

**WORK ROW RIVER ROAD
IS NEARLY COMPLETED**

Culp Creek, Oct. 26.—(Special)—County road work on the Row River highway, which has been in progress through the year, is nearly completed and reserve rock for repair work during the winter is now being crushed. The unfinished gap

in the lower road district, about five miles in length, is being put in shape for winter. A short stretch of this road will be only temporarily repaired, as it is the intention to alter the route next year to eliminate several railway crossings.

CERRO GORODO.

(Bessie N. England.)
In the twilight's wooing hour,
While the crickets softly croon,
And the fireflies weave so gently
Light into the somber loom;

I look upon old Cerro Gorodo,
And those fir trees rising high;
Only now a bank of shadows
Dark against an empty sky.

Men are born, live, and die,
Yet those trees and mountain stand,
God alone has reek'd the time
When they fall—that noble hand.

In the years long since gone
Indians roamed this valley o'er.
Tombs of stone now mark the place
Where their teepees stand no more.

Cerro Gorodo, if you could tell us,
In the tongue of mortal man,
Of the scenes that have been unfolded
Since you've looked upon this land;

Endless volumes would be filled
Of gripping stories seldom told.
You could tell us how the beasts
Ruled supreme in ages old;

How the red man stealthily came—
Wild in heart, but child of God—
He soon was vanquished by the
Whites

Who came to live upon the sod.
Now as twilight fades away,
And soft darkness covers all;
Will we too, likewise go?
What is life after all?

VOTE THE REPUBLICAN TICKET STAND BY YOUR PARTY

FREDERICK STEIWER
FOR
U. S. SENATOR

Would you scrap Oregon's direct primary law? Would you surrender the important committee chairmanships now held by Senators McNary, Smoot, Borah, Johnson, Jones, Warren and Oddie, all Western men? Would you repudiate the policies of President Coolidge?

The fight for the U. S. Senatorship is between the democratic nominee and Frederick Steiwer, republican. No Independent has ever been elected to the U. S. Senate.

If you believe in the direct primary—if you want the West to retain its power in national affairs by reason of republican control of the senate—if you believe in the policies of Calvin Coolidge—

Vote 15 X—
Steiwer, Frederick

I. L. PATTERSON
FOR
GOVERNOR

The republican party of Oregon is fortunate in having Mr. Patterson as its candidate for Governor. Successful business man and farmer, he is equipped to meet and solve the problems that will confront him as Governor. Economy, he has practiced in private life; economy he will practice as Oregon's chief executive.

The only real pre-election promise Mr. Patterson is making is that he will not follow established precedent and spend the people's time and money traveling about the state making speeches.

If you want a Governor who will be on the job attending to business—

Vote 18 X—
Patterson, I. L.

for a New Bridge at Springfield ACROSS THE WILLAMETTE RIVER

LET'S NOT LET THE OLD AND DANGEROUS BRIDGE STAND UNTIL IT FALLS IN THE RIVER CAUSING LOSS OF LIFE.

Reasons Why You Should Vote for the New Bridge Now:

The State Highway Commission has agreed to pay half the cost of building a new \$150,000 modern steel bridge.

The County will get a new \$150,000 Bridge for \$75,000 by voting bonds to be retired \$15,000 a year for five years.

The Springfield-Eugene bridge is the most used bridge in Lane county. Hundreds of automobiles and motor trucks pass over it daily.

The old bridge was built 30 years ago before motor transportation, for horse-drawn vehicles. It is the longest single span west of the Mississippi river. It is being overloaded and is now positively dangerous to travel.

The new bridge would afford a direct entrance to the McKenzie State highway from the Pacific highway, cutting down the distance one-half mile and eliminating a bad stretch of road.

The new bridge would eliminate a very dangerous railroad crossing on the new Natron cutoff line.

The city of Springfield will furnish piers and right of way for the new bridge, cutting down cost to taxpayer.

Springfield has voted favorably on every needed bridge and road project in Lane county. She now asks help in remedying a dangerous bridge condition at her front door.

Children

of Eastern Oregon Are Asking You for Equal Opportunity in Education with YOUR Children

J. S. LANDERS, Monmouth, Oregon, President of Oregon Normal School:

"The Eastern Oregon Normal School problem is one that affects the Western part of the State equally strong and there should be no lack of support for the Eastern Oregon Normal School measure in any part of the State."

J. A. CHURCHILL, Ashland, Oregon, President Southern Oregon Normal and formerly State Superintendent of Public Instruction, said:

"In no institution of higher education is the relationship between the investment of preparation and the return of service so apparent as in the Normal School, for every student who matriculates at a Normal School consciously dedicates himself to preparation for a career which entails a responsibility greater than that of any other profession. I have gone about in institutes of the state for fifteen (15) years pleading for the establishment of a Normal School for Southern and Eastern Oregon. It is absolutely necessary that another Normal School be established."

DAVID R. JONES, Eugene, Ore., City Superintendent of Schools:

"Eastern Oregon is without doubt in need of a Training School for teachers. All schools of higher learning are now located in the Western part of the State. The question of a Teacher Training Institution in the Eastern part of the State is one which should demand the attention of the North, South, East and West."
