

Meet Sarah Ann Duplicate

You may never see Sarah Ann, though perhaps you might. Sarah Ann was pronounced the world's greatest Holstein last year—the All-American Aged Cow. And where did she appear? Why, at the Pacific International Livestock Exposition in Portland—where many, many world's champions appear!

Sarah may be there again this year from October 30 to November 6. But, if not, you will see thousands of the finest bred, best producing dairy stock in America—for they come from the four corners of the continent to be at this—the greatest combined livestock exposition now known in the world. Also come the finest Beef Cattle, Horses, Hogs, Sheep, Goats and Foxes. Then there's the famous Horse Show and Land, Industrial and Dairy Products Exposition—all housed in the tremendous 10-acre exposition building.

It is our sincere belief that there is not a farmer in this community who can afford to miss, or who will fail to profit by this opportunity.

Keep kiddies warm from the INSIDE with Tru-Blu Grahams Rich in calories

Schoolroom temperatures are regulated to the needs of the normal child. The little one whose breakfasts or lunches are too low in heat value is likely to feel chilly, miserable—grow sniffling, even ill.

Warm your kiddies from the INSIDE. Keep their little boilers steaming with food selected for that very virtue.

TRU-BLU Graham crackers furnish 1955 calories to the pound—1955 calories of heat and energy. Yet they place no strain on undeveloped digestive systems. They do not clog or drag.

TRU-BLU Grahams are a balanced food. Contain BRAN—the outside roughage—as well as the inner meat of the wheat kernel. And HONEY—a natural sweet that makes enjoyment healthful.

If You Specify TRU-BLU Grahams Your Grocer Will Send No Others. He Knows There's a DIFFERENCE.
