HOW TO HAVE A SUNDAY SCHOOL.

A few days ago the editor was visiting at the home of E. G. O. Groat, pastor emeritus of the Baptist church.

During the conversation there came a childish tap at the door. A little tot in her Sunday frock was ushered in and quietly waited for something.

A moment later there was another childish knock and another little one was ushered in, she too quietly taking her place.

Editors are not naturally curious. Of course they ask many questions, but that is merely because that is necessary in their business.

During this time the pastor's wife was busily engaged finishing

odd jobs and getting ready to go somewhere.

"Who are all these little girls?" the editor asked.

"Why, those are my wife's little girls," the pastor responded.

Then the editor's curiosity was aroused, for he did not know that the pastor's wife had any little girls.

Then the editor's curiosity really was aroused, for he did not know that the pastor's wife had any little girls.

Observing that the editor's curiosity here every Sunday forenoon, five or six, or seven or eight of them.

They are the members of Mrs. Groat's Sunday school class. As soon as the flock has gathered they will leave together for Sunday school.

"Do you like your teacher?" the editor asked.

The little ones were slow to answer, as little ones usually are when addressed by strangers.

The little ones did not answer, "I'll tell the cock-eyed world we are keen about her," as some of their older sisters or brothers probably would have.

There is a Sunday school teacher who will always have a class.

Her little pupils evidently attended Sunday school largely because they love their teacher and because she shows such interest in them that they feel free to use her home as a rendezvous.

Little children will do almost anything for love. If Sunday school teachers generally could gain the love of their pupils as this teacher has done, it is likely that we should hear little about the lack of interest in Sunday school.

The beauty of Oregon's woods draws to them the outers who leave tin cans and refuse scattered around and who are doing their best to rob the woods of the beauty that attracts them and others to them.

For their own pleasure those who use our woods should help to keep them clean and inviting. Nature does its best to repair the damage but it can not remove cans and rubbish, nor can it grow ferns and flowers as rapidly as some vandals destroy them.

The short skirt is having a hard time keeping up with the progression.

Woodruff Invites Veterans. Frank Woodruff writes from Portland to remind Spanish War vets who were members of the 2nd Oregon that the twenty-sixth anniversary of the mustering out of the regiment will be observed upon Sunday, August 9, with a big picnic to be held in Laurelhurst park, Portland.

Much Poison Bait Used. So far this year in the Lane county campaign against the gray digger a total of 3801 acres have been poisoned with the bran prepared by the county agricultural agent in cooperation with the federal biological survey.

The county court has paid out \$117.63 for labor and materials.

A total of 5400 pounds of the poisoned bran has been used. Many of the gray diggers are now coming out of the hills onto farm and garden lands, according to reports at the office of the county agent.

The campaign this year has been a big success because of the cooperation of Farmers' union locals and granges.

He was a somewhat poetic young fellow and she was "beautiful but dumb." They met at a party and he was prompted to express his admiration.

"Do you know," he told her, "you look like a bit of rare old tapestry?"

"Indeed! Well, you're not so snappy looking yourself!" she angrily retorted.

Greater in Numbers and in Buying Power

Announcement has been made of the addition of 105 New Stores to our already long list.

From a business viewpoint, such achievement is truly remarkable, but from the Customer's standpoint it means nothing more than that the combination of 676 Stores can and will do to provide him with goods of standard quality at such low prices as will afford a real saving of money.

Increased need of merchandise with the resulting increased power to buy, makes our position as leading nationwide retailers unassailable.
