First aid in entertaining!**GENERAL ELECTRIC Refrigerator**

First aid in entertaining, nowadays, is a General Electric Refrigerator. With it you can make those delicate, different salads and aspics and desserts. You can make them at your leisure—the same morning, or the day before, or whenever you wish. There's plenty of room to store them. There's the scientific cold to keep them completely fresh.

You will like the quietness and the simplicity of the General Electric Refrigerator. It never needs oiling. It hasn't a drain pipe or a belt or a

fan. All its machinery is enclosed in the hermetically sealed casing mounted on top of the cabinet. And there is a remarkably large shelf area because the chilling chamber is so compact. All the models are up on legs, so the floor under them can easily be cleaned.

We want you to come in and see the various models. Only by studying them carefully can you fully realize how really revolutionary they are. And remember that they are made and guaranteed by General Electric.

Easy payments can be arranged, if you prefer.

As a special introductory offer, we will install the General Electric Refrigerator of your choice, for only \$10.00 down; the balance may be paid in a year and a half.
