Lumber Stocks Low Prices Remain Steady

Curtailment of Production Is Having Salutary Effect Upon Situation.

Cottage Grove's lumber market is optimistic as to the lumber outlook. In its most recent issue it said:

The general outlook for the lumber market is for a continuance of the present upward trend.

A close study of conditions reveals one significant and outstanding feature: there are no surplus stocks of lumber on hand at either the producing or distributing end of the business. Add to this prospect a further reduction in output during the next 60 days, during which time an increased demand seems assured.

The production of lumber in the fir districts of western Oregon and Washington and British Columbia for the month of May was slightly over 18 per cent less than in April. This month will see 29 per cent or more out from the normal output and July, according to the best information now available, will fall short of April approximately from 25 to 30 per cent.

Scissors have pointed to mills that have not been running on the five day week as evidence that the production regulation program was not being given the right kind of support, but the doubters will soon see the majority of such concerns going down during this month and the early part of July for periods varying from one to four weeks and in that way doing their part of the regulating in a lump instead of stringing it over a longer period. This is well demonstrated on Grays harbor where one large operation will close on the 16th of this month to remain idle until the 1st of August, and another will shut down on the 25th and not see at all during July. Still another will close two weeks of the next four, another two weeks of the fourth of July, another three weeks, and so on, so that, while one of the large operations that has been idle since the latter part of April will resume sawing early in July, its two-shift cut will be more than offset by the action of the other plants and this condition is typical all over the fir belt.

No one can as yet say definitely the extent to which the Fourth of July shutdowns will go. There is considerable talk of a general cessation of sawing for the entire week, which would mean to close on the night of June 30 and remain idle until Monday, July 9. If this is done, it will be in addition to the production regulation already planned, and will undoubtedly have a determined expression in buying resistance before the end of this month.

Sizing up the demand end of the business makes it clear that retail dealers, with rare exceptions, are making a strong effort to break the market by holding off until the last minute in their purchases. A survey made by the Tenth Federal Reserve bank shows that during the month of April the retail yards in that district reduced their stocks 5 per cent and figures just released show another 5 per cent reduction for May, which means a 10 per cent falling off in retail stocks right in their rush season and at a time when their prospects are bright for more business. This is also made evident in the report just issued by one of the leading underwriting insurance exchanges wherein they show cancellations of policies on retail stocks amounting to over five million dollars since January 1. During the same period the southern pine mills have also cancelled over ten million dollars worth of insurance on stocks which they had been carrying, showing that the mills have less lumber on hand than they have had for many months. A similar condition exists in the northwest, as 21 mills reporting to the Davis listing bureau in Portland reported a reduction in their stocks of over thirty-four million feet for the month of May alone.

Add to the favorable condition of stocks the fact that the cargo mills are loaded up with business to the point where few will be in a position to book anything for prompt shipment for another four weeks and it will be seen that basically, no matter which angle the outlook is viewed from, it is sound.

It is a time to sit tight and hold for prices that will give a reasonable margin of profit, for they can be secured.

SHALL CANNERY RUN OR NOT IS QUESTION

Whether or not the cannery shall operate during the coming season was discussed at the noon and evening meetings of the chamber of commerce Tuesday. Several plans were suggested to insure operation of the plant this season, the most certain of these being sale of sufficient preferred stock to clean up the debts of the institution. A special committee was appointed to interview the business interests of the city and get their ideas as to what should be done.

New Readers Refuse To Miss Issue

A number of interesting and amusing things have developed during The Sentinel's subscription campaign. The most pleasing thing has been the immediate complaints of new subscribers who don't want to miss an issue now that they are on the list. During the past week one of the several hundred new subscribers has reported that he has been here for 19 years and not until now did he know that Cottage Grove has such an interesting newspaper. He says that he finds he gets as much from reading one issue of The Sentinel as from reading a week's issues of one of the Eugene dailies. The Sentinel is willing to educate many hundred more to the value of their home newspaper.

\$2000 a Vote Record School Budget Meeting

An average of almost \$2,000 the voter was voted at the annual school budget meeting Monday. The budget called for approximately \$55,000 and 30 votes were cast out of a possible 1500. One-tenth of the votes were against adoption of the budget.

