Under the Big Dome

One of the obsolete laws to be repealed is one providing that the rate for street car fares shall be not to exceed 5 cents.

Members of the house, relieved by the governor of worry about revenue measures, had a good time today joshing one another about the features of their bills.

One Eugene institution probably is interested in the proposed law that would permit building and loan associations to become mutual savings banks while at the same time retaining their old name as a protection against someone taking the old name and capitalizing on it.

The Lane county salary bill is out of senate committee with a favorable report and probably will be safely guided past the legislative roll call reef, which will make it a law, as it already has passed the house.

Representative Cramer's bill to provide that county salaries should be fixed by county courts has failed in the senate, due largely to pressure from county courts who feel that the legislature is already blamed for so much that to continue to take the blame for county salary rises will not make much difference.

The house has voted to repeal a law which fixed the rights of married women. At the rate the divorce courts are working, any law referring to married women soon will be obsolete.

Representative Graham must have had the experience of having to pay damages for injuries to someone who he had given a lift in his car, for he has introduced a bill to relieve of liability the operator of a car who is carrying someone without making a charge therefor.

There may be places where it is more blessed to give than to receive, but that is not at a legislative session. Representative Fisher called attention to that fact when he spoke for a bill which provided that the state might receive from the national government money that belongs to Oregon disbanded military units.

This is a poor session for the newspapers, with the result that hardly get into the dispatches is rating preferred position alongside pure reading matter and is getting top heads.

Representative Peterson, who represents Lincoln county, has introduced a bill to prohibit chickens from running at large. Newport is in his district and during the summertime at that famous resort chickens run at large and otherwise and probably need some restraining influence.

Mike Thompson of Eugene was an interested visitor here today while on his way home from the north and it is understood that he interested the president and speaker in the introduction of a measure to provide that Ireland be annexed to Lane county.

Representative Tom, chairman of the agriculture committee, has received the prize letter taking a shot at attempts to regulate everything from salary rises to the height of a flapper's skirt.

Plans for the production have been underway for the past two years. Under direction of Charles Neumayer, a cast has been training for nine months to play in the drama which was first enacted 2000 years ago in ancient Athens.

SOCIETY

The Bona Tempo club met Thursday night at the home of Mrs. F. H. Allison, who invited as additional guests husbands of the members and Mrs. W. C. Griffith, house guest of Mrs. Allison, and Mr. and Mrs. Glen Smith.

Lester G. Hulm of Eugene was a visitor here yesterday. He recently returned from California, where he found that in one large city 5,000,000 Oregon fir trees were sold at Christmas time.

Mrs. John Miller was hostess Friday afternoon for the Good Neighbors club. The hours were spent with needle work after which refreshments were served.

Mrs. Schofield Stewart, Mrs. W. B. Johnston and Mrs. D. D. Roberts were hostesses Thursday for the Constellation club. Forty-six were present and special guests for the afternoon were Mrs. F. E. Mendenhall, Mrs. Earl Fullmer and Mrs. Morgan.

The American Legion auxiliary will meet tonight for their regular business session. Plans will be completed for a card party to be given Monday night, February 14, in the Veterans' club rooms.

The Social Twelve will meet Thursday afternoon with Mrs. Clara Burkholder.

Mrs. E. W. Armes, Mrs. W. L. Hatch, Mrs. Herbert and Mrs. Groves will be hostesses for the Presbyterian aid society Wednesday at the church.

Tanglefoot dancing club will hold the last dance of the series tonight at Phillips hall. Following the dancing a covered dish supper will be served.

Mrs. Elmer Frans will entertain the Tuesday Bridge club tomorrow at a 1 o'clock luncheon.

Mrs. D. C. Bosley will be program leader at the meeting Tuesday afternoon of the Research club. The subject will be a continuation of the series on travel in the United States and will be on the Great Lakes country.

The Tuesday Evening Study club will have current event topics for the program at their meeting this week. Mrs. B. R. Job will be leader and each member will give a 10-minute talk on a topic previously assigned them.

Miss Eunice Vandenburg was hostess Friday night for the Joker club inviting as additional guests Mrs. A. A. Richmond, Mrs. Roy Short, Mrs. Nelson Durham, Mrs. Joe Smith, Mrs. Schofield Stewart, Mrs. A. W. Helliwell, Mrs. F. E. Dickson, Mrs. O. E. Woodson, Mrs. Herbert Lombard and Mrs. Harry Metcalf.

Herschel Kidwell was host Friday evening at the Harold Johnson home for a party complimenting the University of Oregon glee club members.

Mrs. and Mrs. Harold Axley entertained a group of friends at a supper party Sunday evening. Covers were laid for twenty guests and red carnations and pussy willows were effective table decorations.

Mrs. W. L. Hatch was hostess Thursday afternoon to the Mothers' club. Ten members were present and Mrs. Sheary was a special guest.

Aztec No Reddatives of American Indians

In the early eighties, two Aztec, a girl and a boy, were shown in Scotland by a man and woman who exploited them.

As the story of their discovery and kidnapping goes, rumors of the existence of two Aztec children reached the Gulf coast, says a writer in Adventure Magazine.

Some adventurers penetrated the hinterland and discovered the two Aztec children, who were posed on the altar of the temple by the priest of the cult as subjects for veneration, possibly—if the traditions of the Aztecs be rightly handed down to us—held until the time for sacrifice to the god came due.

