The kids of the city are showing in numbers their appreciation of the playgrounds recently established under the auspices of the Keepers of the Den.

Mrs. H. H. Russell Injured. Mrs. H. H. Russell sustained painful injuries Friday, when she fell down the steps at her home. Her 18-month-old baby started toward the highway and as she started to overtake the baby Mrs. Russell stubbed her toe and fell down the steps.

Meat Market Opens. Gates & Gates will open a cash meat market tomorrow in a part of the Farmers' Union store. The members of the new firm come here from Eugene and have been in the meat market business for a number of years.

Three thousand people read The Sentinel each week. What have you to tell this vast throng? xxx

When M. H. Anderson Isn't Martin

For years Cottage Grove had but one Martin Anderson, and when we had but one Martin we had little trouble keeping him sorted out, but for two years the city has had two Martin Andersons and many mixups have resulted from the similarity of names.

The fact that both Andersons have the same given name isn't all there is to it. Their initials are the same. They are "M. H.," and this has made more difficult the effort to keep the two segregated. Many times one has gotten mail belonging to the other, and when one of them does something it is a 50 to 1 chance that the other will get half the credit.

Many have been asking Martin H. Anderson during the past week how it happened that he wasn't injured in a recent motor accident. It wasn't Martin H. Anderson, however, who was in the accident. It was Martin H. Anderson. For a more particular distinction, the Martin H. Anderson concerned is the one who is employed at Woodson's garage.

Armand Wynne is nursing a lame knee as the result of being kicked by his cow. The bovine seriously objects to being approached from the left side for any purpose and when Mr. Wynne got on her off side while applying fly spray the cow let drive with a rear limb and struck Wynne on the side of the knee. Had the blow been on the face of the knee the injury probably would have been much more serious.

The fire department was called last evening to a fire reported from the rear of either the B. K. Lawson building or bakery building. Upon their arrival they could find no flames and played the fire truck's searchlight upon the buildings in an effort to locate flames or smoke but were unsuccessful.

Water Inspector Employed. S. W. Boyd has been employed as city water inspector for the summer months. His duties will be to see that all water regulations are strictly complied with, particularly those dealing with irrigation, and to report to the city council all violations of such rules and regulations.

Penney Store Holds Picnic. Employees of the Cottage Grove Penney store and their friends were guests Tuesday evening of the Eugene store at a picnic held at the Riverside park near Goshen.

If your business isn't better this year, the reason probably is that you haven't done a sufficient amount of judicious advertising in The Sentinel. xxx

Council Proceedings.

As a measure of economy the city council Monday night ordered the loan to the general sewer fund of a surplus in the trunk sewer fund which remained after the completion of the new trunk line sewers, the cost of the main sewers being approximately \$3,000 under the amount estimated when the bond issue was authorized.

The loan of the money to one fund from the other will save a considerable amount of interest upon warrants while the assessments for lateral sewers are being collected.

The following bills were allowed: William Higgins, raising man-hole \$ 6.50 Teal, Winfree, McCullough & Johnson, examination of water bond issue 30.00 G. O. Knowles, expenses 6.50 W. L. Hubbell, repair work on sewers 78.40

Earthquake Doesn't Affect Well.

The earthquake in California did not in any way disturb Cottage Grove. Even at the oil well, where the hole is down over 2000 feet into the earth's interior, there was no indication of a disturbance of any kind. However, the drill was not operating at the time and has not been in use since Driller Thompson had to leave several weeks ago on account of his health.

Loganberries Are Short.

Loganberries, one of the delicacies of this favored section of the famous, fertile, fruitful Willamette, are a short crop this year and the stores are unable to get a sufficient quantity to supply the demand. Raspberries, however, an equally delicious fruit, are a good crop. Blackberries will not be over a 50 per cent crop.

MILLS DOWN FOR FOURTH

The mills of this section will close down tomorrow night for the usual Fourth of July shutdown which usually continues for from three or four to 10 days. It has been anticipated that this year the mills would remain down longer than usual but reports from over the valley indicate that such may not be the case.

The Bohemia Lumber company's plant will remain down a month while a section of logging railway is being built, but the other mills now operating expect to resume during next week.

COWBOY SHOW AT CALAPOOYA FOR THE FOURTH

Guy Ray Comes Again With Wild Horses and Cattle for Three Day Celebration.

Guy Ray, well known promoter of rodeos, has charge of the celebration to be put on at Calapooya springs July 3, 4 and 5. He has a dozen men at work constructing a new arena and chutes and caring for 30 head of wild horses and cattle which have arrived for the big show.

Ray claims that he has some of the best cowboys and bucking horses that have ever been used in a cowboy show in this section. A number of the men and horses have appeared in a number of the best roundups of the northwest and something good is promised for the holiday revelers. The cowboys are trying out their horses and cattle daily.

Ray put on a show at the springs in 1923 that pleased a large crowd and he promises something even better. Good-sized prizes have been posted for the races and bucking contests.

Highway Signs Are Lowered.