Charles A. Beidler received the entire vote for reelection as director, N. E. Glass received 29 and Roy V. Leonard received 27. There were three to elect and no opposition developed. All three are now serving. At a meeting of the board Monday night Mr. Glass was re-elected chairman. The following committees have been appointed: Finance—Chas. A. Beidler, Roy V. Leonard; building—H. B. Griggs, Clem Sarff, Chas. A. Beidler; teachers—Roy V. Leonard, Chas. A. Beidler.

Service Stores Plan Picnic for Community

Plans are being completed by the service stores of the city for a community picnic to be held Wednesday, July 18. Committees were appointed at a meeting held Friday night. It is planned to make this an old-fashioned affair with a ball game, horse shoe games, races, etc., into which guests at the picnic may enter. A big picnic dinner is to be served at noon at the expense of those sponsoring the affair. Two thousand or more are expected to be guests. There is sentiment for making a picnic of this kind an annual affair.

Loy Price Is Injured.
Roy Price, employe of the Bohemia Lumber company, suffered a seriously bruised right side and possible internal injuries about 10:30 Tuesday forenoon as he was loading ties at the company's dock. He was given first aid by Dr. C. E. Frost and taken to the Eugene hospital. It is believed that his case is serious.

Price was working with a partner loading ties into a box car, the partner putting an end of the tie on a board to raise it and Price shoving it into the car. The partner failed to get the tie end on the board and as a consequence Price forced the tie against his right side just above the hip bone. The bruise showed all the symptoms of internal hemorrhage, according to the attending physician, and it is feared that several of the blood vessels are ruptured and that the intestines may be injured. In case of ruptured blood vessels it will be necessary to open the abdomen to repair the damage.

Price is 21 years old and his parents reside in Sacramento, Cal.

E. C. Bright Is Injured.
E. C. Bright, employe of the W. A. Woodard Lumber company, sustained two fractured ribs on the left side Thursday evening when he was struck by an iron bar as he jumped from a load of logs. He was riding down from work on a logging train when the chocks on a load of logs slipped and the logs started rolling off the flat car. Bright jumped but as he jumped an iron bar used for holding the load flew out and struck him on the side. He was treated by a local physician and sent to his home.

Bend Smothers Locals 23-4 in Sunday Game

C. G. Holds Firm in Early Portion of Game, Slaughter Starts in Sixth.

Bend, in imitation of one of its central Oregon blizzards, snowed Cottage Grove under 23 to 4 Sunday afternoon on Kelly field. Bend defeated the locals by an identical score May 13 at Bend. The visitors carried dynamite in their bats, scoring three home runs in one inning and blasted Cottage Grove's hopes with 21 base hits, five of which were home runs and three two-baggers.

The game was close for the first five innings, Bend leading 3 to 1. The visitors scored one in the first inning, and added two more in the third. Cottage Grove scored a run in the third. In the sixth inning Smith, Cottage Grove hurler, weakened and Bend scored seven runs. Cooper relieved Smith in the seventh inning but could not stop Bend's barrage of base hits and runs.

In the fatal sixth inning which started the slaughter Bend scored seven runs after two men were out. Not content with this lead Bend added four runs in the seventh, three in the eighth and six in the ninth.

Cottage Grove staged a brief rally in the ninth, scoring two runs.

The locals are firmly lodged in the cellar with six defeats and only one win. Bend and Salem are tied for first with Eugene and Albany tied for third and fourth. Wendling is hovering near Cottage Grove's preserve in the cellar with two wins and five defeats.

Boxing by innings:

Bend	102	607	456	23
Hits	101	606	236	21
Cottage Grove	791	600	612	4
Hits	102	611	121	9

Summary: Two base hits, Trummer, 2 and Renfrow; home runs, Renfrow, Heppling, Woods and Eubanks; sacrifice hits, Heck; stolen bases, Heck, Ridings, McQueen, 2, and Higbee; double plays, Brauner to Ridings to Hill and Hill to Heck; unassisted, pitched, Smith, 6 plus Cooper, 2 plus streak on balls off Smith, 6, Cooper, 2 and Murphy, 4; base hits off Smith, 11, off Cooper, 10, off Murphy, 9; umpires, Rich and Smith.