The children were kidnapped and, after a bitter struggle with their pursuers, were brought to the coast and stung aboard ship, and eventually came into the hands of the couple.

After careful analysis of the physical characteristics of the Aztecs, it may be said they differed from the American in many ways and were an entirely different race of people from the red man—any nation of people of the American continent.

The head, the features, eyes, mouth, nose, jaw and chin had no resemblance to any Indian nation or people, or even to the mixed races of the red man, which range from the Slave lake of northern Canada to Patagonia in South America.

The outstanding difference was their hair. The hair of the Aztecs was a long, frizzly shock that stood upright from the forehead.

When the homesteaders took up a section of wheat land in western Canada he plants his crop at the earliest possible moment in order that he may not miss a harvest. Often he is occupied to such an extent with these agricultural operations that he neglects his dwelling house and hurriedly throws together a rude makeshift of sod.

Even though it were desired to erect a frame house, this could be done only with great difficulty because of the scarcity of lumber. It is far better to live in temporary quarters until the railroad pushes out into that territory and brings the comforts of civilization.

However, these sod houses are by no means uncomfortable, for they are wonderfully cool in summer, and correspondingly warm in winter.

Near Vienna on the Danube at the Iron Gates the speed of the current is from 12 to 16 feet per second. The British motorer in the Glowworm got stymied half way up it, it couldn't go either forward or astern, and had to hold down her valves to get a high enough head of steam to struggle out of it.

It takes a special towing steamer, pulling itself up on a cable from one and one-half to two hours, to cross this two-kilometer stretch. The Germans used locomotives to tow ships through it during the war. Down below Orsova these dreaded Iron Gates are not one-half so sticky as the sixty-five miles of rapid and submerged ledges below Drebnova.

In Amsterdam, Holland, the municipal electric light works sell air to citizens. This seems an odd by-product of the electric industry until it is considered that the electric ozonation process is one of the most effective means of purifying the air just as lightning "freshens" a dank and humid atmosphere, stimulating those who breathe it.

The Dutch air is drawn down through a chimney 100 feet high, purified and dried by electricity and compressed into cylinders like those used for soda fountain gas in America. These are sold to homes in the city on an annual contract basis, for about \$24 a year.

Slow release of the air in bedrooms of people afflicted with asthma is said to bring relief to the sufferer.

Great English Actor Vagrant by Instinct

Miss Tidswell, the kindly benefactor of the youthful Edmund Keats, taught him to recite, and read Shakespeare to him. But even kindness and comfort could not ease his hectic spirit.

Occasionally he would break his bonds and run away to sleep in barns, to haunt wayside inns—imitating lumps and apes, tumbling, dancing, reciting and singing for his bread and butter.

That Miss Tidswell locked him in his bedroom with his schoolbooks made but little difference; he would wriggle down the water pipe at his window and wander for days, restless and uncontrollable as an alley cat.

Even the device of welding on his neck a brass collar inscribed "This boy belongs to Number 9 Leicester square. Please send him home," had no effect; covering the fetter with his handkerchief, he defied detection and was happy.

The poor little devil was used to shackles; when he was scarce more than a baby his reprobate father, deciding that Edmund's scandalous bowed legs should be straightened, clamped them into iron braces and in this state of torture sent him to lodge with some humble acquaintance in Soho—a Mr. and Mrs. Duncan.

Playing the grand inquisitor did not greatly appeal to Mr. Duncan. It disturbed his slumbers after his "four ale" at the neighboring pub. He complained: "He used to sleep with me and my wife in his iron, and they hurt us."

The traveler in the Canadian provinces of Saskatchewan and Alberta is astonished at the great number of sod houses scattered throughout the prairie farming district. These do not occur in the vicinity of the towns, but are out about ten miles or more. One might suppose that such rude structures were the result of poverty.

On the contrary, the sod houses denote advancing prosperity. When the homesteaders took up a section of wheat land in western Canada he plants his crop at the earliest possible moment in order that he may not miss a harvest.

Often he is occupied to such an extent with these agricultural operations that he neglects his dwelling house and hurriedly throws together a rude makeshift of sod.

Glee Club Presents Program

The University of Oregon men's glee club presented a varied program Friday evening at the high school gymnasium.

One of the most attractive features of the program was "A Dream of Ballads of Other Days," a tableau of old-time favorites. Old songs in vogue fifteen years or more ago were sung and won the appreciation of the audience.

Other numbers on the program included songs by the entire glee club, Oregon songs, baritone solo, monologue, pantomime, soft shoe dancing and selections by the varsity four.

The regular meeting of the women's relief corps will be held Saturday in Legion hall. Officers request that all members be present.

Major Bolton C. Hamble of Salem, a member of the Adjutant General's department, arrived last night to make a check of property stolen from the Cottage Grove armory recently. He will leave tomorrow.

Authorities agree that an excess of uric acid is primarily due to faulty kidney action. Retention of this toxic material often makes its presence felt by sore, painful joints, a tired, languid feeling and, sometimes, toxic backache and headache. That the kidneys are not functioning right is often shown by scanty or burning passage of secretions. Thousands assist their kidneys at such times by the use of Doan's Pills—a stimulant diuretic. Doan's are recommended by many local people. Ask your neighbor!
