**Only Diamond Exceeds the Sapphire in Value**

There is no such stone as a sapphire. There is a distinct stone, a sapphire, a pure gem being excelled in value by no precious stone except the diamond. The sapphire is regarded as a variety of corundum, highly transparent and brilliant. It is sometimes colorless, or nearly so. It more frequently, however, exhibits color, generally a beautiful blue—the latter being that commonly called sapphire. Purplish or greenish color indicates a flaw, and usual defects are clouds, milk spots, flakes or stripes. A sapphire largely used among jewelers is called a "reconstructed sapphire," artificially made of hard glass (crystal) in France and Germany, and is of no value except for the work entailed in cutting and mounting the jewelry. The true sapphire is found crystallized usually in six-sided prisms, terminated by six-sided pyramids. It is sometimes found imbedded in gneiss, but most frequently occurs in alluvial soils. It occurs in Bohemia and Saxony, but the finest are found in Ceylon, Kashmir and Burma also produce fine specimens, and sapphires are found in Australia and parts of the United States. The value depends on quality more than on size and does not decrease with the size of the gem.

**NOW YOU MAY TRY THIS VEGETABLE SYRUP FREE**

This Is Your Chance to Prove That Toning Up Your Liver Will End That Tired, Run-Down Feeling. Build Yourself Up! Win Back Sound Digestion, Strength and Energy—Feel Your Cery Best Again!

In his private practice Dr. H. S. Thacher demonstrated that such symptoms as Indigestion, Gas on a Sour Stomach, Belching, Dizziness, Colds that Hang On, Sick Headaches, Constipation, that Tired Feeling and a general Run-Down condition of the System are often the result of a Sluggish Liver—and that relief in such cases comes quickly when the Liver is properly Cleaned and Toned and the System is working normally again.

**Why This Gives Relief**

When working as Nature intended your Liver does three things necessary to keep you feeling your best. First, it purifies your BLOOD, every drop of which passes through the Liver every fifteen minutes. Second, your Liver furnishes the essences that are essential to perfect DIGESTION. Third, your Liver supplies the secretions Nature uses to lubricate your intestines so that your Bowels can move naturally, gently and regularly every day. When your Liver becomes sluggish it cannot do these three things; consequently, you suffer from one or more of the symptoms above described.

**Oriental Carpet Makers Chant While They Work**

The Oriental cannot work in concert unless he chants in concert, too. And he has a wonderful ear for his own uproar. Here, for instance, on the floor were two men bending over the same pattern-carpet. One was dictating to a gang on one side, the other on the other; they were at different places, and as each bowed out a direction to his men the others were reveling in their "So let it be done." Yet there was not a mistake in either, though the carpets were only just beginning; each gang must have caught every word. At the big 57-foot carpet, of course, the directions are hardly needed; it has been making for many months, until the leader reels off the colors and numbers by heart, and the dozen workers, each opposite his strip of pattern, put in the stitches like automata.

All the convict carpet workers are picked men; it is not every manufacturer that has the brain to take in the directions, the eye to distinguish the colors, or the hand to put them in. Such as have prize the work, for it is the only task in the central jail that they are allowed to make a noise.—Bagdad Exchange.

**Gentlemen**

Perhaps these are rarer persons than some of us think for. Which of us can point out many such in this circle—men whose aims are generous, whose truth is constant, and not only constant in its kind but elevated in its degree; whose want of meanness makes them simple; who can look the world honestly in the face with an equal manly sympathy for the great and the small? We all know a hundred whose coats are very well made, and a score who have excellent manners, and one or two happy beings who are in what they call the inner circles, and have shot into the very center and bull's-eye of the fashion; but of gentlemen how many? Let us take a little scrap of paper and each make out his list.—Thackeray.

**Bird's-Eye Maple**

Bird's-eye maple is a popular name for hard, rock or sugar maple. It is called bird's-eye maple because frequently the grain of the wood exhibits a spotted appearance, supposedly resembling birds' eyes. Such wood is widely used for veneer and finishing purposes. Sometimes, instead of being spotted, the grain of the wood appears wavy. Both of these varieties of wood, found in the rock maple are accidental forms in the arrangement of the wood fiber. Birds have nothing to do with it.—Pathfinder Magazine.

**Ingratitude!**

On an Irish golf course there was a shortage of caddies. A farm laborer who had never seen golf played was therefore pressed into service.

After two rounds the player for whom he had caddied presented him with a payment far beyond a laborer's daily wage.

The improved caddie was naturally anxious for a further engagement. So, as he handed over the clubs, he asked politely, "Might your honor be diggin' here again about the same time tomorrow?"

**The Reverse English**

Lotta—Charlotte Crabtree—who died worth \$4,000,000—was asked one day by a Boston reporter why she had never married.

The actress' eyes twinkled as she answered:

"I've always kept in mind, young man, the old Greek philosopher's dictum—of course I put the reverse English on it—'He who takes a wife takes care, but he who takes care doesn't take a wife.'"

**Novel Cure**

A man leaning over the parapet of a bridge looked so glum that a kindly pedestrian stopped to make sure the gloomy one was not contemplating suicide.

"No, it's this way," exclaimed the latter. "I like to come here once in a while to rest my face. I get tired of smiling all day at the store and I don't think I ought to be grouchy at home."