AVIATION FIELD GETS FEDERAL APPROVAL

The aviation field south of the city recently secured by the chamber of commerce for a federal landing field has been accepted by the government, according to word received by the aviation committee of the chamber. The government will fence the tract and provide buildings. The chamber, it is believed, will be asked to arrange for plowing and seeding the field. Exactly what use the government will make of the field is not certain but it is known that this field is considered an important one in the coast chain because of its position at the divide between the Willamette and Umpqua valleys.

Egg Producers Encouraged.

The Egg Examiner, official organ of the Cooperative Poultry Producers, after summing up the season's experience and present outlook, has this note of confidence: "With a fairly steady market in prospect for the remainder of the summer, with assurance of a good fall market with higher prices than last year, and reasonable expectation of profit on eggs we have in storage—even with the higher cost of feed—the outlook for poultrymen is anything but discouraging."

HARD TO FIGURE LEADER

Race Now Nip and Tuck

Now is the time to double your fists, grit your teeth, roll up your sleeves and go to it with all the energy at your command. To halt for one moment the few remaining days would mean defeat for any one of the contestants listed below.

Standing of Contestants.
Mrs. Earl Garoutte\$302,000
Mrs. Geo. Kehlbeck\$300,400
Mrs. Ivan Barker\$304,900

ONLY 10 MORE DAYS OF CAMPAIGN.

WHO WILL WIN? IT'S UP TO YOU NOW

Judges Announced To Count Votes

Judges have been named to count the votes received by candidates in this newspaper's Profit-Sharing campaign which is to close Monday evening, July 2, at 8 p. m. At the First National bank the judges, as follows, will take charge of the lock box: T. C. Wheeler, N. E. Glass, George Knowles, C. A. Bartell and Harold E. Johnson.

RUBE MORRIS OPENS SUPER SERVICE PLACE

Rube Morris officially opened his super-service station at Ninth and Main streets Saturday. He recently took over the station, which has been in operation for more than a year. Mr. Morris is equipped to do power washing and hydraulic greasing as well as battery and tire repair and expects to install a hydraulic jack soon. He expects to dispose of his garage business on Fifth street.

Mr. Morris recently took over the agency for Dodge Brothers motor cars, giving up his Pontiac agency.

Mr. Morris had advertising posters scattered over the city Friday by airplane. Ten of the posters were good for a prize and seven of the prizes have been claimed.

Pot roasts may easily be made tender by adding a little vinegar before cooking.

The fishing contest conducted by A. Brand ended Saturday. First prize of a \$25 fly casting rod went to Dale Hawkins with 271 points. The second prize of a steel casting rod went to George Matthews with 239 points.

\$125.00 a Week More than a Bank President's Salary

This offer is an exceptional one. In all parts of the territory interest has manifested itself in The Sentinel's Profit-Sharing Campaign. The list of prizes is meeting the approval of all. And the guaranteed commission makes the offer doubly attractive.

It takes time and patience to do big things. The contestant who will put consistent, earnest effort into the campaign will get the greatest results. The leading prize is worth as much as some will make in a year. In business or farming one may lose one's investment and work of a year. In the campaign of only a few short weeks all are sure of something. Good wages can be earned through the commission feature alone. Think, "contestants who do not win a prize will receive one-fifth of the amount they collect. We will pay \$4.00 for 10-one-year subscriptions.

Unlike other contests of this nature, it does not cost subscribers anything to give contestants their votes. Those who pay subscriptions have votes to give away. They may give them to whomever they wish.

When contestants ask for votes they do not ask for anything that costs one cent. Everyone will subscribe or renew his subscription some day, anyway. If he wishes to do so now and give the votes to a contestant, it will be greatly appreciated.

The "battle of votes" waxes warmer as the end of the "second period" draws nearer. The end of this period may cause some changes, as candidates are gathering in their promises. The second period closes Monday night at 12 p. m. Next week will show a big gain in votes and may see some new leaders.

Notice the candidates are running neck and neck for the king prize. The Cottage Grove Sentinel is making it possible for all to get something new. Never been sold here before at a small price—Personal Stationery.

