NOTICE OF SALE OF GOVERNMENT TIMBER. General Land Office, Washington, D. C. Notice is hereby given that subject to the conditions and limitations of the acts of June 9, 1916 (39 Stat. 218), February 26, 1919 (40 Stat. 1179), June 4, 1920 (41 Stat. 758), and department regulations of April 14, 1924 (50 L. D. 376), the timber on the following lands will be sold March 25, 1929, at 10 o'clock a. m. at public auction at the United States land office at Roseburg, Oregon, to the highest bidder at not less than the appraised value as shown by this notice, sale to be subject to the approval of the Secretary of the Interior. The purchase price, with an additional sum of one-fifth of one per cent thereof, being commissions allowed, must be deposited at time of sale, money to be returned if sale is not approved, otherwise patent will issue for the timber, which must be removed within ten years. Bids will be received from citizens of the United States, associations of such citizens and corporations organized under the laws of the United States or any State, territory or district thereof only. Upon application of a qualified purchaser the timber on any legal subdivision will be offered separately before being included in any offer of a larger unit. T. 18 S. R. 1 W. Bungalow Garage Five Wins League Contest

Lebanon to Play Here Monday; Locals Go to Eugene to Play Aces.

The Bungalow Garage basketball team added two victories to its string by defeating the Company "C" team last Thursday night on the local floor in a Lane county basketball league game and trouncing a Roseburg team here Monday night. The score of the league game was 34 to 30 and of the Roseburg game 47 to 28.

The locals have two games scheduled. They will go to Eugene tonight to play the Eugene Aces, who are in third place in the league. The second game is with Lebanon Monday night, February 25, on the local floor. This promises to be a real battle as the Bungalow hoopers are out to wipe out a defeat administered by Lebanon on the Lebanon floor a month ago.

In the league game the locals took the lead from the starting whistle and held it throughout. Company "C" proved to be a continual threat, however, and the game was exciting and hard fought. At one time the Bungalows had a 12-point lead. In the last half the national guard team staged a rally but the final whistle ended the contest with the locals in the lead by four points.

The lineup follows:

C. G. (34)		Company "C" (30)
Oliver, 8	F	Boyer, 11
Swanson	F	Emmons, 4
Shofstall, 5	C	Van Duyn, 2
Miller, 2	G	Barnes, 5
Cochran, 9	G	Cobb, 3
Rollins, 8	S	Mathews
Swanson, 2	S	R. Murray, 5

The Bungalow team had little trouble in defeating the Roseburg team Monday night, the game ending 47 to 28. Cochran, Bungalow guard, and Strickland, Roseburg guard, tied for high point honors with 13 counters each. Miller, local guard, was second high with 11. The locals maintained a safe lead throughout the game.

The lineup follows:

Bungalows (47)		Roseburg (28)
Swanson, 3	F	Buckley, 9
Oliver, 8	F	Atterbury, 4
Shofstall, 2	C	Fisher
Miller, 11	G	Summerhalter
Cochran, 13	G	Strickland, 13
Rollins, 6	S	Goodman, 2
Heck, 4	S	

COUNTY WILL PROVIDE FOR HIGHWAY CROSSING

Due to the new survey for the McKenzie highway which will cut through a number of farms, the county court is arranging with property owners to provide means for the owners to allow their live-stock to cross the highway from one part of their farms to the other.

Already six cases of this kind have been considered by the court. In one case an underground culvert with a height of eight feet will be installed so that the cattle herds can be taken from one side of the highway to the other.

Settlements with four property owners have been made on a cash basis. In some cases owners will pipe water from their springs on one side of the highway to the other so that it will not be necessary to have the herds cross.

In another case of a sheep flock owner a four-foot culvert will be provided.

Peach Spraying Is Advised.

