

"Look Before You Leap" IS AN OLD SAYING THAT HOLDS GOOD IN STARTING A BANK ACCOUNT

Before You Place Your Money in a Bank Look for the Following Safeguards:

Notice the character and ability of the men who have charge of the bank; see that the officers are experienced bankers and the directors are responsible business men. The bank should have ample capital, the larger the capital, the greater protection for the depositor. A large surplus and profit is also an additional protection.

Read the bank's statements; notice whether or not they carry a good reserve in cash and demand loans; also notice if the bank is prospering—if a bank doesn't make money, it is not a safe bank.

SUPERVISED BY U. S. GOVERNMENT

BACKED UP BY FEDERAL RESERVE BANK

All the above mentioned security is afforded our customers; if safety for their funds, with liberality and courtesy is what they want.

The First National Bank of Cottage Grove

City Briefs