The guide signs on Pacific highway in this section have been repaired during the past week by a crew from the state highway department and those beyond repair have been replaced. All the signs have been lowered on the poles so as to be more easily seen by motor operators. It is believed that this lowering will do away with much of the difficulty operators have had finding their way through the city. Particularly at the right angle turns at Ninth and Main streets and at Main and Fifth streets, operators in large numbers have failed to observe the directing signs and many have gone long distances upon the wrong road before discovering their error.

Holiday Booze Captured.

The Oakridge Fourth of July may lose some of its pep through the fact that a cargo of booze destined for that live little city was confiscated several days ago by officials of the sheriff's office, who had been tipped off to the fact that the liquor was on the way from Portland.

Fred Smith, a construction engineer on the railway, had made a trip to Portland and was bringing 80 pint bottles of the volatile liquor back with him. He told the officers that he was doing so for the accommodation of some friends.

A fine of \$500 was imposed in the Eugene justice court. A second cargo of booze destined for Oakridge has been captured. It contained 100 gallons.

Dog Wins in Battle With Pork

Probably the first killing of a porcupine by a dog has been recorded here. Pat, an Airedale owned by Dale Wyatt, is the dog. Pat spends most of his time in the Bohemia district with Dale's father, M. F. Wyatt. On Tuesday morning the dog ran afoul of one of the quill drivers but when the porky drove several of the quills into the face and mouth of the dog the canine did not retire, as dogs usually do under similar circumstances. He became enraged and upon the second attack he grabbed Mr. Porky by the back, breaking the backbone, and hurled the animal 10 feet into the air. The fight was over, but the dog's mouth and body were full of quills. Mr. Wyatt could do nothing to relieve the dog's suffering and started at once upon the 35-mile trip to the city. For 12 miles to the railway the dog followed patiently despite his injuries. Two physicians were called to treat the animal and chloroform had to be administered before the quills could be removed from the dog's tongue, which was so filled with them that it resembled a cactus. The dog is recovering from his injuries but is not yet himself.

Porcupines were never known in this section until recent years, but this is the second to be killed this year in the Bohemia district. William Edwards killed one several days ago which had taken lodgings under his cabin.

Good Fellows Store Sold.

Hary T. Williams and F. McLaughlin have purchased from S. E. Cole the Good Fellows cigar store and card room and have taken possession. Mr. Cole, who conducted the business for a number of years, has not announced his future plans.

Williams has been a resident here for 20 years. McLaughlin lived here 19 years ago but since that time has covered a large part of the world. He returned here two months ago.

Brainard Car in Wreck.

An Overland car operated by Bernard Brainard, of this city, and a Ford coupe bearing an Alexandria, La., plate went into the ditch Wednesday night on the highway a short distance south of Creswell when the two cars collided headon. Miss Bernice Brainard, one of the occupants of the Brainard car, sustained slight bruises. Mrs. Brainard, the other occupant, and Mr. Brainard escaped injury, as did also the two occupants of the other car.

Escape Cyclone and Earthquake

A number of former residents of Illinois gathered Monday evening at the Mallie Miller home, the occasion being the visit here of Mr. and Mrs. Harry Orr and son, of Enfield, Ill., who were on their way home from spending a year in California. Mr. Orr is a cousin of Mr. Miller. The Orrs have been peculiarly fortunate. They left Enfield several months ahead of the cyclone which devastated that section of Illinois and they left California just ahead of the recent earthquake. Nothing serious has happened here following their departure.

The Orrs were accompanied by Mr. and Mrs. Elmer Clingenpeel, of Roseburg, who visited at the New Land home.

Those who gathered at the Miller home to talk over old times were Mr. and Mrs. Robert Malcolm, Mr. and Mrs. Newt Land, Mrs. Adeline Mount and Mr. and Mrs. Clingenpeel. The Orrs, Millers, Clingenpeels and Mrs. Mount spent Tuesday in Creswell visiting the Alf Land, Bird Land and Woods families, also old time Illinois friends.

Facilities are of the best for those wishing to camp upon the grounds during the session.

Weeds Must Be Cut.

The city council has issued an order for the cutting of weeds along the edges of all sidewalks of the city. In some instances property owners have allowed the weeds to grow until there is hardly a passageway on the sidewalks. Property owners who fail to comply with the order may be prosecuted, or the weeds may be cut by the city and the expense charged to the property, to be collected with taxes upon the property.

Ice Is Nearly Short.

Cottage Grove came near going short of ice when the big motor at the Cottage Grove Ice company's plant burned out several nights ago. The Mountain States Power company was unable to get a new one at once but located a used one in an old prune dryer at Eugene, which was gotten here and put into service while a new one was being secured. The ice supply was low by the time operations were resumed.

City Bakery Closes.

The City bakery, which has been conducted by Autin Lindsay, discontinued business yesterday. Mrs. Lindsay left last evening for Lorne to visit her parents, Mr. and Mrs. W. H. Davis, and Mr. Lindsay will go east to visit his parents and look for a new location.

Alumni Elect Officers.

The alumni society of Cottage Grove high elected the following officers at a meeting held Monday night: Dale Wyatt, president; Lenora Hubbell, vice president; Evelyn Ventch, secretary-treasurer.
