the Far-Reaching Ability of
This Nation-Wide Institution
To Save the Public Money!

Every Man and Woman Knows

that large savings in the cost of goods are to be had when ordered in large quantities. A \$1,000,000 order for Shoes, for example, will buy each pair at a far lower price than if a comparatively few pairs are ordered.

Buying for 745 Department Stores means unusually large orders, always commanding the lowest possible cost consistent with the high standard of quality we insist upon.

Selling for cash only and thus hav-

ing the cash to pay the manufacturer, we always get the added discounts which cash-buying obtains.

Manufacturers, as is easily understandable, are glad to go to extremes in putting such quality of materials, finish and workmanship into the goods ordered in such large quantities by us for only by producing goods that measure strictly up to our high standard can they hope to obtain further orders.

This means much to you! In our peerless buying power rests a saving power for you which is not duplicated. You can verify the superior quality and savings to be had at this Store; at any J. C. Penney Company Store wherever it may be located, by making comparisons whenever most convenient to you.
