JUST REGULAR FOLK.

"What kind of folks are the movie people?" That is the question answered most frequently by those from Cottage Grove visiting in other cities.

Cottage Grove can only answer for the Buster Keaton company. Other motion picture people may have made a different kind of record elsewhere in the state, but they probably were not members of one of the major producing companies. The easiest way to describe the kind of people in the Keaton company is to quote a remark made by a member of the company.

"You have a lot of fine folks in your company," a resident remarked to a member of the troupe. "If they aren't nice they don't stay with Buster very long," was the reply.

Contact with members of the Keaton company has been pleasant. Naturally Buster himself isn't gadding around on the streets very much, but he too is a regular fellow.

The members of the company have made themselves at home here. They have expressed themselves as delighted with their stay and have been warm in their praise of the hospitality shown by the residents of the city. They like to have their fun, and they do have it, but so far as The Sentinel has observed, it is only the same kind

of fun that residents of the city themselves enjoy, and everybody has been happy.

The leading members of the company, as well as those down in the ranks, seem to have endeavored to be a part of the city while here and to have a small part in its affairs.

Illustrating this point: A few days ago Mrs. Keaton, who usually accompanies Buster to location, learned of a woman up Row river, where much of the filming has been done, who was in need of medical aid. She personally visited the woman and herself ordered proper medical attention.

Incidentally Mrs. Keaton (Natalie Talmadge), a charming little woman who was in motion pictures for a number of years, seems to be satisfied to be the wife of Buster and to shine in reflected glory. The motion picture people, judged by the Keaton company, are just regular folk and any community may profitably welcome them.

CAN IT BE DONE?

The Eugene Guard makes a suggestion that the money to be refunded on O. & C. land grant land taxes be used to reduce the county's indebtedness. Reducing indebtedness with money we didn't expect to get would be a sensible way of spending the large amount that is to come to Lane county, but can it be done?

That which is to go into the general fund of the county might be used for that purpose, and that would be a good way to use it, but much of this money is due school districts and road districts and the port district. We see no way that money due one of these districts could be used to reduce a general county indebtedness any more than a special tax raised in such a district could be used to pay general expenses of the county.

Senator Bob Stanfield proved the kind of stuff he is made of by risking his life to save a woman from drowning, but he shouldn't let the democrats of Oregon fool him into believing the old state will sink unless he becomes an independent candidate for the office for which he has been refused the republican nomination. What they want him to do is to pull their candidate out of the undertow.

Students at the University of Illinois have been forbidden to have or to operate automobiles during the school year. That's one sure way to discourage attendance.

In these jazz radio days, when you get hairs on your shoulder, don't get the wave lengths mixed.

NEWSPAPER BORROWING IS VERY DANGEROUS

A Kansas paper tells of the dangers of newspaper borrowing as follows:

"A man who was too economical to take his home paper sent out his little boy to borrow the copy taken by his neighbor. In haste the boy ran over a \$4 stand of bees and in ten minutes looked like a warty summer squash. His cries reached his father who ran to his assistance and failing to notice a barbed wire fence, ran into it breaking it down, cutting a handful of flesh from his anatomy and ruining a \$4 pair of pants. The cow took advantage of the gap in the fence and got into the corn field and killed herself eating green corn. Hearing the racket the wife ran out, upset a 4-gallon churn of rich cream into a basket of kittens, drowning them; in the hurry she lost a \$7 set of teeth. The baby, left alone, crawled through the cream into the parlor, ruining a brand new rug. During the excitement, the oldest daughter ran away with the hired man; the dog broke up 11 setting hens, and the calves got out and chewed the tails off four fine shirts."

Too Small to Kick.

On one of the western railroads there was a small but very peppy division superintendent, who believed in following things up in person.

He had received numerous complaints that freight trains were in the habit of stopping on a grade crossing in a certain small town, thereby blocking travel for long periods. He issued orders, but still the complaints came in. So he went down to the crossing, and, sure enough, there stood, in defiance of his order, a long freight train anchored squarely across it. A brakeman who didn't know him sight sat complacently on the top of a car.

"Move that train on," sputtered the little "super." Get it off the crossing so people can pass. Move on, I say!

The brakeman surveyed the tempestuous little man from head to foot. "You go to the devil, you little tarantula!" he drawled. "You're small enough to crawl under."

Improve Your Aim.

"I see you have a sign in your store, 'We Aim to Please,'" remarked the irate customer. "Certainly," replied the proprietor, "that is our motto."

