutherland academy Saturday night were Mr. and Mrs. Campbell and son Paul, Leonard Estes, Mr. and Mrs. D. A. Estes and family, Mrs. Winslow and three daughters, John Winslow, Eva and Ruth Fowler and Violet Righty.

A surprise party was given Tuesday evening for Miss Lela Conklin, who was here from Sutherland to visit her parents.

Alvis Garlinghouse came up from Drain Tuesday to see his mother, Mrs. Foss. He returned Sunday.

Irate Wife (discovering husband on front steps fiddling with door knob): "What are you doing there, Webster?"
Husband (continuing to turn the knob): "Shhh! I'm trying to get Pittsburg!"

Training for Service

KEEPING pace with America's telephone needs means keeping ahead. The work of preparation never ends.

There must be complex engineering studies, careful financing plans, and thousands of manufacturing operations before new facilities can be built and made ready for public use.

And when they are ready, the workers must also be ready, skilled in the multitude of tasks incident to the operation and maintenance of telephone plant and equipment.

In every important center in the country, new members of the telephone forces are in continuous training, preparing to meet tomorrow's telephone needs.

For your telephone system is a living, growing organism. Last year 836,163 telephones were added to its national service. Millions of miles of wire interlace the continent, to interconnect your telephone with nearly 16,000,000 others. Tomorrow there will be more telephones, for the nation demands and expects them.
