Look Out for Self Poisoning

Neglect of the liver results in self-poisoning! Not so quickly, perhaps, but just as surely as if you drank poison out of a bottle. If your liver is not doing its work of helping digestion, eliminating waste from the bowels and purifying the blood, you will always be troubled with sick headaches, nausea, biliousness, bad breath, gas, sour stomach, or constipation.

Cleanse and tone your liver! Put your system in condition so you feel your very best again! Try just a spoonful of Dr. H. S. Thacher's excellent Liver and Blood Syrup after the next few meals and notice the quick improvement in the way you eat, sleep, look and feel—the return of strength, vigor and energy. You will be completely satisfied; otherwise there will be no cost. Dr. Thacher's Liver and Blood Syrup is sold and recommended by Kem's for Drugs and all other leading druggists.

Must Not Be Separated Faraday, the great chemist, learned a lesson in boyhood by a very childish experience. As a little lad, humbly earning his bread selling newspapers in the streets, he was walking outside the office of an Edinburgh paper for the morning issue, and thrust his head and arms through the railings of the prison gate. He was a born metaphysician and began to speculate on which side of the railings he was. "My head and hands are on one side," he said to himself, "and my heart and body are on the other." The gate was opened hastily before he could disengage himself, and the wretch he received taught him, as he said in after life, that all true work required head and heart and hands to be on the same side.

Chapel Old Structure in Shakespeare's Time

Of all the beautiful and interesting buildings which arrest the attention of the visitor to Stratford-on-Avon, none arouses a deeper sentiment than the chapel of the Guild of the Holy Cross, standing right athwart Chapel street as it does, and closing the vista as seen from both that and High street, the London Times says.

It is indeed, a graceful structure, invested with all the indefinable charm of the best medieval work, as beautiful in outline as it is in the color of its weathered stone.

Founded about 1290, from which period the chancel dates, the nave was rebuilt by the famous benefactor of Stratford, Sir Hugh Clopton, about 1495.

To us, however, its main interest is that, in the time of Shakespeare's childhood it served—as, indeed, it still serves—as the school chapel for the boys attending the grammar school which adjoins it. Furthermore, it is situated only a few feet from where stood Shakespeare's house, New Place, lying under its shadow on the opposite side of Chapel lane, where he must have often gazed upon it, whether strolling in his garden or seated in his parlor facing the chancel.

If your business isn't better this year, the reason probably is that you haven't done a sufficient amount of judicious advertising in The Sentinel. xxx