"Well," retorted the peeved customer, "you ought to take a little time off for target practice." —Cincinnati Enquirer.

Make Use of Animal

Bone in Various Ways

The Chinese have added to their industries by the use they make of bones, allowing very few, if any, of animal bones to go to waste. The largest section of the back leg of the cow is used for making mah-jongg tiles, and Chinese workmen, despite their extensive use of imported material, maintain that the tile from the native bone is superior, lasting longer than from the imported product. Of the rib bones, only the upper part of the front three pairs from the cow and ox is used in making handles for knives, fans, and similar articles. These three pairs are white and clean when properly treated, while the remainder are usually cartilaginous, or defective in grain. The third section of the rear bone in the sheep leg is used to make cigarette holders and pipe stems, and this bone, it is said, is the only one from the sheep which can be used in the manufacture of other things besides fertilizer. Chinese pipes of this sheep bone are extensively used in certain parts of the country.

Vast Supply of Food in Waters of Ocean

Besides the fishes familiar to all, the herring, mackerel, cod, etc., there are others unknown to our menus, which are nevertheless suitable for human food, says John T. Nichols, curator of fishes of the American Museum of Natural History, writing for the Forum. Even the predaceous shark can be utilized. At present sharks probably take a toll of food from the sea equal or even greater by several times than man. If the sharks were gone, man would have what the sharks now take from him. The unsuitableness of sharks has been demonstrated by recent investigations. Many of them are perfectly good to eat. Their oil has various desirable properties, and excellent leather can be made from their hides. The residue may be ground up and used for fertilizer. This much is certain: when the necessity arises, the sea can stay man's hunger for a long time.

Record in Suicides

Edouard Japin, aged ninety-eight, who killed himself by jumping from a top-story window in Brussels, came near to achieving a record among old-age suicides, though it was reported some years ago that a Hungarian farmer had ended his life, following a family quarrel, at the age of one hundred and two. Quite the most remarkable case of the kind, however, was that of Janos Meryessy of Budapest, who threw himself in the Danube because old age prevented him maintaining his parents. He was rescued and his story investigated. Janos was eighty-four and his father and mother one hundred and ten and one hundred and fifteen, respectively.

Too Elaborate

The head of the house had telephoned that he would bring home a guest to luncheon—a guest whom his wife realized he would delight to honor. Preparations were made accordingly.

Unfortunately, six-year-old Gladys came in a trifle late. She swept the table with an all-embracing glance. "Hum!" she muttered audibly, as she climbed into her chair. "Is this luncheon, or is it a repast?"

"Why, of course, it's luncheon," Gladys said her mother, with a reproving gesture. "But Gladys was not to be stayed. 'Well,' she replied, 'maybe it is; but it looks exactly like Sunday dinner.'"

Bed Made a Hit

A dignified and solemn boy of almost five arrived to visit his grandparents. Kind efforts to make him feel at home were futile. He refused to talk or warm up to his anxious hosts. Even an early supper left him unresponsive.

So he was escorted to his bedroom by despairing relatives. Here an old-fashioned, elaborately carved child's walnut bed had been set up for him. At sight of it he became vividly excited, broke into a run, clambered in, lay flat on his back, stretched, rolled over, then sat up with a beaming smile of supreme satisfaction and relief, and announced to the breathless relatives: "Yes, it fits!"

Early Fire Fighters

The first record of what might be called a fire department is found in Rome. A disastrous fire occurring in the reign of Augustus called his attention to the benefit of a regular fire brigade, so he organized one consisting of seven companies of a thousand men each. The first real fire engines were used in 1688 at a great fire on London bridge. The first fire hose was invented in 1672. The first steam fire engine was invented by John Braithwaite of London, in 1829. The first city fire department in this country was organized in Boston in 1678, the fire engine being a hand pump bought in England.

He Wanted to Help

A young farmer wanted to sell his farm and was showing it to a prospective buyer. As they went over the house the farmer's little son trailed along at their heels from room to room. He, too, wanted to show the place off to the prospect, and in the bedroom he interrupted his father's eulogy on the plumbing to pipe: "Look, mister! See them nice big holes! That's rats."

Highest in Adirondacks

Mount Marcy, or Tahawas, is the highest summit in Adirondack mountains in New York. It is 5,344 feet high and is situated in Keene, Essex county, about forty-five miles south by southwest of Plattsburg.