Three Seriously Hurt In Highway Accidents

Phillip St. Clair and Roy Gar- diner Badly Crushed in Auto Wreck.

Phillip St. Clair, 17, and Roy Gardiner, 17, are in a Eugene hospital as the result of an accident on Pacific highway Sunday night and Robert Harrington is at his home here suffering with injuries sustained in a crash Saturday night.

St. Clair is suffering with a fractured skull, fractured collarbone, fractured shoulder blade and crushed chest. Gardiner is suffering with a fractured skull and other severe injuries. The two were on their way home from Eugene at about 9 o'clock and had passed Goshen. According to witnesses of the accident the car in which the young men were riding turned off the paved portion of the highway in passing another car, the driver probably having been blinded by the lights of an approaching car, as there was no sound of leaving the paving. The turn back onto the paving probably was made too quickly, for the car seemed to jackknife, turned completely over once and came to a stop right side up headed in the opposite direction. St. Clair had to be pulled from the wreckage but Gardiner was thrown free. It was said that the car was not at the time traveling at an excessive rate of speed. Gardiner is the owner of the car but it was not known which one of the two was driving. The young men, both unconscious, were taken to Eugene by passing motorists. The condition of both is serious.

Harrington was returning from Eugene on his motorcycle and had passed Creswell. A car approaching Creswell turned out past the center of the highway in order to make a turn into a side road. The driver said that he was giving all his attention to a car in the rear and did not see the motorcycle approaching. Harrington did not see the signal given for the turn. The two crashed and Harrington sustained a dislocated hip and other severe injuries. He was picked up by a passing motorist and taken to Springfield for medical attention but was brought to his home here Sunday.

In the excitement of getting Harrington started for medical attention the motorcycle was left for a time where it had fallen on the paving with all lights burning.

The fishing contest conducted by A. Brand ended Saturday. First prize of a \$25 fly casting rod went to Dale Hawkins with 271 points. The second prize of a steel casting rod went to George Matthews with 239 points.

Wobbly Bicycle Rider Proves to Be Thief

Anyone who rides a bicycle on the streets of Cottage Grove would better know how to ride or he is likely to be apprehended by Chief of Police Green B. Pitcher on suspicion. A few days ago the chief noted a bicycle being ridden by a stranger who seemed not to handle the pedals and steering apparatus any too well. "I'll bet that's a stolen wheel," the officer remarked to Dr. B. R. Job, who chanced to be near. The chief acted upon his hunch and, sure enough, the wheel belonged to Albert Drake, Eugene newsboy, who is thankful that Cottage Grove's police chief has a way of knowing stolen goods when he sees them. A deputy from the sheriff's office came here and took the wheel and thief back to Eugene.

American Legion Plans Showing at Convention

The American Legion at its meeting Monday night elected LaSells Stewart, F. L. Grannis, Arthur Olson and Duncan P. Cameron as delegates to the state convention to be held August 2, 3 and 4 in Medford. Lester Bartholemey, Gordon MacAulay, Clyde Roberts and Ted Davis were chosen as alternates. The drum corps will attend the convention and a large number of Cottage Grove Legionnaires are also planning to be present.

The local post voted to sponsor a hill climb to be held here during the summer but no date was set. The following committee was appointed to complete plans: Post Commander Ray Vinson, chairman, Charles Hall, Clyde Roberts, James McCormick, Max Bird and Roy Fry. Calvin Funk post will try for the bronze statue which the state Legion is offering to the post making the most outstanding contribution to community welfare during the year. The local post is basing its claim on its sponsorship and backing of the boy scout movement here. The drum and bugle corps of the Legion boy scout troop will be sent to the convention and Duncan P. Cameron was appointed to arrange transportation, housing and entertainment of the corps while it is in Medford.

Lombard New Head Of Local Lions Club

Herbert W. Lombard will head the Lions club for the coming year, having been elevated to the presidency at the club's annual election last Thursday. Other officers are A. W. Helliwell, first vice president; Dr. Harold Axley, second vice president; William Thum, secretary; Schofield Stewart, treasurer; Victor Chambers and W. J. Woods, trustees for two years; John T. Fineran, lion tamer; Glen D. Smith, tail twister; Earl Mills, advisory committee. The newly elected officers will take over their duties at the first meeting in July.

