SIXTY AN HOUR.

If you would get an insight into what young America is thinking about, and at the same time an insight into the trend of the times for both young and old, sit in with youngsters who are yet young enough to give vent to what is really inside of them.

Recently the writer was chauffeur for a bunch of red-blooded, clean young chaps of this kind on a 22-mile trip. As much as he heard of the conversation ran something like this:

"Are we only doing 35? I guess we'll get there in time."

"I guess we'll get there in time, we had 45 minutes."

"The last time I rode down with Mr. So-and-so and along here we went 60. That old boat of his sure can step."

"How fast (this to the driver) have you ever driven your car?"

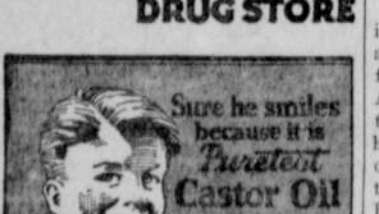

"What make is it?"

"Oh, it can do 60 or 65 easily, can't it?"

And more along the same line. Not so much different, either, from the conversation of older persons whom you are taking out in your car for the first time. No doubt we were older ones youngsters again we should direct our conversation along the same line.

COTTAGE GROVE, OREGON

Cheap Upkeep

The fact that United States Senator Robert N. Stanfield is chairman of the senate committee on public lands; is the principal ground for the belief that his bill for the payment of \$4,907,000 of lost O. & C. land grant taxes to 18 Western Oregon counties, has a chance to pass the senate. The bill, which benefits the entire state, is now before that committee and in his charge.

A new senator would be barred by the senate's ironclad seniority rule from holding such a powerful chairmanship and, therefore, would be unable to advance such legislation through the committee and pass it in the senate.

Immediate payment will be made to the 18 counties, if the bill passes, in the following amounts: Benton, \$230,000; Clackamas, \$347,000; Columbia, \$111,000; Coos, \$422,000; Curry, \$22,000; Douglas, \$1,083,000; Jackson, \$756,000; Josephine, \$379,000; Lincoln, \$22,000; Lane, \$926,000; Linn, \$120,000; Marion, \$10,000; Multnomah, \$38,000; Polk, \$185,000; Tillamook, \$30,000; Washington, \$50,000; Yamhill, \$50,000; Clatsop, \$135,000.

The Stanfield bill further provides for the annual payment hereafter of nearly \$500,000, an amount equal to the taxes that would have been paid the counties annually by the railroad company on the O. & C. grant lands.

(Stanfield for Senator Campaign, E. D. Cusick, Mgr.)

enough to keep up with the procession!
Is that where we are headed? Or is that where we have arrived? Will the growing generation have less time even than the present one to visit neighbors, to do kindly deeds, to think of the welfare of others, to develop the finer and better part of man?

If 60 miles an hour is to be the average speed, such is likely to be the case.

OUR "CADASTRAL" PUBLICATION.

The Oregon Voter waxes exuberant because it has just learned what it really is.

Not that it hasn't been told often enough by those who disagree with its policies.

It describes itself as a cadastral statistician. That sounds fully as profane as some of the names others have applied to the Voter, but that publication is as proud of the new moniker as a kid with a new pair of shoes or a prize pup with a blue ribbon around its neck.

Until more fully advised, we shall presume that a cadastral statistician is one that keeps a record of all the mean things said about him or it and memorizes them for use in referring to others.

WINES AND BEER.

(Eugene Register.)

The Cottage Grove Sentinel observes sapiently that it might be possible to get light wines and beer if it were possible to make the voters believe it would stop there. That brief sentence, we should say, tells the story better than a whole volume.

Nobody in America objects very strenuously to light wines and beer. But, on the other hand, nobody in America yearns particularly for light wines and beer. The Germans may get a tremendous thrill out of going to a beer garden and spending a couple of hours absorbing a schooner of Pilsener and the French may find vast satisfaction in sitting in front of a cafe sipping their wine. But the American craves "hard liquor"—something that scratches as it goes down.

This craving would not be appeased by non-intoxicating beer and wine, and the bootlegger would flourish as before. "Light wines and beer" is camouflage—nothing more.