ADVERTISEMENT FOR BIDS FOR STREET IMPROVEMENT COTTAGE GROVE, OREGON.

Notice is hereby given that on Monday, the 2nd day of August, 1926, at the hour of 8 o'clock p. m. of said day, in the council chamber of the city hall, sealed bids will be opened for the improvement of Madison avenue from the east line of Third street to the west line of Sixth street, according to the provisions of ordinance 662, passed and approved July 6, 1926; with hard surface pavement constructed of bitulithic or bituminous concrete or of cement concrete.

Plans and specifications therefor, prepared by the city engineer, are on file in the office of the city recorder, who will receive unit bids for any part or all of said improvement until 7:30 o'clock p. m. of said day, August 2, 1926.

Work shall be completed within 60 days from the signing of the contract, and certified check for 10% of the amount of bid or an approved bid bond shall accompany each bid. The common council reserves the right to reject any and all bids.

Dated this 20th day of July, 1926.
HOMER GALLOWAY,
City Recorder.

NOTICE FOR PUBLICATION.

Department of the Interior, U. S. Land Office at Roseburg, Oregon, July 14, 1926.

Notice is hereby given that Jud N. Ward, of Creswell, Oregon, who, on December 1, 1920, made Homestead Entry, serial No. 013518 for the SE $\frac{1}{4}$ of SW $\frac{1}{4}$ and S $\frac{1}{2}$ of SE $\frac{1}{4}$ of section 13, township 19 S., range 4 W., Willamette meridian, has filed notice of intention to make final three-year proof, to establish claim to the land above described, before E. O. Immel, U. S. Commissioner, at his office at Eugene, Oregon, on the 23rd day of August, 1926.

Claimant names as witnesses: James W. Richardson, Creswell, Oregon; Walter J. Hager, Creswell, Oregon; Arthur W. Kerr, Creswell, Oregon; August Liedke, Creswell, Oregon. HAMILA CANADAY, Register.

SUMMONS.

In the circuit court of the state of Oregon, for Lane county.
Herbert W. Lombard, plaintiff, vs. W. G. Johnson, James H. Potts and William Turpin, copartners, doing business as Potts & Turpin, defendants.

To: W. G. Johnson, defendant. In the name of the state of Oregon: you and each of you are hereby summoned and required to appear and answer the complaint of plaintiff in the above entitled suit on or before the last day of the time prescribed in the order for publication of summons, to-wit: on or before the 27th day of July, 1926, and you are hereby notified that if you fail so to appear and answer, for want thereof, the plaintiff will apply to the above entitled court for the relief prayed for in the complaint, viz: for a decree foreclosing the mortgage executed by defendant, W. G. Johnson to Herbert W. Lombard on the 23rd day of December, 1925, covering the following described real property, to-wit:

The southwest quarter of the northwest quarter of section seventeen, township twenty-one, south of range two, west of Willamette meridian, all in Lane county, state of Oregon, and for a decree of sale of said premises in satisfaction of said mortgage and attorney's fee thereon provided for and the costs of this suit; and that each of you be forever barred from all right, title or interest in said premises except only the statutory right of redemption.

This summons is served by publication thereof in the Cottage Grove Sentinel, a semi-weekly newspaper of general circulation published at Cottage Grove, Lane county, Oregon, under and by virtue of an order of the Honorable G. F. Skipworth, judge of the above entitled court, dated the 8th day of June, 1926, directing publication hereof once each week for six successive and consecutive weeks in said newspaper, which order required you and each of you to appear and answer the complaint in this cause on or before six months from the date of the first publication of this summons.

The date of the first publication of this summons is June 10, 1926.

HERBERT W. LOMBARD,
Attorney for Plaintiff.

NEW LOW PRICES Firestone GUM-DIPPED TIRES

Car owners have never been able to buy tire mileage at so low a cost per mile as they can buy Firestone Gum-Dipped Tires today. And never before have they been able to buy tires so comfortable, safe and trouble free.

This is possible because of the highly skilled research engineers who have developed special machinery and processes for manufacturing Gum-Dipped Tires, combined with economical national distribution through efficient Service Dealers, many equipped with the latest Firestone methods of repairing High Pressure, Full-Size Balloon, Bus and Truck Tires.

Firestone's long fight against the British Rubber Restriction Act has saved car owners millions of dollars.

We can serve you better with these wonderful tires and save you money. Come in today.
