Robinson Crusoe Advertised!

ROBINSON CRUSOE was stranded—and sick of it! Only his man Friday and a goat and a parrot for companionship! He wanted to get off the island, and to do this he knew he must communicate with people who might pass, afar off, in ships. So he did what any man does who wants to reach people—He advertised!

True, he had only a ragged shirt with which to do his advertising, but he stuck it on a pole, secured the pole in the ground and waited—for days! Didn't get discouraged at the first days of failure, you see. No good advertiser does!

And Finally—he got results!

If Robinson Crusoe, with one old shirt, could accomplish his purpose, could reach the folks he sought, what do you think you could do with the infinite advertising possibilities offered you?

Artistic type at your disposal—skillful printers to set it into whatever message you choose—and the folks you want to reach all near at hand!

Doesn't it stand to reason you'd get results, too?