The Associated Press boasts that it does things that no other press association does. In a recent story from Stockton, Calif., under an Associated Press by-line, appeared this: "Bystanders stated that he had wrangled with some guys." No other press association is likely to try to imitate this primary-grade English.

The Kappa Kappa Gamma girls of Adrian college have complained to the authorities because 20 young men attending a party given by the girls had "something on their hips." It might be added that they didn't have much of anything anywhere else.

Stanfield Working For Refund of Tax

His Influence as Chairman of Public Lands Committee Is Big Boost For Return of \$4,907,000 to 18 Western Oregon Counties.

Celtic History

Celtic-speaking peoples occupied a very wide territory of old, spreading from central Europe, where the first records of them exist, far to the west, southwest and even south-east. They settled in Gaul probably about 1000 B. C., and were probably at the height of their power about 400 B. C. Later they were under constant pressure from the Germanic tribes to the north, and saw most of their territories conquered by the Romans, from the south. They maintained their independence in the British Isles, though, for centuries.

Advance in Bolivia

A professional school for women has been established at LaPaz by the Bolivian government in response to a vigorous campaign conducted by women's clubs and societies. Its curriculum is designed to include all subjects which are necessary in home making and to enable a woman to maintain herself, if she is thrown upon her own resources. No public school of this kind has existed in Bolivia heretofore.—Jesse S. Ottrell, American Minister.

Scientific Triumph

Another attack on the secrets of the glands of internal secretion has been made by Prof. John J. Abel of Johns Hopkins university, who has announced the isolation of a crystalline form of insulin. This is a significant achievement and means the better standardization of the product and the possible preparation of it by synthetic chemical means, according to Hygeia. Insulin is now made by extracting large amounts of the pancreatic glands of hogs.

Originated Turkey Trot

Going back to the early Eighteenth century to show that every innovation in dancing has met with violent opposition, a writer in Liberty Magazine says that it was in 1812 that Mabel Hitt, an actress, and Mike Donlin, a ball player turned vaudeville man who was Mabel's husband, brought to Broadway the first turkey trot New York had ever seen. Right there recently ordered taperscore expired.

Skunks Feed on Pests

Skunks feed mainly upon insects which are harmful to agriculture. They eat army worms, tobacco worms, white grubs, hop grubs, grasshoppers, cutworms, cicadas, crickets, sphinx moths and many kinds of rodents.

"Ghost-Fear" Strong Among Real Romanys

If, during a country stroll, you come to a clear-running stream or river, and notice at the bottom a collection of broken crockery, kettles, pans, and so on, you may be sure that a gypsy camp is near, and that a gypsy has died there.

On that day after the funeral of a real Romany, the relations burn all the clothes and other consumable belongings of the dead person. Then all the crockery and utensils are broken and solemnly thrown into the nearest running water.

Behind this queer custom lies "ghost-fear." It is believed that, so long as any of the possessions of a dead gypsy remain intact, his ghost will "walk," and ill-luck and misfortune will dog the camp. Sometimes, so strong is this superstition, even the horse of a dead gypsy is destroyed.

Gypsies never utter the names of the dead, and for a long time after a death will not eat or drink anything that was a favorite of the departed. This is "ghost-fear" again.

Rarely, if ever, are flowers placed on a gypsy's grave. Some little possession that they loved in life—a toy for a child, or a blackened teapot, broken first, for an old woman, and so on—is the usual choice.

Huguenot Was First New York Physician

Dr. Johannes La Montagne was the first educated man of medicine to settle down in the little Dutch town of what is now New York and hang out his shingle officially. He was a Huguenot gentleman of forty-two, a man who had obtained a splendid medical and general background at the University of Leyden. He had married a girl named Rachel DeForest, whose family had moved to this new country, and the letters home had told of such promise that he decided to try it for himself.

So in 1637 he came. Almost immediately he assumed an important place in the community life. His reputation gave him professional as well as social position and he became one of the big men of the day. Governor Kieft appointed him to his council within a year after his arrival, and he was retained also by Governor Stuyvesant when the slightly crusty Dutchman took the reins.

Doctor La Montagne treated his first case in what are known as these parts as long ago as 1637.—New York Evening Post.

