Leo Cossman and family of Woodland, Cal., took dinner Tuesday with Mr. Cossman's aunt and uncle, Mr. and Mrs. B. F. Martin.

Spirea Sets Example For Trees

C. M. Jackson has been puzzled by a peculiar growth on a spirea bush at his home on Second street. The growth is a new shoot that is flat, about an inch in width and about an eighth of an inch in thickness. All other shoots are round and Mr. Jackson is unable to explain the unusual form of this one. The probability is that the spirea, realizing that it is in a lumber country, has put forth a shoot that is already shaped for use. The growth, which is crooked and heavily leafed, has much the appearance of a strange bird waving back and forth in the wind. Growth of this kind on spirea are unusual but not entirely unknown.

They will spend their summer vacation with his parents, Mr. and Mrs. John Cossman of Eugene, former Creswell residents.

Mr. and Mrs. Al Bartel and children Bessie and Betty spent the week end at the home of Mrs. Bartel's parents, Mr. and Mrs. B. F. Martin.

Loganberry picking has started on the George Morris tract west of town.
