Christmas Play Tonight.

"The Greatest Day of the Year," a Christmas play, will be given tonight in the Christian church by the Christian Endeavor society. Preceding the presentation of the play there will be 30 minutes of Christmas music. Rehearsal of the 26 persons participating in the play has been under way for several weeks.

Balmy Weather Surprises.

Mr. and Mrs. Charles Whips and Verne Whips have arrived from Tillamook to spend the holidays with relatives. As there had been a severe storm for five days at Tillamook, they were greatly surprised to find balmy spring weather here. A year ago when they arrived here they found the temperature frigid and they are pleased with the contrast.

Historic Islands

Bedloe's island, on which the Statue of Liberty stands, was ceded to the United States government for the purpose of harbor defense and it was occupied by Fort Wood. We do not find a record of any military prison on the island, though soldiers may have been held in detention there. The neighboring Governor's island has a military prison. It is interesting to note that Bedloe's island, or Liberty island, has lately been transferred to civil status, having heretofore been considered a part of the military post of Fort Wood. By proclamation, in 1924, the statue was made a national monument and its base a national park. The government now makes separate appropriations for the army post on the island and for the upkeep of the statue, most of this being for lighting.—Washington Star.

Playing-Card Figures

The figures of the four suits of playing cards are supposed to have been originally intended for symbolical representations of the four great classes of men and the names attached to these figures in England arose from a misapprehension of the names originally assigned to them. Thus, says one authority, by the hearts are meant the gens de coeur (coeur), the choirmen or ecclesiastics, and hence these are called copas, or chalices, by the Spaniards. Their word espada, sword, indicating the nobility and warriors of state, has been corrupted into the English spade. The clubs were originally trefol (trefoil leaves) and denoted peasantry; while the citizens and merchants were marked by the diamonds (carreaux, square tiles).

Preserving Eggs

Of the many methods which have been tried for preserving eggs on a small scale none has proved more successful than the use of water glass (sodium silicate). Pure water that has been boiled and then cooled should be used. To each ten quarts of water one quart of water glass should be added. The solution should be prepared, placed in a jar or crock, and the fresh eggs added from time to time until the jar is filled; but be sure that there are two inches of the solution covering the eggs. The eggs must not be washed before packing, for washing injures the keeping quality, probably by dissolving the mucilaginous coating.

Wanted Winding

An absent-minded man was a member of a geological survey expedition in Arizona. One morning he found that his watch had stopped. It would not respond to shaking, and as the party was dependent upon it for observations the owner traveled 80 miles by wagon to a little town where there was a watch repairer. The man opened the case, explored the works, closed the case, twisted the winder, and handed the watch back to its owner with the remark: "That's a fine movement—one of the best I've seen. But you'll have to wind it."

### MORE GUARANTY OIL STOCK IS SOLD HERE

Additional stock of the Guaranty Oil company was sold Monday night at a meeting of a committee of stockholders held in the office of A. W. Kime.

Representatives of the company painted a rosy picture of what they believed the future holds for those who have put their money into the drilling of wells here and at Eugene, where the bit is said to be pegging its way through the last stratum of rock that keeps it from dropping into a flow of oil. A stratum of paraffin was recently encountered. Several here subscribed for stock upon the monthly payment basis.

Schools Observe Christmas.

The schools of the city observed Christmas with appropriate exercises yesterday afternoon.

In the high school Pastor John Linn gave an appropriate address. Miss Ramona Spriggs gave a violin solo and Mrs. Brune a vocal solo and two songs were sung by the student body.

In the east side grades, rooms doubled up for programs and teachers treated their pupils to ice cream dainties. Mrs. Charles Adams impersonated Santa Claus.

The junior high on the west side presented "Dickens' Christmas Carols."

The students contributed liberally to the collection for needy families. The schools closed yesterday afternoon, to remain close until Monday, January 4.

Lions Cubs Initiate.

The Lions Cubs, which is Pastor Cameron's class of the Presbyterian church, held initiation and election of officers Monday evening. Kenneth Ward was elected president, Eugene Hopper vice president and Glen Swanson secretary-treasurer. Pastor Cameron is athletic director. The initiation consisted of having the novitiates go through stunts on the streets and in the restaurants of the city. Over 40 members participated.

Two basketball teams are to be selected Monday night. Boys who smoke will not be eligible for places. The Cubs are to be guests at a chicken dinner to be served some time after Christmas by the men's discussion class of the church, which was defeated in a recent attendance contest.