Railway Gauge Varies

The standard gauge of railways is 4 feet 8 1/2 inches in the United States, Canada, Great Britain, a number of countries on the continent of Europe, etc., it being the gauge which prevails on probably three-fourths of the railways of the globe. There have been various different gauges, and in fact, a number thereof are in use at the present day. The old broad gauge was 7 feet. There are narrow-gauge lines of 3 feet. In Ireland the usual gauge is 5 feet 3 inches; in France there are lines of 4 feet 9 inches; in Spain and Portugal the normal gauge is 5 feet 5 1/2 inches; in Russia, 5 feet; in India, the prevailing gauge is 5 feet 6 inches; in the British colonies, 3 feet 6 inches; in South America, 5 feet 6 inches, with various others.

Celtic History

Society

Mrs. J. Q. Willits and Mrs. R. E. Meeks were hostesses to the Tillamook club Wednesday evening at the home of Mrs. Willits.

Guests came dressed in gay costumes in bizarre costumes. Five hundred was played, at which Mr. and Mrs. Charles Stevens held high score.

Guests of the club were Mr. and Mrs. W. W. McFarland, Mr. and Mrs. S. V. Allison, Mr. and Mrs. H. A. Miller, Mr. and Mrs. James P. Graham, Mr. and Mrs. William Thum, Mr. and Mrs. G. A. Willits, Mr. and Mrs. J. White, of this city; Mr. and Mrs. C. E. Lebow, Creswell, and Mr. and Mrs. C. H. Vandenberg and Miss Eunice Vandenberg of Eugene. A delicious luncheon was served at the home of Mrs. Meeks. Decorations were in keeping with the costumes.

A charming tea was given Saturday by the Choral club at the home of Miss Alberta Williams in honor of mothers of club members, officers of the American Legion auxiliary and the patronesses of the club. In the receiving line were Daisy Bennett, Alberta Williams, Genevieve Miranda and Mrs. Herman Edwards. Twenty-four guests were present. The rooms were artistically decorated with sweet peas, white carnations, tulips and Easter lilies. A delightful musical program was given. Mrs. Ivan Warner and Mrs. P. L. Grannis, new patronesses of the club, were each given a beautiful calling card. Miss Genevieve Miranda presided at the tea table.

Half the Constellation club under the chairmanship of Mrs. C. E. Frost entertained the other club members Thursday afternoon at Masonic hall. It was an April Fool day party with the guests as victims of jokes. A feature of the entertainment was an esthetic spring dance by Miss Vera Scott; Miss Helen Ostrander played the accompaniment. The rooms were artistically decorated with wisteria, carnation and Oregon grape. A two-course luncheon was served, waiters taking the guests' orders. Easter favors and napkins were given. Sub-chairmen were Mrs. Karl Miller, refreshments; Mrs. Schofield Stewart, decorations; Mrs. C. C. Crason, entertainment.

Mrs. J. Brighton Leonard entertained Tuesday evening honoring her father, N. E. Compton, on his birthday anniversary. A large birthday cake was the table centerpiece. Guests were Mr. and Mrs. N. E. Compton and Mrs. Mary Cook, mother of Mrs. Compton.

NOTICE OF GAME FISH STREAM AND LAKE CLOSING.

Notice is hereby given that by an order duly and regularly made by the State Game Commission of the state of Oregon on the 11th day of January, 1926, it was found and determined that the supply of trout and fish of all kinds is being, and will be, injuriously affected by the permitting of the catch taken during the periods of time hereinafter specified from the streams, lakes and waters herein-after named, and that during the period of time beginning on the 15th day of April, 1926, and ending on the 15th day of April, 1936, both dates inclusive, it shall be unlawful for any person to kill, angle for, or take or have in possession, except as hereinafter specified, any species of trout or other fish of any kind or species from the following described streams, lakes and waters of the State of Oregon, to-wit:

BAKER COUNTY—Crawfish lake, Rock Creek lake, Black lake, Anthony lake, Grande Ronde lake, Mud lake, and Van Patton lake, closed from October 1 to June 15 of each year. Goose creek, Balm creek, Big creek, Wolfe creek, Deer creek, McCully creek, Elk creek, and Anthony creek, tributaries of Powder River, closed from August 15 to April 15, of each year, both dates inclusive.