L. W. Coiner, K. K. Mills and R. L. Stewart were appointed a committee to see what can be done to secure additional equipment for the children's playground in the city park.

Uncle Jim Is Visitor.
"Uncle Jim" Whitford, who will be 101 years of age this coming October, was here several days this week from the Masonic and Eastern Star home at Forest Grove. He is a member of the local Masonic lodge and was a guest of the lodge last night. He was one of the first guests to enter the Masonic home and during most of the time of his residence there has been official guide for visitors. He is yet as spry as most men at 80 and seems good for a number of years yet. His father lived to 108 years. "Uncle Jim" attended the recent session of the Masonic grand lodge in Portland.

Miss Ruth Stinnett of this city won the first prize of \$10 in a county-wide essay contest on the subject, "Community Health," conducted by the Eugene Federation of Women's Organizations. The prize was offered by the Lane County Medical association. The winner is a daughter of Mr. and Mrs. William Stinnett.

Corporal Left Behind By Entraining Battery

Military Boys Working Hard at Fort but Thoroughly Enjoying Labors.

(By Sergeant Sam Schwartz.)
FORT STEVENS, June 20. (Special.)—We had an experience that we had never had before. This year after entraining at 5 a. m. at Cottage Grove we had gone as far as Creswell before we noticed that one man was missing. We checked the men immediately and found that we had left Corporal Lloyd Swanson at home. At Albany we received a telegram from him saying, "I overslept, how can I get to camp?" He was responsible for getting his squad to the train in the morning—the men were there but the corporal wasn't. We made no stops enroute and arrived at Fort Stevens at 2 o'clock in the afternoon. We were assigned to one of the two new kitchens which are the very latest in combined kitchen and mess hall. They are conveniently arranged and it is not difficult to keep them clean.

American Legion Plans Showing at Convention

The first night in camp was quiet as everyone was tired and turned in as soon as possible and reveille seemed to come entirely too early the next morning. We have to get up at 5:30 and we go to bed at 10. And we still eat three times a day, which is quite handy.

Our work so far has been sub-caliber target practice at which we have made an excellent record, having scored the highest number of direct hits. Our daily schedule calls for calisthenics as soon as we are up and then we wash and have breakfast. After breakfast, quarters have to be polished and then we have infantry drill and fire the batteries until noon. In the afternoon the unfinished morning's work is completed and schools and games are held. There is always something to do.

Thursday we fire service for Fort Columbia, which is located on the Washington side of the Columbia river. So far we have given a creditable account of ourselves at target practice and all other drills, so we anticipate an excellent score on our firing tomorrow.

Saturday afternoon we will participate in the gigantic review of the 82nd infantry brigade to be held at Camp Clatsop and will be reviewed by Governor Patterson, General White, commanding officer of the Oregon national guard, regular army officers and high state dignitaries. A sham battle will be staged with about a thousand men participating. It is estimated that there will be 25,000 spectators.

So far we have had favorable weather with only one or two minor falls of rain. We had wonderful weather for the last week end and many spent Sunday on the beach and accumulated colorful but painful sunburns. Illness this year has been negligible. All the men seem to be enjoying camp and are in excellent spirits. The only complaint so far is that we have not been receiving enough mail. We never have enough to go around and some have to do without any. This shortcoming of the folks at home has alarmed us and we are anxious to get home from our war and find out why they have not written more—maybe they are relieved that we are gone!

Our mascot, Colin Garoutte, is having a great time and seems to be enjoying every minute. We don't have to try to keep him from getting homesick but do have to watch him to keep him out of mischief. He certainly is a good soldier, marches with the rest of us and does his part as well as the big ones.

Nazarene Church Has Program.
The Nazarene church held its children's day program at the church service at 8 o'clock Sunday evening. Each one in the Sunday school took part. Each foreign country in which the church has missionary stations was represented by a child in costume and appropriate readings were given for each. Each child did his part well. The program was under the direction of Mrs. John Jennings and Mrs. E. G. O. Groat.