C. E. Stewart, county fruit inspector, is advising owners of peach orchards that now is the time to spray their trees with 6-6-50 Bordeaux mixture. Immediate action is necessary, says the inspector, as buds will soon set on the trees and the spraying should be done before they start. The Bordeaux spray is a preventive for leaf curl. It is too early in the season to give an estimate of the fruit crop outlook for Lane county for the year, says Mr. Stewart.

County Fair Dates Chosen.

The Lane county fair will be held this year beginning Wednesday, August 21, and closing Saturday, August 24. The dates have been set one week ahead of those previously announced. This change was made to avoid conflict of dates with a carnival company, scheduled to appear at fairs in this district, according to Mrs. Mabel H. Chadwick, secretary of the fair board.

County Nurse Gives Report.

The January report compiled by Miss Bessie Williams, county nurse, shows 131 visits made in the general course of work, as well as 12 schools visited and 56 pupils inspected.

Three new cases of tuberculosis were found by Miss Williams. Doctors' attention was secured for nine children, including three for feeding problems, two for suspected tuberculosis, two neuralogical and two for malnutrition.

The total number of visits was made up as follows: General, 23; tuberculosis, 11; child welfare, 42; prenatal, 11; maternity, 2; communicable diseases, 9; other visits, 30.

Tax Segregation Is Made.

Segregation of tax collections to the amount of $62,171.11 was announced last week at the office of the county treasurer. These collections have been turned over by the sheriff's office during the past few weeks.

The following is the segregation:

State and county	$32,543.68

OREGON WILL RECEIVE FEDERAL AID ON ROADS

Oregon will receive $1,191,968 as its share of $75,125,000 apportioned by the government for federal aid in road construction for the fiscal year which begins on July 1, according to C. E. Francis, director of the Oregon State Motor association, which is affiliated with the American Automobile association.

Mr. Francis, basing his statement on information received from the research department of the A. A. A., said that the funds will be apportioned on the same conditions that have governed past expenditures. In general the states pay half the cost of federal aid construction, which is limited to the designated system which includes the main highways of the nation.

Isle Knows No Winters

The Isle of Pines has one continuous summer, the variations of temperature throughout the entire year being scarcely as great as often occur in a single summer month in many of the Northern states. It is rare, indeed, when the thermometer in summer on the Island registers as high as 90 degrees, and in winter the mercury never falls below 50 degrees.

Fuel system of the new Ford has been designed for reliability and long service

THE practical value of Ford simplicity of design is especially apparent in the fuel system.

The gasoline tank is built integral with the cowl and is unusually sturdy because it is made of heavy sheet steel, terne plated to prevent rust or corrosion. An additional factor of strength is the fact that it is composed of only two pieces, instead of three or four, and is electrically welded—not soldered.

Because of the location of the tank, the entire flow of gasoline is an even, natural flow—following the natural law of gravity. This is the simplest and most direct way of supplying gasoline to the carburetor without variations in pressure. The gasoline feed pipe of the new Ford *is only* 18 *inches long* and is easily accessible all the way.

The gasoline passes from the tank to the carburetor through a filter or sediment bulb mounted on the steel dash which separates the gasoline tank from the engine.

The carburetor is specially designed and has been built to deliver many thousands of miles of good service.

Since all adjustments are fixed except the needle valve and idler, there is practically nothing to get out of order.

The choke rod on the dash acts as a primer and also as a regulator of your gasoline mixture. The new hot spot manifold insures complete vaporization of the gasoline before it enters the combustion chamber of the engine.

As a matter of fact, the fuel system of the new Ford is so simple in design and so carefully made that it requires very little service attention.

The filter or sediment bulb should be cleaned at regular intervals and the carburetor screen removed and washed in gasoline. Occasionally the drain plug at the bottom of the carburetor should be removed and the carburetor drained for a few seconds.

Have your Ford dealer look after these important little details for you when you have the car oiled and greased. A thorough, periodic checking-up costs little, but it has a great deal to do with long life and continuously good performance.