DESCHUTES COUNTY—Elk lake, East lake, Twin lakes, Lava lake, Little Lava lake, Three Creek lake and Paulina lake, closed from September 10 to April 15 of each year, both dates inclusive.

GRANT COUNTY—Strawberry lake, Magoon lake, Olive lake, Lake Creek Reservoir and Lake creek, closed from April 15 to June 15 of each year, both dates inclusive.

HOOD RIVER COUNTY—East Fork of Hood River above its junction with the West Fork of Hood River; Middle Fork of Hood River above its junction with the East Fork of Hood River; West Fork of Hood River above its junction with the East Fork of Hood River, together with all tributaries thereof, closed from November 30 to June 1 of each year, both dates inclusive. Lost Lake Branch creek closed from November 30 to June 1 of each year, both dates inclusive.

KLAMATH COUNTY—Seven Mile creek closed to June 15 of each year. Wood River and tributaries closed to June 15 of each year. Klamath River for a distance of 4000 feet below and 2000 feet above the mouth of Spencer creek, closed to June 15 of each year.

LAKE COUNTY—Campbell lake and Dead Horse lake closed from September 1 to July 15 of each year, both dates inclusive.

POK COUNTY—The South Fork of the Siletz River, from the dam owned by the Cobb & Mitchell Lumber company, including the mill pond above said dam, and Handy creek, Sand creek and Beaver creek, closed from July 15 to April 15 of each year, both dates inclusive.

UNION COUNTY—Ladd creek closed from November 30 to July 15 of each year, both dates inclusive.

WALLOWA COUNTY—Wallowa lake and tributary streams closed to taking of "Yanks." Landlocked Salmon or Redfish with hook and line, hook and line, commonly called angling, only. Aneroid lake closed from September 15 to April 15 of each year, both dates inclusive.

And that said streams, lakes and waters be, and are closed, to fishing with hook and line, commonly known as angling, for and during the periods of time above specified. Dated and first published this 5th day of April, 1926.

OREGON STATE GAME COMMISSION.

Mrs. Sadia Orr Dunbar, president of the state federation of women's clubs and executive secretary of the State Anti-Tuberculosis association, was honored Wednesday at a luncheon at Hotel Bartell for which the Social Twelve, the local public health group, the Tuesday Evening Study club and the Research club were sponsors. Other guests were Mrs. E. W. DeBusk and Miss Both Konkel of Eugene. Mrs. George Matthews and Mrs. Ivan Warner gave several vocal selections.

Miss Kathryn Penner was hostess to the Touroville Prece club Wednesday evening at the home of Mrs. W. B. Johnston. Additional guests were Mrs. H. A. Hagen, Mrs. W. B. Johnston and Miss Crystal Robinson. The evening was spent in socializing, picture molding. The rooms were decorated with Japanese roses, fruit blossoms and ferns. Light refreshments were served.

Mrs. Elbert Smith pleasantly entertained the M. P. G. club Tuesday afternoon. Wild flowers were the room decorations. Needle work was a diversion and the afternoon was spent socially. A dainty luncheon was served at Hotel Bartell. Oregon grape was used for table decorations.

Mrs. G. B. Arnest was hostess to the Sunday school class of the Methodist church Friday evening. About 35 were present. Games were played and Mrs. N. E. Compton gave two readings. The men's quartet gave several selections and dainty refreshments were served.

Miss Jessie Alma Sears and James J. Horning, both of this city, were married in Eugene Monday, March 29. County Judge C. P. Barnard officiating. The bride is a daughter of Mr. and Mrs. J. W. Sears and both are well known here.

The LaComus club was entertained Tuesday at the home of Mrs. W. W. McFarland. The afternoon was spent socially and a dainty two-course luncheon was served. Wild orchids were the table decorations.

Mrs. Fred Anderson was hostess to the Elmarcs club Tuesday. Needlework was the diversion. A delicious two-course luncheon was served. The table was decorated with sweet peas and forget-me-nots.

Mrs. Charles Hall will entertain the club at its next meeting.

Mrs. C. E. Frost and Miss Myrtle Kem will entertain the Joker club.

this evening at the home of Mrs. Frost.
