Look Out for Self Poisoning

Neglect of the liver results in self-poisoning! Not so quickly, perhaps, but just as surely as if you drank poison out of a bottle. If your liver is not doing its work of helping digestion, eliminating waste from the bowels and purifying the blood, you will always be troubled with sick headaches, nausea, biliousness, bad breath, gas, sour stomach, or constipation.

Cleanse and tone your liver! Put your system in condition so you feel your very best again! Try just a spoonful of Dr. H. S. Thacher's excellent Liver and Blood Syrup after the next few meals and notice the quick improvement in the way you eat, sleep, look and feel—the return of strength, vigor and energy. You will be completely satisfied; otherwise there will be no cost. Dr. Thacher's Liver and Blood Syrup is sold and recommended by Kram's for Drugs and all other leading druggists.

Un-superstitious pedestrians often do this

—Proving that a post can divide two people without splitting their friendship. In the same way experienced motorists have proved to their complete satisfaction that Zerolene, a western oil, will lubricate the modern automobile engine as well or a little better than any oil they can buy, although it costs less than eastern lubricants.

The anti-western oil superstition succumbs to experience

Zerolene is successfully lubricating more cars in the Pacific Coast states than any other oil made—low and high priced cars alike. The most advanced refining process is this Company's patented high-vacuum process, during the use of which Zerolene is submitted to 15 positive checks for quality. Zerolene's special filtration through 40 tons of Florida Fuller's Earth gives you an oil of absolute purity—a better oil even if it does cost less!

Less carbon—better fuel mileage

Zerolene will increase the power and gasoline mileage of your car, reduce carbon accumulation in the cylinders and lengthen the working life of the engine.

Why pay tribute to a superstition? Insist on Zerolene—ask for it by name.

Get the Facts!

A series of independent and impartial reports showing the experience of large users with Zerolene has been collected in our booklet, "Why Pay Tribute to a Superstition?" Ask any Standard Oil Company representative or Zerolene dealer for a copy.
