4 times as big as SAN FRANCISCO

DUNLOP CITY

Throughout the world the productive Dunlop properties cover so vast an area that—if combined into one place—they would form a "Dunlop City" of over 100,000 acres.

WITH all its greatness, San Francisco occupies but 26,880 acres. "Dunlop City"—with over 100,000 acres—is more than four times as big!

And Dunlop City has grown for just one reason—the uniformly supreme quality of Dunlop Tires.

Great size brings great responsibilities. To protect the good name of "Dunlop City," every set of Dunlop Tires must be uniformly supreme.

The manufacturing advantages which Dunlop's great size have brought, make this quality possible—at lower prices than ever.

You can expect *more* of Dunlops.

EVERY member of the family knows the tempting, luscious sweetness behind the rind of the cantaloup when it has reached the perfect stage of fresh ripeness.

AND just in the same way, when that other popular favorite of Northwest tables, *Frye's "Delicious" Brand Ham*, comes from the smokehouse, there is preserved for your palate behind the rind that tempting flavor so fragrant and so mellow to the taste.

DELICIOUS, nutritious, quickly prepared, a meal in itself, or the principal ingredient in scores of unusual dishes, and wonderfully economical because every ounce of it can be utilized — that's *Frye's "Delicious" Brand Ham.*

Distribution Without Waste

Why we want to sell
One Hundred Million Dollars'
worth of Foods during 1928

Our sales for 1927 exceeded seventy-six million dollars. We have set one hundred million dollars as our goal for 1928. Why? Largely, so that we may offer you even greater savings. As sales increase—in a properly managed business—the cost of selling decreases. Greater sales mean greater buying-power, busier stores, busier sales people and less waste at no additional cost. Much of these savings are passed on to you in the form of lower prices. So you, too, will benefit by helping us to attain our goal.
