Are we a nation of
spenders, or buyers?

THERE are persons, of course, who "throw their money to the winds." There are "free spenders" and those who "don't know the value of a dollar." Every community in America has at least a few wayward sons.

But we cannot properly be called a nation of spenders. We are a nation of industrious, progressive folks, whose buying power is tremendous. And we certainly do exert that power.

In this community, as elsewhere, we keep our money pretty much in circulation. But we are buying, not wastefully spending. We are investing in homes and their equipment, in clothing and food, in health and the comforts of life.

The greatest aid to such wise use of money is the newspaper with its group of display advertisements. Folks who consistently read the ads—and follow their advice—are not inclined to waste their earnings. They readily learn the wisdom of exchanging their funds only for those things that bring them genuine happiness.
