It takes in all three!

CHAMPIONS of the cinder path live
and breathe these three axioms:

- (1) start—off the mark like a flash
- (2) strong, rhythmic stride
- (3) powerful, dashing finish

And the sprinter knows he must have all three to win. Likewise, motor-fuel, to give what 999 out of 1000 motorists want, must have in perfectly proportioned combination (1) quick starting according to seasonal demands (2) full measure of power (3) mileage.

That is why the 999 like Associated—it gives them "more miles to the gallon." The secret of Associated performance is its distinctive chain or series of boiling points.
