

THE HIGH DIVE

To popularity is not the way this bank has grown. Starting in a small way in 1890, each succeeding year has witnessed a steady growth in our business. Today we are the largest and strongest Bank in South Lane County.

Age, experience and growth improve a bank's facilities and ability to serve the public. An honorable career of nearly thirty-six years has earned for us the name we shall always endeavor to maintain.

FIRE WARNING.

The Oregon Fire Relief association is vitally interested in reducing and preventing the number of fires occurring in Oregon, and is willing to help bring this about in all ways possible, and suggests first the cleaning of all mossy roofs, or replacing with new where badly worn out, more fires are caused from bad roofs than all other causes combined, next comes defective flues, especially terra cotta flues, where they are cracked. Stove pipes should fit snug in all flues and be well wired, all trashy and combustible material kept cleaned up from around buildings, as well as within; many have done this, but many have not, and our policyholders are hereby warned that where the above conditions are still found to exist, their policies are subject to cancellation. ag5-26(T)c D.
